3 Generations of Women Agree on One Subject

That's news! It's very unusual to have three generations of women agree on any one subject, whether it is the raising of children, the feeding of chickens or a style of hair-dress. But we have found three generations who do agree on how to have successful baking results.

"It's just good sense," declares the granddaughter, now a young bride herself. "Grandmother came to Nebraska in 1869, and started using VICTOR FLOUR. She earned a fine reputation for successful baking, so when Mother grew up she used it also. There was once during hard times when mother thought she could economize, and used a cheap flour. But one sack was enough. Her results were so poor that it was no economy. The loss she suffered in time, effort, other ingredients, fuel and reputation made her realize that VICTOR FLOUR is always cheapest. Of course, I always use VICTOR, because it seems impossible to have a failure with it, and we certainly can't afford failures in these times."

Victor Flour is milled by The Crete Mills, Crete, Nebraska, one of Nebraska's oldest and most reliable Flour manufacturers. You can buy it at all Better Grocers in Plattsmouth.

ALARM CAUSES STIR

From Monday's Daily This morning at 6 o'clock the burglar alarm at the Farmers State bank aroused the residents of the downtown section of the city as it started ringing. The alarm caused the police to rush to the scene but as there was apparently no one in the bank or near it the officers decided that the alarm had gone off accidentally. The bank officers were notified and hastened to the bank to investigate the matter. It was found that a radio aerial located on another building had torn loose and fallen on the box housing the bells of the alarm system and as the system is controlled by sound waves, had started the alarm working. As soon as the wire was removed the alarm ceased ringing.
