to Vote on Legal Beer

Compromise Reached Between Friends and Foes of 3.2 Beverage and Board Will Call Election.

Thursday, August 10th, the day that has been set for the legalizing of 3.2 beer after the absence of the foaming beverage, will be just another day to the people of Louisville, who must travel to some of the nearby towns if they seek refreshment.

There were three applications filed with Clerk Koop of the village council, but these are held up pending the decision of the people at a special election to be held soon.

With the publication of the announcements of application for licenses, a remonstrance was started by the residents of the community that opposed the granting of any license and which found a large number of signers.

Under the state law a remonstrance, signed by fifty per cent of the voters based on the vote cast at the last election, would prevent the issuance of license by the city council or town board.

The Louisville village board secured a compromise of the matter by prevailing on the remonstrators to withhold the filing of their objection and agreed that no license would be granted until after the election.

Licenses have been granted in Plattsmouth, Weeping Water and Nehawka while applications are now on file with the county from Manley, Murray and near Union.

DEATH OF WILLIAM SIMMONS

It was with great regret that the community learned today of the death of William Simmons, 21, who for the past four years has made his home in this city. The young man died after a short illness with which he was stricken while on some road work near Valentine. It was thought at first that his illness was due to an attack of jaundice, but after he was brought back to this city by Mrs. Simmons, he continued worse and was taken to an Omaha hospital. It was pronounced at the hospital that he was suffering from pneumonia and that an abscess had formed on one lung. Despite all medical aid the young man grew worse until death came Tuesday.

Mr. Simmons came here with the pipe line workers of the Continental Construction Co., and had since made his home in this community.

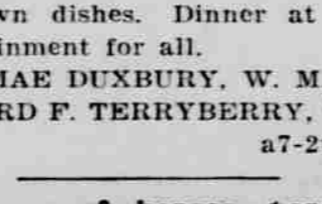

The deceased was married a year ago to Miss Mable Brittain of the city and they have since made their home here with the mother of Mrs. Simmons and family.

Mr. Simmons was a young man of pleasing personality and made many friends in his pleasant and genial manner and his death brings a great regret from those who had the pleasure of knowing him.

The funeral of the young man will be held on Tuesday afternoon at 2:30 at the Sattler funeral home with the interment at Oak Hill cemetery.

Here's One GOOD WAY to END AGONY OF NEURITIS

Newark Man Knows How and Loses 10 Pounds

"Gentlemen: I used Kruschen Salts to try and get rid of Neuritis from which I had suffered for one year in my left shoulder and arm. . . . I took a little of the salts in the morning, sometimes in my coffee, often times in water. I would also occasionally take a dose in water at night before retiring. For 3 months I used the salts and while I lost 10 pounds in weight, the pain in my shoulder HAS ENTIRELY DISAPPEARED. During the time I was taking the salts, I received no other medical treatment, so I am fully convinced the Kruschen Salts did the trick." C. K. Murray, Newark, N. J.

Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—a jar lasts 4 weeks—get it at F. G. Fricke & Co., or any druggist in the world—costs but a trifle. G-4
