State Relief Heads Give Out New Rulings

Regulations as to Issuance of Merchandise and Supplies to Be Purchased of NRA Stores.

Mrs. C. A. Rosencrans has received from the head of the state relief commission as well as the federal commission, new regulations and rules that must be followed in all counties of the state in the supplies given under this act.

These instructions pertain to the issuance of relief orders and their filling as well as the injunction that the supplies must be secured from stores that have adopted the NRA codes.

The regulations received are as follows:

"To all chairmen of county emergency relief committees in Nebraska.

"Kindly notify all persons connected with the distribution of relief funds in your county, also all merchants in your county that emergency relief orders must not be filled with any merchandise or items other than those items appearing on the face of the order.

"Also advise all merchants that orders are being checked carefully by the State Emergency Relief Office. We are giving you this information for this office has found it necessary to return one bunch of orders to a certain county in Nebraska for the reason of over-charge and because items were furnished that were not specified on the face of the orders, which were originally prepared as per federal regulations.

"Merchants are expected to receive a legitimate profit, but, no overcharging or the filling of relief orders with items that do not appear on the face of the order, will be tolerated, and offenders will be immediately notified that no more relief orders can be filled by them."

Rule and regulation No. 6:

"On and after this date, August 14th, you are advised that purchase of supplies with federal funds shall be made only with stores that have complied with all the provisions of an applicable approved code or, if there be no approved code of fair competition for such stores, then with the provisions of the President's Re-employment agreement. The same regulation applies to all orders given to relief cases.—Harry L. Hopkins, federal emergency relief administrator."

County Labor to be Used on Road Projects

The Cass county branch of the state unemployment commission, of which Judge A. H. Duxbury, is chairman, has been notified that the labor to be used on road projects of the state will be from the ranks of the unemployed in each county where the work is projected.

The state committee states that the first preference goes to war veterans with dependents, second to residents of the county where the work is being done and then citizens of Nebraska.

The notice to the local committee states that they must be prepared to turn over a list of the unemployed in forty-eight hours notice from the contractor that may have charge of the work and from this list the contractor will select the number of men that he may require, the state demanding that 78 per cent of the men employed shall be selected from this list.
