On last Saturday the pouring of concrete on the west bridge was begun and continued throughout Sunday and Monday that it might get set and cured before a change of weather comes, making it too cold to work in this line. They had good success in their work.

Roy Woods, while engaged in work on the bridge west of town on the new highway, had the misfortune to get one of his feet caught between two large pieces of timber, injuring the leg very badly. He has had to take time off and have the leg treated to give it opportunity to get well again.

Speaking of the radio business in which he has been very successful, selling a large number of machines, Mr. L. R. Upton showed us how he crossed out three letters in the word "depression," to-wit, the first two, "de" and the eighth, "t" to leave the words "Press On," which he has made his motto, and which we think is a good one. Conditions are never so bad for the man who is willing to "Press On."

Injured in Fall from Bridge

While Ben Anderson was working on the new bridge which is being built west of Union on Highway 24, he had the misfortune to be thrown from the bridge with the result that one of his ankles was badly injured and it was found necessary to go to Nebraska City on Monday afternoon to have an X-ray picture taken of the injury and ascertain to what extent it was injured, whether it was a bone fracture or merely a severe sprain.

Competition in Gas Strong

At most places in the country the lowest price for gas is 14.9 cents per gallon, and from that ranges upward to 21 1/4. Recently the price at the Trunkholz station has been 13 and 17 cents. Union, however, is going them a little stronger, or you might call it weaker, for the regular gas, which has been selling for 16 is listed in Union at the Trunkholz station at 12 cents, while the lower grades are quoted at 11 cents all over. Mr. Claude Lane says that business is sure good since the lowering of the price, which shows that the public is looking for the place where the dollar will go the farthest.

PERFECTS MODEL

William Bell, former Plattsmouth man, who has been making his home on the west coast, has perfected a model of the DeWitt Clinton locomotive of 1831 and which has attracted a great deal of attention at San Diego.

The following from the San Diego Sun tells of the model and the interest that it has created:

"Your hobby may be collecting menu cards or snatching up bits of wreckage at airplane crackups, but Bill Bell's is building models.

"His latest product is the model of a primitive train, shown in accompanying photographs. He hopes it will bring him \$1,000.

"From smokestack to the tall end of car No. 3, it is an exact duplicate in miniature of DeWitt Clinton's snorting Terror of the Rails of 1831.

"That was back in the days when 15 miles per hour was a crazy, break-neck speed and traveling 100 miles was as serious a proposition as going away to college.

"If it rained while you journeyed, it was just too bad for your extra starched collars and cuffs, for baggage was stowed behind little fences atop the cars. Running out of fuel presented no problem, all the engineer had to do was stave off the Indians with his blunderbuss while the fireman took to the tall timber and chopped down a cord or two for the firebox.

"It took 800 hours to build the model," said Bill Bell today. "I started last March and worked evenings, Saturdays and Sundays. There are more than 500 separate pieces in the locomotive and 1600 in the whole train.

"I got the idea when I read in Popular Mechanics magazine about a contest for models of the DeWitt Clinton train. I didn't expect to enter the contest when I started building, but toward the last, when it looked like I had a chance to get it done in time, I sat up many a night getting it completed before the contest closed."

"Mr. Bell is hoping to win either the \$1,000 first prize, the \$500 second prize or the \$250 third prize—plus a free round trip to New York.

"Thirty-eight years old, he is an employe of the aGs Co., and lives at 4451 Fortieth St."
