

More Than Just 'Another Shop'

To you car owners we mean more than just "another" auto repair shop. We have a personal interest in you and your car—a real desire to **SAVE** you money thru helpful suggestions and expert, honest workmanship.

MURRAY GARAGE
A. D. BAKKE, Propr.

Murray

On last Tuesday the weather was so severe that the school which meets in the church and the library was discontinued as it was so severe that the buildings could not be kept warm enough to work in the school room at a profit.

Mrs. Hattie Royal, who has been making her home in Plattsmouth and assisting in the care of Mrs. J. C. Ellington, was visiting for the past few days at the home of Mr. and Mrs. J. L. Stamp where all sure enjoyed the visit very much.

Those who attend the school at Union were kept at home on Tuesday because of the freezing of the water pipes in the school building at Union on last Tuesday night and so there was no school until there was an opportunity to make repairs of the plumbing.

Mrs. Sadie Oldham who many months ago had the misfortune to

fall and injure her hip and since has been compelled to keep to her room and bed, but having made good progress was able to sit up in a chair and is making good progress, which is pleasing news to her host of friends in Murray and vicinity.

The fleet of trucks owned and operated by Frank Mrasek were busy during the stormy and most disagreeable day of this winter. They were delivering stock for W. J. Philpot, Mr. Rapp and hogs to W. B. Livingston to the South Omaha market on last Tuesday and Tuesday night and a very bad night, but just the same Mr. Mrasek and his co-workers stuck to the job until it was completed.

George Nickles and wife were home from Lincoln for over Sunday and also visited in Omaha, where they were called on account of Mrs. Bertha Shrader who it will be remembered last fall was struck by an automobile and severely injured and who has but just now been able to get out of the bed. Late last week Mrs. Shrader had the misfortune to fall and fracture the affected leg, which places her back in her bed which she had occupied for so long on account of the former accident.

To Make Home Here Again.

Arthur Reed and family who have been residing near Alden, Kansas, for the past few years, where they have been farming, and having resided here for years before have in this community many friends and while here last fall rented the Nickles farm southeast of Murray and

will make their home in this section again, expecting to move during the present months as soon as the farm is evacuated, which is now occupied by A. D. Crunk and family who are soon to move to the Mrs. Edward Murray farm south of Union.

Earl Mrasek was down to Kansas last week and brought the implements and live stock to Murray, delivering them to the farm. Later Earl will go to Kansas to secure the furniture and such other things as they may have to bring. Murray extends a very cordial welcome to Mr. Reed and family.

Work Proceeding Nicely.

The home which Contractor Ira B. Green is building for Mrs. Fred Hanni has been making good progress during the past few weeks and is now about ready for the plasterer, and while the work has been delayed during the past few days, the progress has been very satisfactory.

Ladies Aid to Meet.

The Ladies' Aid of the Christian church of Murray are soon to hold a very enjoyable meeting which will be typical of the ladies for they sure are to have good things to eat. They will indulge in oysters on February 24th and also share them with their friends.

Mrs. Ingrid L. Ingwersen Dies.

Mrs. R. H. Ingwersen who had been in poor health for some time died on last Monday at their country home northwest of Nehawka, where the family have resided for many years. Miss Ingrid L. Nelson was born in Sweden and came to America when a girl, and after having resided here for some time was married to R. H. Ingwersen, some more than thirty years ago. They made their home on the farm where she passed away ever since. This union was blessed with two sons and two daughters, they being Stirling Ingwersen of near Plattsmouth, Harry Ingwersen at home, also two daughters the Misses Leverna and Pauline Ingwersen at home. She leaves also three sisters and three brothers, the sisters being Mrs. Ole Lundberg and Mrs. Gertrude Carper of Nehawka; Mrs. Frank Vantine of Crawford; a brother, Gust Nelson of Nehawka; Harry Nelson of Murray and Theodore Nelson of Imperial.

Early in life this excellent woman united with the Methodist church and had ever maintained her membership in this church. The funeral is being held this Thursday afternoon from the Methodist church of Nehawka and directed by the Hobson funeral home of Weeping Water, the discourse by the Rev. George I. Morcy who is pastor of the Methodist church at Hooper and who is being assisted by the Rev. E. S. Pangborn, pastor of the Methodist church at both Nehawka and Weeping Water. The interment was made at the country churchyard near where she had lived for these many years.

Think Stork Fine Bird.

There were four families recently blessed when the stork, that generous old bird, gave to each a very fine boy baby, the first being presented to Mr. and Mrs. Curtis Ferris, weighing six and a half pounds, and gladdening the hearts of the parents and also of their many friends, as well as Grandfather John Ferris, who cannot help but wear a smile now. The second to arrive was given to Mr. and Mrs. Lucean Carper and bearing the name of Master Allen Lucean Carper and you bet Lucean and the good wife are happy over the arrival. The third came to the home of Silas Perry, Mrs. Perry formerly was Miss Leyda, and daughter of Mr. and Mrs. O. T. Leyda, which adds much to the circle of happy relatives. The fourth was presented to Mr. and Mrs. M. R. Glaze, Mrs. Glaze being daughter of Mr. and Mrs. Frank G. Hull, and sure the events have brought much pleasure to many of the happy relatives and caused the congratulations of a host of friends to be extended.

BENEFIT DANCE

Benefit dance for the Lewiston band, Friday evening, February 10th at Murray Hall. Admission 10c; 15c for dancers. Refreshments served. Good music and good order. d&w

AIR MAIL IS THREATENED

Omaha.—P. G. Johnson, president of United Air Lines, said it was impossible to predict intelligently the effect of the senate's refusal last week to approve any part of a 19 million dollar appropriation for air mail. "Unless some appropriation is made, there can be no airmail," Johnson said. "It would not be possible to go ahead and carry the mail, receiving as payment only the actual income from the service, unless a new law were passed."

Cass County Farm Bureau Notes

Copy furnished from Office of County Agent Waincott

400 Expected at 4-H Club Banquet.
Four hundred 4-H club members, leaders and Farm Bureau board members will enjoy their first county-wide 4-H club banquet, in Weeping Water, Friday evening, February 10. Each member will pay 20c for their plate and an evening's entertainment.

Some of the guests that will be present are, L. I. Frisbie, state club leader, George Jackson, past secretary of the Nebraska state fair, Senator W. B. Banning, Representative George Nickles, F. S. Rickard, secretary of the Omaha Livestock Exchange, editors and representatives from business men's organizations throughout the county.

Chick or Laying Mash Costs

About 50c Per 100 Pounds.
The following recommended chick and laying mash mixtures can be mixed on the farm at the above small cost. The chick mash mixture is as follows:
Yellow cornmeal ----- 400 lbs.
Shorts ----- 200 lbs.
Bran ----- 100 lbs.
Pulverized oat groats ----- 100 lbs.
Alfalfa leaf meal ----- 80 lbs.
Meat and bone meal ----- 75 lbs.
Dried skin milk or dried buttermilk ----- 50 lbs.
Salt ----- 10 lbs.
For early season use add 1% good grade cod liver oil. Mix fresh every week. Direct sunshine whenever it can be provided without chilling chicks. Cod liver oil is after all only a substitute.

Green feed (alfalfa, clover, lettuce, lawn clippings, etc.) cut in short lengths. When liquid skimmed milk or liquid buttermilk is kept before them all the time it is not necessary to use the dried milks.

A good laying mash mixture is as follows:
Corn ----- 400 lbs.
Oats ----- 200 lbs.
Wheat ----- 200 lbs.
Alfalfa meal ----- 100 lbs.
Tankage ----- 150 lbs.

Make Cheese from Surplus Milk.

700 Cass county women enrolled in extension project clubs are going to learn more about cheese making in the home when they hold their February meetings.

Club leaders attending the leader training meetings which are held this month will discuss the making of cheddar cheese, soft cheese, cottage cheese and Neufchatel cheese. The leaders will take the information from the leader training meetings books to their individual clubs.

Since the price of milk has fallen more than the price of its products much interest is expected to center around the subject of making cheese on the farm. Cheddar cheese can be made anytime during the year but is best adapted to regions where it is possible to keep the milk cool so that gas forming bacteria will not develop. Where there is a surplus of milk as there often is during April, May and June, the making of cheddar cheese offers a means of conserving for later use milk which might otherwise be wasted.

Can You 'Fix It'?

Do you know how to splice a rope? Can you solder a leaky bucket? Would you be able to adjust a balky binder? Can you make over an old coat into a new one? Can you mend a hole in the plastering, fix up a broken stairway, repair a fence or a gate, or do several hundred other things that need to be done around the farm and home in a year like 1933?

All of these questions apply to the Fix-It club project, a new one for the boys and girls 4-H club folks. The circular which includes the suggestions and directions looks like a big catalog but does not contain all of the jobs that a wide-awake boy or girl can do to help the family get along without much cash outlay this year.

In addition to fixing up equipment, the boys and girls in the Fix-It club are going to learn games and stunts, tricks and puzzles which they can use in entertaining themselves and their friends, and they will also take up accident and fire prevention and the control of flies, rats, and similar farmstead pests.

KINDER ON BOARD

Indianapolis.—Louis A. Johnson, national commander of the American Legion, announced that the following men have been elected to the board which issues the American Legion Monthly: Harry C. Hackson, New Britain, Conn.; Jean R. Kinder, Lincoln; Phil Conley, Charleston, W. Va.; A. Stanley Llewellyn, Camden, S. C., and the national commander.

Frank 'Ike' Mahoney Badly Hurt in Crash

Betty Hickey, 23, of Omaha, Killed Almost Instantly in Collision of Street Car and Auto.

Omaha.—County Commissioner Frank "Ike" Mahoney was possibly fatally injured and Miss Betty Hickey, 23, Omaha, was killed almost instantly late Monday night in a collision between Mahoney's automobile and a street car near 18th and Farnam sts., in downtown Omaha.

Mahoney's chest was crushed. Hospital attendants said his condition is very serious. The crash occurred during a heavy snow storm with a high wind blowing.

W. H. Bryan, motorman on the tram, said he saw Mahoney's car approaching and brought the street car to a halt before the collision.

An eye witness said Mahoney's car appeared to swerve slightly and then crashed head-on with the street car. He said he thought the street car was moving slowly.

Miss Hickey's back and neck were broken. Mahoney was unconscious when taken from the wreckage.

He is a former Creighton university football, basketball and baseball star, and had played semi-professional baseball and professional football. He was elected county commissioner on the democratic ticket at the last election.—State Journal.

HEAR "HOBO ISLAND" CASE

Echos from "no man's land" vibrated in Judge Goodrich's court Monday at Glenwood, when the suit of John Newsen plaintiff vs. Carl Hollin and Troy Brooks, defendants, came up for hearing says, the Opinion-Tribune.

All members of the suit are of the colored gentry residing on the once famous but now historic "Hobo Island" country along the Missouri river, where landed titles are still imperfect and possession, backed with a strong will and a good gun, are nine points of the law.

By the evident edit was shown that Newsen settled in the community in 1925, fencing in about 100 acres as a "squatters claim," and had made a good living and built a very comfortable little home, and in 1931 had rented a portion of the land to the defendants, but difficulties arose, and Newsen was subjected to several inconveniences, among them the burning of his home and he being the recipient of a charge of shot from a shot gun, but he "stuck it out" and continued to rent out land, but finally brought suit for collection of the rent. The amount claimed was \$24 from Hollin and \$60 from Brooks. A jury composed of Dick Hamilton, Walter Stivers, Rev. Sales, Bert Pace, Wm. Cooper and Chas. Hunt, heard the evidence, which required the entire day. After four and a half hours deliberation returned a verdict for the defendants, Hollin and Brooks.

SUFFERS SEVERE INJURY

Clyde W. Drew, Jr., 23, of 310 South Fifty-third street, Omaha, suffered a compound fracture of the left leg, and his father, Clyde Drew, former Plattsmouth resident, was cut about the face and hands Saturday night when loaded cattle trucks crashed into their car east of Osceola, Ia., and demolished it.

Occupants of the truck which struck the Drew car, and another cattle truck following close behind which crashed into the first, escaped with bruises and minor cuts.

The Drews had left Omaha at 4:30 Saturday afternoon for Poplar Bluff, Mo., where the elder Drew had a business engagement. The truck struck their car head-on at the approach to a bridge.

Young Drew was taken to a hospital at Chariton, Ia., then to Lord Lister hospital at Omaha. His father was given medical attention and proceeded on to Poplar Bluff upon the arrival of Mrs. Drew and their son, Jack. Jack drove his father the rest of the way.

Young Drew was resting well Monday, although his injury was severe, the bone having protruded through the flesh above the knee. He received treatment without anesthetic. As a youngster he suffered a compound fracture of the right leg. The right leg was not injured this time.

CHIMNEY BURNS OUT

A chimney at the residence of Joseph Schless, 15th and Oak streets, burning out called the fire department to that place late Tuesday night. The danger of fire was over when the department arrived.

FARM PRICES RUN HIGHER

Chicago.—Prices of all farm products, except grain, rose sharply, borne upward by a swirling snow-storm and fast dropping temperatures. It was a sellers' holiday and buyers had to like it. The hog market led the way, prices shooting up 35 cents a hundred to reach a top of \$4, paid here last Nov. 10. Fresh supplies were slim, with prospects that Wednesday's would be smaller because of stormbound highways in the middle west. Traders purchased frantically, believing runs the remainder of the week would be of famine proportions.

Cattle were steady to strong, with buyers watching the weather situation closely. The sheep run was heavy. Poultry, butter and eggs also reaped benefit. Supplies were comparatively light.

Tomek May Get Big Federal Plum Shortly

David City Democrat Said to Lead for Revenue Collector—Job in Past Paid \$6,400 a Year.

The first big democratic plum to drop from the federal government into the hands of the rank and file in Nebraska is likely to fall the last of February when the state democratic delegation in congress meets to do some endorsing for the appointment of revenue collector, a job that in the past has paid \$6,400 a year. The position is now held by A. B. Allen of Omaha, at the pleasure of the treasury department.

How the delegation is to get President Hoover to submit the appointment to the senate for confirmation, remains one of the mysteries. If the appointment must wait on President Roosevelt it may be longer coming.

National Committeeman Mullen and National Committeeman Ryan who might claim to recommend in lieu of Nebraska democratic senators, are reported to be willing to leave the task to the democratic congressmen. The four applicants listed are A. P. Sprague of Lincoln, Albert P. Fitzsimmons of Tecumseh, James H. Hanley of Omaha and Phillip Tomek of David City. The latter claims he has four of the five congressmen in his favor and the fifth one willing to take him as second choice.

This is the only federal appointment which Nebraskans expect to

Treat Yourself To a New Suit

get at the pleasure of the incoming democratic administration as the other places are filled by republicans who hold commissions for a definite term of office.

CLUB HAS MEETING

The Pleasant Ridge Project club met with Mrs. John B. Kafenberg Tuesday, January 24th. The ladies came at 11 o'clock, each bringing a covered dish which provided a most delicious luncheon at noon. Pictures were taken of the members of the club.

Promptly at 1:30 the meeting was called to order. After the business meeting Mrs. Chris Zimmerman and Mrs. Will Kraeger gave a meat canning demonstration which was very interesting.

A Valentine party will be held February 11th at the Pleasant Ridge school house for club members and their families.

The next meeting will be held at the home of Mrs. Herman Hennings.

UNDERGOES OPERATION

Mrs. W. S. McGrew of Louisville, president of the Cass county federated clubs, is still undergoing treatment at the Methodist hospital at Omaha. She was operated on a second time the last week for minor adjustments and has been showing a very pleasing improvement since that time. Her condition for a time was quite critical, however.

Phone the news to No. 6.

Public Sale

As Administrator of the Clarence W. Fleshman estate, I will sell at Public Auction at the farm 1 1/4 miles south of Nehawka; 1 mile north and 6 miles east of Avoca, and 4 miles west of Union on the O street road, the following property on—

Wednesday, Feb. 15th, 1933
Sale to start at 10:30 Sharp Lunch Served at Noon

Eight Head of Mules

One brown Molly mule, 10 years old, wt. 1400; one gray Molly mule, 10 years old, wt. 1450; one span black mules, Jack and Molly, 9 and 10 years old, wt. 2750; one bay Molly mule, 7 years old, wt. 1400; one brown Molly mule, 5 years old, wt. 1300; one brown Molly mule, 6 years old, wt. 1550; one brown Molly mule, 12 years old, wt. 1500. Here are real mules.

16 Head Red and Roan Cattle

Eight milch cows, 5 giving milk and 3 to be fresh soon; three heifers, 2 roan and 1 red; five red calves.

Farm Machinery, Implements

Moline 14-in. gang plow; Moline Best Ever 12-in. gang plow; 8-foot disc; new Rock Island 10-foot disc; two P & O wide tread listers; narrow tread lister; two 1-row cultivators, New Century and Perfection; 2-row McCormick-Deering cultivator; Big 4 McCormick mower; hay rake; new 18-hole VanBrunt drill; McCormick binder, 6-foot; P & O 2-row machine; 3-section harrow; hay rack and gear; Sandwich 32-foot corn elevator; Galloway manure spreader; Avery corn planter and wire; Avery 2-row stalk cutter; truck wagon and box; new Mitchell wagon; John Deere wagon; walking plow; bob sled; 2-shovel garden plow; 1-hole corn sheller; one vise; four sets 1 1/4-inch work harness; eight good collars; 1922 Ford truck with stock rack and grain body, and other articles too numerous to list.

Bible School Lesson Study!

Sunday, February 12th By L. Neitzel, Murdock, Neb.

"Jesus Teaching by Parables"
Mark 4:1-10; 13-20.

In this lesson we are introduced to a peculiar kind of teaching by our Lord. It was well adapted to his hearers. It was a new method; even his disciples did not understand it. In the old Testament only three parables are recorded, while in the new Testament forty are spoken by Jesus, but this first one is the only one with an explanation—it is the key to all the others.

The word "compare" conveys to us the meaning of "parable"—comparison—similarity. Eight parables were spoken by Jesus in connection with our lesson, namely: (1) Fourfold Field; (2) Selfgrowing Seed; (3) Wheat and Tares; (4) Mustard Seed; (5) Leaven; (6) Treasure in the Field; (7) Pearl of Great Price, and (8) Good and Bad Fish.

This mode of teaching his enemies could not criticize; it was a revelation to his hearers and they heard him gladly. The whole human race comes under the classification of the four kinds of hearers. This is the second time that Jesus used a boat for a pulpit. He had the multitudes with him; they still are found where they are fed the bread of life.

We should question ourselves, if we cannot hold or interest the people. "What is the reason? Whose fault is it? What can be done to bring the people to the house of God?" "Is not my word like a fire?" saith the Lord; "and like a hammer, that breaketh the rock in pieces." (Jer. 23:29).

"Hearken!" "Behold!"—two expressions calling for keen listening; calling special attention to something worth while "A sower went forth to sow." This calls for a study of hand-sowing, as it was practiced in Nebraska fifty years ago. The machine and press-drill do not scatter seed like hand work. In Palestine fields were not fenced; paths led thru fields and seed falling on the hard-beaten path was picked up by birds. Stony ground could not yield a harvest and thorn-infested ground would choke the grain. There is only the good ground left and that would vary in yield.

The pupils call on the teacher for an explanation. Every Sunday school teacher must be able to make his teaching clear. If you lack wisdom and understanding, "Ask of God, that giveth to all liberally . . . and it shall be given him." (James 1:5).

Here follows the explanation: The Sower is God, Preacher, Evangelist, Missionary, Sunday School Teacher, Christian Writer—every earnest Christian. The Seed, the Word of God, divine truth, which Christ came to impart. The Field is the world—the hearts of men.

Four kinds of hearers: 1.—The Wayside Hearer. Men go to church with good intentions, they seem to listen, but the word does not enter their heart. Satan goes to church. He is on time; he does not procrastinate. He will make all the work of the preacher ineffective. Satan uses some secret sin to destroy the seed of truth, that may be sown in our hearts. Be sure the devil has

more devices than the crows, and they are certainly keen enough to get at the seed. The soil of our hearts must be broken up by repentance and contrition and penitential tears before the word can take root. Are men gospel-hardened, that the best sermons go in one ear and out at the other?

2.—The Stony Ground. A thin covering of earth, with rock underneath. Here is a sudden response to the truth, and swift decay. This is no argument against sudden conversions, but a disclosure of the causes of the decline in religion in some who may appear to be converted on the sudden.

Causes of this sudden response to the truth are: (a) The novelty of the truth presented; (b) The specially favorable circumstances of the hearer—a recent trial, etc.; (c) His mental and moral constitution—superficial, emotional, given to change.

Causes of the sudden decline are: (a) Internal, want of root, no depth of character, lack of thought; (b) External, sudden prosperity, tribulation, persecution, etc. The merely impulsive, shallow, flipplent hearer acts without deliberation—therefore is easily discouraged; when he is called to suffer anything unpleasant for his confession, he backs down.

3.—Another sort of hearers—Sown among Thorns. All the manifold occupations of our daily life, our business, our social engagements, our worldly ambitions. Life has become very complex for most of us. Some lose their religion with the increase of wealth, who served God when poor. Sensual pleasures carried to excess, sports, ease, luxury—choke the word. Can a rich man maintain his religion? Abraham did. John Wanamaker did. This is a lovely world with many incitements to unholy desires. No man will hold what he has except he is "rooted and grounded in love," that is, God: (Eph. 3:17).

4.—Good Ground. It is remarkable that only one-fourth of the hearers should respond to the call of God; and then these are not all 100 per cent Christians, 30, 60 and 100—three classes. But is encouraging that there are "such as bear the word and accept." Not only with their minds, but with their wills, their hearts, their affections, the central purpose of their lives. These are the deers of the word and not hearers only.

The purpose of this parable is to illustrate the reaction of the different hearers to the word of God. The seed is the same in every instance. The result lies altogether in man, himself. He can "resist the devil." (James 4:7). Yielding to God will bring a man in line where He will "take the stony heart out of their flesh, and will give him an heart of flesh." (Ezekiel 11:19). Man should heed the warning of God in I Tim. 6:9 (please read). The blessed man is "like a tree planted by the rivers of water, that bringeth forth fruit in his season; his leaf also shall not wither, and whatsoever he doeth shall prosper." (Psalm 1:3).
