and put money in the hands of those in greatest needs as the workmen are picked from unemployment rolls and preference given to those with families and dependents as well as any who have been on the charity list, receiving aid from the city and county. While these projects are not as large as have been allotted in some other towns over the county, there is likelihood of obtaining further grants if there are still unemployed and some worthy project can be outlined for submission to the CWA board. The Cass county board is composed of Mrs. Lottie Rosenkrans, Commissioner E. B. Chapman, Attorney Wm. Robertson and Attorney J. A. Capwell. After they pass upon applications they go to the state board for final approval, and no time is lost in getting work started as the prime object back of this new movement is to put men to work in the shortest possible time, thereby increasing the buying power of the nation.

It is necessary to register and be assigned a work card in order to obtain jobs on these projects. J. J. Pollard is looking after the registration of unemployed here and every effort will be made to distribute the work fairly. The rules prescribe no more than thirty hours per week, and the rate of pay not less than 40 cents per hour for unskilled and 60 cents per hour for skilled workmen used. The plan will provide work for all those needing it, and who for some reason have been able to find employment in the quarries or on other public works, of which there is much now being done in this section of the country.

### Visited in Omaha Sunday

A. B. Rutledge and wife, together with Glen Rutledge and two children were in Omaha last Sunday, where they were guests at the home of Mr. and Mrs. Everett Rutledge and where all enjoyed a very pleasant visit. In speaking of the trip, the elder Mr. Rutledge said he saw many people busily engaged at work and was told by the foreman that many were being put to work on CWA projects and that they were even going into the country for men, who were to be given employment under the new deal plan of distributing money into the hands of the forgotten man in an effort to speed up buying power.

The Nehawka Mill, which has been in operation for many years and of late years has been confined to the grinding of feed, having ground in that time many thousands of tons of feed, will be operated in the future but two days out of each week—on Saturdays and Mondays. Of late there have been many traveling feed mills coming into the territory, with their equipment mounted on a truck which enabled them to grind the feed right on the farm and thus making a very hard class of competition for the regularly established mill.

When the writer was talking to Mr. Rough, he was the very picture of health for a man along the meridian of life and willing to tackle any hard job that comes his way. Here'to you, our good friend, and may you keep fit and keep going for a good number of years to come.

## Millions Come to Nebraska for Corn Loans

\$10,000,000 in Omaha Banks Await Movement to Farmers of State Under Corn Loan.

Ten million dollars in idle money in Omaha banks is ready to go out in corn loans to Nebraska farmers, as the result of the government's corn loan instructions received late Monday.

From \$15,000,000 to \$30,000,000 in such loans may be made in Nebraska in the next few weeks. Herbert Daniel, Omaha manager of the Reconstruction Finance Corp., who Monday was appointed agent for the Commodity Credit Corp., the government's corn-lending agency, believes the banks of Nebraska will take up practically all of the loans.

"The Commodity Credit Corp.," said Daniel, "will give the banks a contract to take the proper corn loans off their hands at any time up to next July 1."

Omaha bankers said the corn loans up to 45 cents a bushel on loan on the farm, are thus practically guaranteed by the government.

### Third of Crop.

Daniel pointed out that \$30,000,000 in such loans in Nebraska would represent less than one-third of the state's 1933 corn crop.

"I talked to Washington Monday," said Daniel, "and learned that the corn loans are to be made on the identical plan with cotton loans in the south. In the south practically all of the cotton loans were made by the banks, and the Commodity Credit Corp. direct had only a handful. It's a great opportunity for the banks to put their idle money to work."

The corn loans are made on the basis of 45 cents a bushel on the farm for corn on which warehouse receipts are issued by inspectors for the Nebraska state railway commission. The commission has appointed 135 inspectors to inspect the corn in sealed cribs.

### Reduction Program.

After the farmer gets his "warehouse receipt" for such corn in his crib, he can go to his county agent and obtain the corn loan note and attached agreement that he will abide by the AAA (corn-hog) crop reduction plan. While this is properly filled he can go to the bank and borrow the 45 cents a bushel.

If the banker is in doubt whether the farmer's agreement is complete and proper, he can send it to the Omaha RFC office and it will be passed on there. If the RFC office approves the agreement the banker is relieved of responsibility for any insufficiency that might later develop.

The corn notes all run to Aug. 1, 1934, and the Commodity Credit Corp. agrees to take them from the banks without recourse at full value up to July 1, 1934.

The farmers' notes are likewise without recourse. If corn goes above 45 cents a bushel, the farmer can pay his note and sell his corn. If corn fails to go to 45 cents a bushel on the farm, the Commodity Credit Corp. stands the loss.

## St. Joe Mob Storms Jail, Lynches Man

7,000 in Crowd Which Batters the Doors of Building—Resist Army Tanks and Soldiers.

St. Joseph, Mo., Nov. 25.—Lloyd Warner, 19-year-old Negro, who confessed assaulting a white girl, was hanged and burned across the street from the courthouse lawn tonight by a mob which fought peace officers and national guardsmen to seize him in the Buchanan county jail.

Shooting broke out as the crowd surged through the jail to subdue a defense force of 40 officers. No casualties were reported, however.

Sheriff Otto Thiesen estimated seven thousand persons made up the crowd which battered down the jail doors, regardless of tear gas, and swarmed through the building seeking the Negro.

Judge Delayed Arraignment. "I'm ready to plead guilty," Warner said today, asking an early arraignment on a charge of attacking the girl, 21 years old and a member of a prominent family.

Criminal Judge J. V. Gaddy, however, directed that the case be taken up tomorrow.

"I don't want to rush things," the judge said.

The mob began forming at dusk. Stones were hurled at the jail. A small group seized a five-inch pipe and rammed it against the front door. The door held and the group, seemingly leaderless, desisted.

Troops Called Out. Governor Guy B. Park ordered out the Thirty-fifth tank company, Missouri national guards. Tanks puffed to the jail.

A tank driver who failed to lock himself in was removed from one machine and it was put out of action. Only a few troops were mobilized. State highway patrolmen also were ordered to the scene.

But the crowd was too powerful. Hundreds crashed in through the unprotected rear door of the jail. Others smashed down the barriers of an alleyway from the courthouse to the jail in the quest for the accused man.

Filled by Tear Gas. They raced through the corridors and along cell tiers.

Tear gas filled the building as officers, some with masks and some without, discharged bombs. Riot fighting broke out as the officers strove vainly to hold back the mob. —World-Herald.
