CONTEST RULES

IN THIS PAPER you will find 26 different Dollar Day Ads by 28 different merchants of Plattsmouth. These 28 ads are numbered 1 to 28, so you can identify them. In each ad you will find some word with a letter "a" that is of a trifle different font of type than the other letters in the word. Find this word and write it, together with the store's name in the proper one of the 28 blank spaces appearing on this page. Do this with every ad until you have all the 28 spaces filled. Put the name of each store in the space corresponding to the number on their ad. This irregular "a" appears only once in each ad. Awards will be made on the basis of accuracy and originality of presentation of your answer. You may color the page—build it into any design you wish—your own originality is the limit. Bring your answers bearing your name and address to the Journal office by 6 p. m., Feb. 28, 1934. Decision of the Judges will be Final.
