Had Dismal Fire
During the time of the funeral of the late Jacob Hardnock, a fire broke out and with no known cause, at the home of August Johnson, which consumed his barn and a very modern

crib that was more of an elevator than a crib, both being excellent buildings. The neighbors responded readily to the call for help as did also the Alvo Fire Department. The people were assembled at the funeral and with their best clothes and to fight the fire were not properly attired, but did not let that deter them and hurried to the scene of the fire and did all possible for the extinguishing of the blaze. Their efforts were responsible for preventing the spread of the flames to other buildings nearby.

In the crib were some 2,000 bushels of corn. It is reported that the buildings were partially insured and that the insurance on the grain was \$100. The loss will be greatly in excess of the insurance, which is near \$2,000.

WOULD IMPORT WINE, BEER

Athens, Ga. — Immediate steps should be taken to legalize use and importation of light wines and beer, said James Harvey Rogers, professor of political economy at Yale university in addressing the institute of public affairs here. "Relief would be brought to Germany thru beer exports," he asserted. "With wine imports, friendly co-operation in monetary policies could surely be arranged with France. In addition, every means available and possible should be used to hasten mutual downward tariff revisions with other countries."

Nebraska City Packing Plant to Cease Killing

Indefinite Closing Means Loss of Employment to 400 Men in the Otoe County City.

Killing operations at the Morton-Gregson packing plant at Nebraska City will cease at the end of this month, statement issued by C. M. Aldrich, manager, states.

The packing house will remain closed indefinitely, with only hog and cattle buying operations to be carried on in the future. The shut down of the plant will affect some 400 workmen who have been engaged in the plant.

This industry has been the largest in the Otoe county city and its closing comes as a severe blow to the residents of Nebraska City.

The statement: "The anxiety of our citizens with reference to the operations of this plant are natural and in order to quiet numerous rumors floating around and to give a clearer understanding we state the facts as follows:

"We are operating as usual now and will continue to do so until the close of this month, then we expect to discontinue killing operations here and the plant will remain closed indefinitely. We shall continue buying both hogs and cattle for the purpose of supplying other Wilson houses.

"This action is due entirely to change in conditions and distribution and to business conditions which obtain in other lines as well as our own. Our people feel that it is better policy to operate their larger plants to full capacity rather than operate additional numbers of plants and all of them on limited schedule.

"We have had satisfactory operations the past six months, about 25% greater volume than corresponding time last year and returns have been much more satisfactory.

"Reports that the plant is being closed on account of failure to meet Government requirements are not correct, as the plant fully meets Government requirements and relations are pleasant as they have always been.

"It is a matter of regret to all concerned in the company that conditions make this move seem advisable, but the conditions are not of our making or their making, nor are the people of Nebraska City responsible. We are simply having to pay the price here in this community that many others have suffered and will have to suffer until present business conditions are changed permanently for the better."

HOWARD URGE SSBUBMISSION

Washington, May 5.—A 100-word prohibition plank pledging the democratic party to submission to the people of prohibition repeal and permitting state option was suggested Thursday by Representative Edgar Howard of Nebraska.

He said a "distinguished Democrat" already named a delegate to the national convention and who probably will be on the resolutions committee, had asked 12 members of congress to submit 100-word suggestions for a prohibition plank.

Howard would not name the "distinguished Democrat."
Many party leaders, including Alfred E. Smith, the 1928 nominee, have urged a brief platform and a states' rights declaration on prohibition.
