**FARMERS FACE ACCUSATION**  
Jefferson, Wis.—A court showdown on just how far Wisconsin farmers may go in demonstrations at mortgage foreclosure sales is expected here within the next few days. From his sick bed in his home at Watertown, Harold Daykin, district attorney of Jefferson county, said he would issue about eleven warrants against as many farmers who participated in a recent demonstration "just as soon as I recover from this cold."

"The warrants will charge rioting," the prosecutor said. "Conviction carries penalties of no more than six months' imprisonment or a maximum fine of \$500 or both." Daykin's threat of criminal action is the outgrowth of a sale on the Otto Sobock farm near Cambridge in Jefferson county last Monday. About 250 farmers participated. Sobock complained the crowd prevented him from bidding.

**LEAPS FROM A PAST TRAIN**  
New Orleans.—Using his head and elbow as a battering ram, Stanley Anderson, St. Louis underworld character, hurled himself thru a plate glass window on a speeding train and escaped from two United States marshals who were bringing him here to face a charge of murder. Although the train was moving at forty miles an hour, Anderson apparently was not seriously injured. His cap was found in the midst of splintered glass by the side of the right of way and a negro woman said she saw a man answering his description hurry away after the train passed. Later officers received a report the same man was seen to hitch hike a ride in a car traveling toward Baton Rouge.

## Would Shift Schools Under State's Wing

Deputy State Superintendent Asserts Education Is Nebraska's Business.

Lincoln, Neb., Jan. 24.—Shifting of the responsibility for maintenance of a "minimum" educational program from the shoulders of various school districts onto the state for purposes of economy and standardization was urged before the Nebraska association of county superintendents here today by Fuller L. Austin, deputy state superintendent of public instruction.

Declaring "the education of your children and my children is not the responsibility of some local district in Nebraska," Austin urged today away with the law of "state aid to weaker districts" and supplanting it with one calling for "state support of a minimum program in all districts."

State support of such a program, he said, would not mean an increase of expenditure from tax funds for school purposes.

"State support," Austin concluded, "would relieve a high percentage of the very worst cases of unbearable school taxation existing in Nebraska at the present time, and would, I believe, materially reduce the grand total public school expenditure."
