Bank Files Its Answer to Claim of Department

Give Their Position in Regard to Suit to Enjoin Banking Department from Closing Bank. From Friday's Daily

The Journal some time ago published the answer of the state department of banking to the action of the Bank of Murdock which is seeking to have the department enjoined from the closing of the bank and placing it in receivership. This morning the answer of the

ban to that of the banking department was filed in the office of the clerk of the district court and is as follows:

"For further reply plaintiff alleges hat since the filing of plaintiff's application herein the Department of Banking and the Superintendent of Banks have exerted every effort and with the full power and prestige of their official position to defeat the positors of said bank for the purpos plaintiff's application; that in spite of having same circulated among the

Disarmament

T THE present time much is heard about disarmament. To the world in general the word means the act of disarming, as by reducing the military or naval force of nations. As the years pass, it is being learned that this taking away or lessening of a material sense of power is not in itself capable of bringing peace. Yet is not peace what the people of the whole world are seeking? The realization of harmony can never be gained while the thoughts of men are filled with envy, hatred, and suspicion. If fear could be eliminated from the thoughts of men, then the host of evil beliefs, expressed in malice, jealousy, and the like, would disappear.

Suppose the right way of thinking, with the consequent blotting out of thoughts of hate, should spread until for the whole human family all sense of hatred had been destroyed. What a change would have come over the world! Indeed, to disarm men of the evil mode of thinking would bring about the peaceful attitude of nations towards one another which people so much desire.

As nations are aggregations of people, each individual in the nations must disarm his own thought of fear and hatred. This true disarmament is not material, but spiritual. If we really desire to have no need for arms, we must begin with ourselves and control our own thoughts.

Those who have learned through the teachings of Christian Science that man is the reflection of divine Love, God, the creator of all that is real, must live consistently with this teaching. They must refuse to think or express thoughts which include hatred. What will be the result? The love expressed in their thinking will be felt by all with whom they associate.

For those who have the correct understanding of Truth, now, not tomorrow or next week, is the time for them to begin by right thinking to
