### "The Passover"

Exodus 12:21-28.

It was a tremendous undertaking to get the confidence of the Israelites; but at last Moses and Aaron succeeded. The people are willing to follow their leader. But Pharaoh was not willing to let the people go. They were giving such excellent and cheap service. What will God do to make the King willing? It is a tragic story recorded in Chapters 7-10. Had the King obeyed and given heed to God's plea to "Let my people go" (Ex. 5:1) he would have saved himself and his people much suffering. But listen to his haughty way of answering God's servants: "Who is the Lord, that I should obey his voice to let Israel go?" Here man sets himself up against God. Pharaoh in his obstinacy challenges God. The battle is on. Who will win?

The loving, kind and merciful Father shows his might and power, bringing ten plagues upon the King and his people, but he resists in his stubbornness and hardness of heart against God, defying Him.

Nine plagues have taken place but Pharaoh has not weakened. Here are the nine plagues:

- 1—Turning all their water into blood;
- 2—Bringing up from the Nile great swarms of frogs, which covered the land and entered their houses;
- 3—Changing the dust of the earth into lice, infesting men and beasts.
- 4—Swarms of flies filling the entire country except the land of Goshen, where the Israelites were;
- 5—A murrain (an infectious and fatal disease) sent upon all the cattle of Egypt, killing all the cattle except those of the Hebrews;
- 6—Ashes thrown into the air by Moses became boils and blisters upon men throughout Egypt;
- 7—A terrible hail storm, destroying all the crops and breaking down the trees, but not in Goshen;
- 8—A swarm of locusts came upon Egypt devouring what was left by the hail;
- 9—Thick darkness for three days over Egypt, but the Israelites had light.

The tenth and last will follow soon. In this one, Moses and Aaron do not participate, but an angel is called in to action. Before the last act of the drama is enacted, the rite of the passover is instituted. But previous to this, the Israelites were commanded to ask from their neighbor Egyptians portable valuables, especially articles of silver and gold, and these were gladly given, to hasten their departure. These articles were belated wages. This has been called "Spoiling the Egyptians," but it really gave

them a chance to do a small measure of justice.

Now the Israelites were ready to receive instructions how to prepare the passover. With a fulness of detail which marked its vital importance, the Lord through Moses and Aaron made known the rules for the chief religious festival of the Hebrews, the passover. This ordinance was to go down through the ages till it culminated in that supreme event for which it was instituted, the crucifixion of the Son of God. Hence, as the Christian festival of the Lord's supper, it has come down to us and be forever celebrated on earth and in heaven.

The night before their departure, the Hebrews were to make ready for their journey; Kill the paschal lamb, roast it whole, brake no bones, invite enough friends to eat all of it and burn the residue; the blood of this sacrifice should be used as the means of identifying their homes from the Egyptians, that no mistake would be made by the destroying angel, who was to slay all the first born in Egypt—the tenth plague.

These instructions were strictly followed! There was no law enforcement necessary, the people obeyed God. No one asked for modification or repeal of the law, all had to obey or take the consequences. The blood was applied as directed.

This rite of the passover, with us the Eucharist, was to be perpetuated for all times. The same is to be explained to our children. It is a characteristic of children to ask questions of the meaning of things; adults also should share this quality, should know what they believe and why they believe it, should be able to give a reason for the faith that is in them and for all their religious practices. Herein is the fundamental reason for the Sunday school.

The passover a type of Jesus Christ (a) Instituted for the believers, the unbelievers were excluded; (b) in commemoration of passing over the first born, deliverance from Egypt; by Christians a memorial of Christ's death and the shedding of his blood for the remission of sin and deliverance of its power, to serve God; (c) It's proper observance requires proper preparation by the communicant (1 Cor. 11:28). "But let a man examine himself, and so let him eat of that bread and drink of that cup." (d) It is the blood of the Lamb slain that saved Israel; it is the blood of Jesus Christ that saves the world; the individual that saves.

"There is power, power, wonder working power, in the precious blood of the Lamb."

Luther Womack was a visitor in Omaha on last Saturday where he had a number of hogs on the market and was quite well pleased with the amount which the porkers brought for it was considerable more than they would have realized a month ago.

This rite of the passover, with us the Eucharist, was to be perpetuated for all times. The same is to be explained to our children. It is a characteristic of children to ask questions of the meaning of things; adults also should share this quality, should know what they believe and why they believe it, should be able to give a reason for the faith that is in them and for all their religious practices.
