The new international contract bridge rules have made it possible now for an American to play with Argentinians, Greeks or Chinese. POLITICIANS HATE TO ADMIT MISTAKES

How rarely does any public man admit that he has made a mistake! It seems to be a rule of politics that the politician who admits his fallibility has committed political suicide.

The whole world may know that he has made an egregious mistake. He himself must never admit it.

In 1923 there was the famous promise of the two-car garage, the chicken in every pot. Has the maker of those promises ever acknowledged his mistake? You may read every line the president has written or spoken and never an admission of that error will be found.

big, and really wise. How high he looms above others who crack the whip of fear, who seek by coercion or intimidation to rob American citizens of the untrammelled use of their most precious birthright—the freeman's ballot!

Think of your country first. What is good for the country is good for the General Electric company. And what the country needs at this time is for president a leader "of sound intelligence, fine intuitions, deep sympathies, adequate understanding, and real independence."

That is what Owen D. Young believes. Because he believes it he is supporting Franklin D. Roosevelt for president, on the platform adopted by the democratic national convention.—World-Herald.

IN THE HOUSE OF HIS FRIENDS

When President Hoover tried to make the country believe, in his speech at New York, that a democratic victory "would destroy the very foundations of our American system" he dealt his own candidacy the severest blow it has suffered in this campaign.

His cry of alarm, that his own defeat would mean that "the grass will grow in streets of a hundred cities, a thousand towns, and weeds will overrun a million farms," was unworthy any president of the United States.

With utterances such as these Mr. Hoover throws away not only all dignity but all restraint. It is a sight to make the judicious grieve.

Of all men in this republic, its president should be the very last to attempt to arouse panic on top of distress; to imperil the stability of his country in the vain hope of furthering his own ambition.

It is significant of the resentment his course has aroused that no less an institution than the National City Bank of New York hastened, immediately following his speech, to speak a sanely reassuring word.

Women have entered the United States House of Representatives, and have held important state positions from Governor down. At present two of the seven important bureaus of the Labor Department are headed by women—the children's bureau by Miss Grace Abbott, and the women's bureau by Miss Mary Anderson.

Nor is the National City Bank alone among Mr. Hoover's supporters in repudiating the panic and alarm appeal to which his campaign has sunk.

On the very day that Mr. Hoover himself resorted to it Roger Babson admitted that "we do not expect any serious dislocation of business should the democrats win."

General W. W. Atterbury, head of the Pennsylvania railroad, and a republican leader, a short time before told a meeting of Chicago bankers that no matter who won business would not suffer from the election.

THE PUBLIC should be prudent in seeking relief from pain. Take nothing which does not have the approval of the medical profession.

BAYER ASPIRIN will never do you any harm, and almost always brings the desired relief. But remember that the high medical endorsement given Bayer Aspirin does not apply to all tablets for relief of pain.

THE DOCTOR is careful to specify Bayer Aspirin for these important reasons: It has no injurious ingredients. No coarse particles to irritate throat or stomach. Nothing to upset the system. Not even any disagreeable taste. The Bayer process insures a pure, uniform product.

theory that the election would have any adverse effect on business conditions.

Prof. Irving Fisher, a strong Hoover supporter, declared that "whether Roosevelt or Hoover is elected, America will continue to climb out of the depression."

And the Commercial and Financial Chronicle, the foremost organ of finance in the United States, said:

"Many of the president's most ardent supporters seek to instill a feeling of fear in the minds of the voters. For ourselves we have no patience with tactics of this kind. Without wishing to express a preference for either one of the two candidates (and the editor of this paper is not yet entirely clear as to how he shall cast his personal vote), we have no hesitation in saying that things will go on pretty much the same whichever candidate is elected, and we still believe that things will improve after the election, whatever the outcome."

These are the responsible voices of American business and industry. They refuse to throw in with the discreditable panic campaign or to be affected by it. They are not willing to attempt to scuttle the ship merely because they cannot have their own pilot.

It is too bad that Mr. Hoover, before engaging on his last desperate barnstorming effort, did not stop to learn a lesson from the wisest of his supporters.—World-Herald.

A WOMAN CABINET OFFICER?

The attitudes of President Hoover and Gov. Franklin D. Roosevelt toward women in politics are leading some political prognosticators to predict the installation of a woman member into the hitherto male-monopolized President's Cabinet.

The records of women have shown that the country need not "view with alarm" the possibility of such an appointment. From the ranks of the 10,000,000 female workers in the United States, several women of the needed executive experience have risen, capable of filling high positions satisfactorily.

Women have entered the United States House of Representatives, and have held important state positions from Governor down. At present two of the seven important bureaus of the Labor Department are headed by women—the children's bureau by Miss Grace Abbott, and the women's bureau by Miss Mary Anderson.

Nor is the National City Bank alone among Mr. Hoover's supporters in repudiating the panic and alarm appeal to which his campaign has sunk.

On the very day that Mr. Hoover himself resorted to it Roger Babson admitted that "we do not expect any serious dislocation of business should the democrats win."

ROOSEVELT'S ENEMIES

As in the case of the great Grover Cleveland, many persons who in the beginning could not find it in their hearts to love Franklin D. Roosevelt for himself alone are learning to love him because of the enemies he has made.

The foregoing statement has no reference to those who opposed Governor Roosevelt in the convention, but the enemies he has made come into the open since his nomination. Particularly reference is made to the power interests and the international bankers.

The power interests have been active against Mr. Roosevelt since he first became an avowed candidate for the democratic nomination. Their influence was felt in many state conventions and primaries and it was massed against him at Chicago. They will leave no stone unturned to defeat him.

If the international bankers and usury boys had any last lingering hope that they might be able to control Roosevelt, it was dispelled in his Columbus speech when he went straight to the heart of the banking and credit situation and proposed specific reforms.

The predatory interests see in Roosevelt, not the impractical dreamer and radical they try to picture him to others, but a man with firm convictions who is inimical to their drag and pull.

It is no exaggeration to state that every major vested interest that has profited by privilege, favoritism and

ROLPH WILL GREET HOOVER

Sacramento, Calif. — Governor Rolph was making plans to greet President Hoover when the latter arrives in California next Tuesday en route to his home at Palo Alto, to vote. The governor said he would meet the president's train at the state line, or receive him at Sacramento and either hold a reception for him at the governor's mansion or extend the state's official welcome at the train.

Alan Hoover, son of the president, arrived at Palo Alto from Los Angeles to welcome his father. Herbert Hoover, Jr., a professor at California Institute of Technology, Mrs. Hoover and the three grandchildren of the president are expected soon. The city of Palo Alto is planning a nonpartisan welcome for the president. Arrangements are being made by Mayor Thomas.
