Building on the Farm.
J. A. Scotten and John Frans were over near Cedar Creek for a number of days during the first portion of the week where they were building some cribs and other outbuildings on the farm of J. D. Rising. They were also constructing a garage with some living rooms attached.

Returns to His Home.
George Berger who has been making his home at Ashland for some time was a visitor for the past two weeks at the home of his mother, Mrs. Susie Berger and with other relatives and friends in Murray, departed for Ashland on last Monday where he will go to assist his brother who is engaged in the conduct of the Farmers' Elevator at that place.

Young Man Arrived Monday.
The home of Mr. and Mrs. Arch Poynter of Murray was made happy on last Monday evening when the stork presented Mr. and Mrs. Poynter with a very fine twelve pound son with the young man and mother doing nicely and all happy over the arrival.

Make Improvement at Garage.
Mr. Andre Dort Bakke, proprietor of the Murray Garage which is located in the eastern portion of the city, with the assistance of James Smith, placed an addition of concrete in the building, thus adding much to the concrete space which will serve as two things, one keeping out the cold and the other providing more space for the working on the cars which continue to come in a steady stream to this popular repair shop.

Operating Amusement House.
Charles V. Barrows, seeing the desire of the young people for a place to gather and enjoy a social evening and to shake the light fantastic toe has cleared out the repair shop at the Hi-Way Garage and service station and has had the room, which is of good size, papered and decorated on the interior and made most inviting and is giving dances there when the young people desire. M. G. Churchill, who is a painter and paper-hanger was over a few days ago and finished the interior, thus making it a very pleasant place and very inviting for a place to meet for a frolic and social hop as well as other social meetings. Better drop in and take a peep at the new arrangements.

Making Improvement Now.
Mrs. Sam P. Latta who was for a time at the hospital at Omaha where she underwent an operation for the restoration of her health which was far from being the best, and since had been convalescing slowly, has so far improved that she was able to return to her home in Murray early this week and is now feeling much improved. Laguardia is Winner in N. Y. Mayor's Race

Tammany Is Humbled for the First Time in Nineteen Years—O'Brien Is Third.

New York, Nov. 7.—Tammany hall was humbled tonight for the first time in 19 years by a powerful fusion movement that swept in Fiorello H. LaGuardia as mayor and gave fusion control of the important board of estimate.

Joseph V. McKee, running as an independent with the indorsement of Postmaster General James A. Farley, ran far behind the short, stocky LaGuardia and only slightly ahead of Mayor John P. O'Brien, Tammany stalwart.

LaGuardia, first successful challenger of the tiger since John Puroy Mitchell was elected mayor in 1914, polled between 40 and 50 per cent of the total vote.

LaGuardia will take office on January 1. The complete unofficial returns gave: O'Brien 586,100. LaGuardia, 558,531. McKee, 604,045.

Pecora Run Third.
Ferdinand Pecora, who has been in charge of the senate banking committee's investigations into J. P. Morgan & Co., and other financial institutions, ran third in the district attorney's race.

LaGuardia was assured of complete domination of the board of estimate because the fusion forces elected the comptroller, president of the board of aldermen, and presidents of the boroughs of Brooklyn, Richmond and Queens. Tammany re-elected the Manhattan borough president and McKee's candidate won in the Bronx.

McCooley Grip Loosened.
Bernard S. Deutsch of the fusion ticket, was chosen president of the board of aldermen over Nathan Straus, Jr., McKee's running mate, and Milton Solomon, democrat.

A severe blow at John H. McCooley's grip on the Brooklyn democratic organization was dealt when Ingersoll defeated Hesterberg for re-election.

UNION WOMAN'S CLUB
The attractive home of Mr. and Mrs. D. Ray Frans was the setting for a charmingly appointed 10 o'clock luncheon given by the Union Woman's club on Tuesday afternoon, Nov. 7, where the first district and county club officers were honored guests.

Mrs. Frans, president of the club, assisted by other members had tastefully decorated the rooms with a profusion of yellow and white chrysanthemums, while the tables with beautiful nappy crystal and silver flowers, white candles, favors and place-cards added the needed touch to complete the setting.

Appointed as toastmistress by Mrs. Frans, Mrs. Eikenberg, after the luncheon, read a brief introductory poem prepared for each visiting officer in which was devined something of their appearance, quality of mind and the possible subject they might use in response. Ignoring the suggestion as anticipated each guest responded to the toast in her own happy fashion, some with wit and jest and some in more quiet vein. Mrs. Nutzman responded in delightful song "The House by the Side of the Road," accompanied at the piano by Miss Ora Clark of the Union club. Miss Clark also played a beautiful number during the afternoon.

Miss Augusta Robb then announced the coming Red Cross roll call, giving some of the work done in both state and county and urging a 100% membership in every Woman's club in the county.

Mrs. Hansell received the guests at the door. The closing number of the program was a little playlet, "How the Story Grew," staged by the Union club personnel of which was Mesdames Ray Frans, W. H. Barritt, L. G. Todd, P. F. Rihn, B. N. Kunkel, L. Meisinger and Augusta Robb.

The club regretted the absence of Mrs. Ivan Balfour who was detained because of the illness of her daughter.

All invited club officers were present except the president of the Social Circle extension club of Lewiston, Mrs. Holscheid. Those present were Mrs. Tucker, Nehawka, 1st district president; Mrs. Gorder, Weeping Water, 1st district treasurer; Mrs. James T. Hegley, district chairman, law enforcement; Mrs. Eugene Nutzman, Nehawka, district chairman of rural clubs; Mrs. McGrew, Louisville, president Cass County Federation; Mrs. Ray Norris, Avoca, county vice president; Mrs. R. E. Foster, secretary-treasurer county federation; Mrs. Stimbert, Nehawka, corresponding secretary of 1st district.

COLUMBUS PLAN ADVANCES

Washington.—Assurance that the Columbus, Neb., Loup river project "is taking its regular course" thru the public works administration without unusual problems was expressed by Frank W. Murphy, public works adviser for the fourth region. He said it is now before the legal division.

Meanwhile Arthur F. Mullen, attorney for the project, and Fred Albert, engineer, broke their silence on the project's status and pronounced its outlook "promising."

Murphy left Washington for Chicago and plans to visit owa and Nebraska next week. He asserted the public works program is working out well in his region—Iowa, Nebraska, the Dakotas, Minnesota and Wyoming—and that the federal administration is showing no discrimination in approving applications.

Columbian School Has a Demonstration

Educational Week Is Made Impressive With Teaching Demonstrations at the School.

Last Tuesday afternoon the Columbian building observed Educational Week by a teaching demonstration in each of the rooms. The parents were all invited to be present and it is estimated that about fifty mothers visited the different rooms. The demonstration was in line with the newer methods of teaching using the activity program as a basis.

The demonstration opened at 1:30 with an activity circus in the kindergarten room of which Miss Vivian Johns is the teacher. The pupils have been preparing for this event for some time and the demonstration consisted of singing, rhythms and observation of art work. The pupils had constructed circus designs and circus clothing in their activity periods. The designing and constructing was all done by the children under the supervision of the teacher. The work was carefully carried out and showed evidences of achievement.

The demonstration in Miss Helen Quimby's room, who has charge of the first and second grades, started at 2:00. In this room the pupils read from experience charts and developed a project in home life. The children created the sentences which the teacher printed on the chart and afterwards all of the children read them. This method of teaching reading is known as "The Experience Chart Method." The work was well carried out and the demonstration thoroughly enjoyed.

In the second and third grade room under the direction of Miss Alice James a demonstration of arithmetic was given. In this room was shown how subtraction was taught and the methods of teaching the children to borrow when the upper number is smaller than the lower.

The final demonstration was given in the fourth and fifth grade room with Miss Helen Farley as teacher. The first part was devoted to a geography lesson in which the pupils made talks about foreign lands. This was followed by a dramatization of an Eskimo play which was written and directed by the pupils. The play was written during the English period and the scenery was designed during the art lesson. All of the activities functioned in some educational value for the pupil.

STRIKE PEACE AT DETROIT
Detroit.—Peace seemed imminent in Detroit's long continued tool and diemakers' strike, with settlements announced in twenty-nine Detroit jobbing plants and seven general manufacturing plants, and negotiations in progress in the other phase of the strike, the automobile manufacturing industry. Settlements in the twenty-nine jobbing plants were announced by A. E. Larned, chairman of the Detroit regional labor board. Negotiations between strikers and employers in twenty-five other jobbing plants, members of the Automotive Tool and Die Manufacturers' association, continued.
