## Well Known Louisville People are Wedded

### Miss Esther Sundstrom Becomes the Bride of Yosta Davis at Pretty Home Wedding Saturday.

The home of Mr. and Mrs. Elmer Sundstrom at Louisville was the scene of a very pretty home wedding on Saturday afternoon when their daughter, Miss Esther, was married to Mr. Yosta Davis, one of the well known and popular young men of that city.

The wedding was very quiet and witnessed by only the immediate family and a few friends from Omaha. The marriage rites were read by Rev. E. E. Carter, pastor of the Methodist church.

The bride and groom were attended by Miss Viola Davis, sister of the groom, and Mr. Clemens Sundstrom, brother of the bride. Miss Sundstrom wore as her wedding gown a costume of blue triple sheer crepe with accessories to match and carrying an arm bouquet of Ophelia roses.

The home was arranged with the decorations of the fall flowers which were placed throughout the rooms.

Following the wedding refreshments were served by the mother of the bride and later in the afternoon the young people departed for Omaha where they were guests of friends and on their return to Louisville will be at home to the friends in their residence that is awaiting their coming.

The bride is one of the popular young ladies of Louisville where she was born and reared to womanhood and has been an active figure in the social life of that community.

The groom is also a resident of Louisville since boyhood and at the present time is in the employ of the Lyman-Richey Co. at their Louisville plant. He is a young man held in the highest esteem by a large circle of friends.

Those from out of the city to attend the wedding were Mr. and Mrs. H. F. Curtis of Omaha, the former president of the Lyman-Richey Co., and Mr. and Mrs. J. R. Burke.

### MORNING SCENES BUSY

Early morning hours in the main section of the city are busy ones as the forces of workmen are gathering to move to their several jobs of labor and from 5:30 on there are many groups preparing to go to the points where they are to labor.

The road work on No. 24 has a number engaged from this city and this group of necessity is required to be up much earlier than others for the drive of some thirty miles to their work.

The men engaged in the river work also are out early and hurrying to the scene of action along the river south-east of this city and which requires a drive of several miles for the greater part of the working force.

The force from the sand and gravel pits that comprise the night shift, also are returning at the time the other workmen are going out so that the early hours are busy ones "down town."

## High School Shows a Good Attendance

### Record for the First Quarter Shows Less Than Two Per Cent Absent from School.

Attendance records of the high school for the first quarter show a fine record in regularity of attendance during the first nine weeks. There is a close correlation between repeated absence and failing work. Absence from school is oftentimes necessary on account of illness or other unavoidable reasons for which the excuse regulations of the school make provision. In addition to checking the causes for absence from day to day, a consistent effort is made to see that the student makes up the work missed during the absence. With a large number coming to P. H. S. from the country and another large group who live a considerable distance from the school building here in town, weather conditions naturally affect the absence record. Any heavy rainstorms in the early fall and spring or cold waves and snow storms, will have an immediate reaction in the daily attendance. Epidemics of colds or other contagious disease will show up immediately upon the school records.

However, despite the normal fluctuations in the daily attendance it is interesting to note that the daily absence at Plattsmouth high school is less than 2% out of a student body this year of 310. This quarter, a very large number had perfect attendance including 56% of the Seniors, 41% of the Juniors, 46% of the Sophomores and 63% of the Freshmen. Of those who were absent, 88% missed only a half day; 9% were absent only one day and 3% were absent more than one day. The list of perfect attendance is as follows:
