

# Murray

Perry Nickles was on the market with a portion of his hogs on last Monday and found the market just steady.

Arnold Mast was a visitor and was looking after some business matters both in Plattsmouth and Omaha last Monday.

Mr. Russell Chinn and Miss Bessie Copenhaver were spending the day at the home of Mr. and Mrs. T. R. Brannon Sunday.

Mrs. Betty Barrows departed a few days ago for Cottonwood, South Dakota where she is visiting with her daughter for a few weeks.

Miss Lavina Troop, who resides west of Mynard, has been rather poorly for some time and has been kept to her home thereby.

Mrs. Hicks and son were visiting with friends in Nehawka for the day on last Sunday where they were guests of friends for the day.

John Frans is painting on the overhead viaduct over the railroad at Oreapolis, going over in the morning and returning in the evening.

Mr. and Mrs. John Royer entertained for dinner Sunday Mr. and Mrs. Curtis Farris and son, Bobby, Carl Lang called in the afternoon.

A. J. Scotten and his crew of workmen completed a culvert near the Kenosha school early this week which is putting the road in better condition.

Frank McCormick of Sidney, Iowa, was a visitor here for a short time on last Monday and was visiting at the home of Earl McCormick and wife.

Mrs. Elizabeth Gregg, better known as Grandmother Gregg, has been rather poorly for some time past and is at the home of her son, Roy Gregg at the present time.

Mrs. Lena Lyman of Vale, South Dakota, who has been visiting here for some time, was called home suddenly, departing early last Monday morning.

James E. Hatchett has been feeling quite poorly for some time past and at times is so weak that he can hardly get about to look after the care of his cow.

Earl Wolfe and the family of near Union were visiting for the day on last Sunday at the home of Mr. and Mrs. Roy Gerking where all enjoyed a very fine time.

Miss Bessie Copenhaver has not been feeling the best for some time and as she has been caring for Mrs. Sporer who is also poorly, they can sympathize with each other.

Mr. and Mrs. Homer Miller, who have been visiting here for some time went over to Lincoln on last Monday to visit their son who is living there and attending school.

Lawrence Smith was enjoying his twenty-fourth birthday anniversary at his home in Murray on Tuesday of this week and was receiving the congratulations of his friends and their best wishes.

E. S. Tutt, the merchant, is not looking for a foot race at this time and he has plenty to do getting about as much as he can, for he is fighting the old rheumatism and having his hands full at that.

Mrs. Una Murray of Oklahoma, where she has made her home for some years was a visitor at Murray and Nehawka as well as in the vicinity between the two towns at the homes of her many friends and relatives.

Miss Martina Sporer, daughter of Mr. and Mrs. Martin Sporer, was three years old last Sunday and the occasion was celebrated when the mother made her a birthday cake and also presented the little one with a very fine blue umbrella.

Hurry Albin, who is substitute mail carrier, carried the mail over the route last Monday and then drove to Omaha where he purchased some goods for the cafe, and among which was a quantity of fireworks. He must think there is going to be a Fourth of July.

George E. Nickles and G. R. Binger were over to Omaha Monday of this week to attend the trial of a chiseler on the NRA which was to have been heard, but was postponed for some reason. The parties on trial were arraigned for misrepresentation in the selling of lumber.

Masters Harold and Earl Gregg, sons of Mr. and Mrs. Roy Gregg, were

Phone 17

over to Weeping Water last Thursday where they were attending the band concert which the enterprising city of Weeping Water puts on every Thursday for the people of the town and the surrounding country. The boys do not expect to miss one of these concerts during the summer.

Mrs. A. H. Graves, who is well advanced in years, has been very poorly and still remains in the same state. Her many friends are hoping she may soon be in better condition. Grandma Graves suffered a fractured rib by a fall which adds to her illness.

A daughter of W. J. Hesser, formerly florist in this vicinity who resided where O. A. Range does now but who moved to Los Angeles some years ago, the daughter now being married, with the husband now visiting at the Century of Progress in Chicago for some time and on their return to their home at Los Angeles stopped here to visit the old time home where they resided some thirty years ago.

Armed with a garden hoe Mrs. W. O. Troop attacked a snake which came their way on last Monday afternoon. The snake, which was about four feet long was sighted by a granddaughter, Miss Avis Troop, who cried for aid and Mrs. Troop grabbed the hoe and went for the snake which endeavored to make its escape but the hoe came down with too much force and too swift. Mrs. Troop says she never allows a snake to get away.

**Building New Roads.**  
W. L. Seybolt and Herman Wohlfarth and other assistants have been kept busy most of the summer thus far in the construction of new roads, their time being so much taken up with this class of work that they have hardly had time to do the customary road dragging, but with the dry weather this has not been needed so badly.

**Forty-six Years Ago.**  
Yes, that was when Tom Nelson was attending school at Peru and thinking about the time which has been half a century ago when attending school there. Thomas Nelson thought it would be nice to visit the old town again and so drove down there last Sunday to look over the place. He found the town and the school, but none of the old schoolmates, for they had gone their many ways over the face of the earth.

**Celebrates Third Birthday.**  
Mrs. W. A. Ost gave a birthday party in honor of her little daughter, Betty, three years of age, and had a birthday cake with the three candles thereon. A large number of the little friends of Betty attended and were chaperoned by their mothers and aunts who also had a good time.

**Gave Wedding Dance.**  
At the dance platform at the home of Mr. and Mrs. Dan Horchar was given on last Saturday night a dance in honor of the newlyweds, Mr. and Mrs. R. A. Noel, the bride being formerly Miss Florence Lancaster and at which the large party enjoyed a very fine time.

**Tells of Heavy Storm.**  
Mrs. W. O. Troop received a letter from her sister, Mrs. Edith Hay of Otis, Colorado, early this week telling of the storm which came to their vicinity last week, which was so severe that a neighbor lost fifty head of cattle, the water being so that they could not be driven out of the corral. Another neighbor named Snyder, was so located that the water surrounded the home and a raft had to be constructed of railroad ties and which was taken to the home and the family placed thereon and taken to safety. It looks like there must be some rain in Colorado as well as here.

**Exceptionally Fine Shipment.**  
Parr Young made a shipment of exceptionally fine cattle to the Chicago market last week and which were detained and placed on exhibit at the Century of Progress, with a large sign over the entrance of the cattle pen saying these cattle were fed by Parr Young of Nehawka, Nebraska. The Century of Progress has in mind the advertising of the west favorably and sure had the materials for the exhibit in the car load of cattle which Mr. Young had shipped.

**Murray Study Club.**  
The Murray Home Study club met at the home of Mrs. G. H. Gilmore on June 21. There were 28 members and seven visitors present for the one o'clock luncheon. All members except two were present. As this was the last meeting of the club year the ladies had as a special delicious cake and ice cream that was greatly enjoyed.

The meeting was called to order by the president, Mrs. Boedeker. Salute

to the flag was given. roll call was answered by each telling of a vacation she had taken or would like to take. There were four new members joined for the coming year. It was voted to have the one o'clock luncheon again next year, as it gives us more time for our lessons during the afternoon.

Mrs. Guy Wiles had charge of the lesson. Mesdames H. G. Todd and Margaret Brendel gave very interesting papers on Nebraska the Beautiful and our national parks. Mrs. Gilmore and Mrs. Brendel gave talks on the Woman's club of Lincoln, of which they had been members during the past year.

Our next meeting will be with these two ladies at the Morrill Hall in Lincoln, Sept. 20th, with a picnic dinner in one of the parks.—Club Reporter.

**THIRD ANNUAL SUNSET SERVICE**

The third annual "Sunset" service will be held in the Waubonsie State Park, Sunday evening, July 15, beginning at 7:15. If weather conditions are too unfavorable for such an outdoor service it will be held a week later. It is estimated that 1500 people attended the first service and that last year the crowd numbered 2500. It is expected that the attendance this year will exceed 3000 and may reach 5000. The interest in this service has been growing and more churches plan to co-operate. An unusual program is being offered. There will be two outstanding musical features. The Tabor Band numbering more than fifty and the Men's Chorus of Villisca numbering twenty. Herbert E. Hershey of Nebraska City has been selected as the poet for this year. Rev. Harry M. Markley, D. D. of the Presbyterian church of Nebraska City will give the "Sunset" message.

The hilltop on which the service will be held is nearly 400 feet above the Missouri river. It gives a commanding view of the valley through which flows the "Muddy Waters." The sloping hillside facing the west provides a most wonderful natural amphitheatre. The red man probably used these heights for his lookouts or for his watch fires. Beneath its sod he buried his dead.

(No doubt many from your community have attended one of these services. They will anxiously look for this notice. This service can be made a distinct annual event not only for southwestern Iowa but also for the middle west. It is not far from Waubonsie Park to Nebraska, Missouri, Kansas.)

REV. PETER JACOBS, Pres. Shenandoah, Iowa.

**NEWSPRINT IN SOUTH**

Savannah, Ga.—The newspaper committee of the Southern Newspaper Publishers' association announced it had taken active steps looking toward the erection of a mill to manufacture newsprint from southern pine trees. After a day of inspection of the experimental plant here where Dr. Charles H. Herty developed the process of making paper from pine logs, the committee decided to employ internationally known paper engineers to survey the situation and make a report.

**SUMMER SERVICE!**

**How About Your Car?**  
Does it give you plenty of power, are all the connecting rods and bearings up snug and does the battery supply plenty of juice for starting. Are your brakes and lights O. K. If not, see us at once. Our Work is Guaranteed!

East Main St. Murray, Nebr.

## Winter Supply of Meat Can Be Canned Easily

Residents of Farm Areas Stricken with Drought Urged to Make Use of Canning Meat.

Farmers in drought stricken regions can save food for themselves for winter even when the failure of pastures and forage crops makes it necessary to sacrifice cattle, hogs and sheep because there is not feed enough to maintain the animals. Can a supply of meat, says the Bureau of Home Economics. Can it even in hot weather and without chilling it for a day to remove the animal heat. This is not the most desirable way to handle meat, the Bureau concedes, but it is a possible method in emergency, and the summer canning of meat from freshly slaughtered animals is safe if done according to directions worked out by meat specialists and canning specialists of the U. S. Department of Agriculture.

Saving next winter's meat is an emergency problem in both the primary and secondary drought areas. Farm housewives can put up in cans meat which would otherwise sell for only a fraction of the value it would return next winter.

Meat may be canned successfully and safely in hot weather, provided the work is done quickly and right methods are used. Meat slaughtered in warm weather must be promptly and thoroughly sterilized. Where there are refrigeration facilities, it is desirable that the meat be chilled for 24 hours or longer after slaughtering. Meat which has been chilled can be cut up and handled more easily than meat that still retains the animal heat. However, for canning it is not absolutely essential to chill the meat. When refrigeration is not available the slaughtering must be planned so that canning may be done quickly. In that case not more than 4 hours should elapse between slaughtering the animal and cooking and processing the meat.

Meats must be canned in a steam pressure canner. This is because the temperatures required for sterilization (240° to 250° F.) cannot be obtained inside the jars or cans with any other canning equipment. Heating the meat to kill bacteria, or "processing," is the most important step in canning. Meat, which is in-held at low temperatures—as in northern climates during fall and winter—but even then the chances of spoilage are great. Even when there are no visible signs of spoilage certain bacteria which cause food poisoning may be present in meat which has not been thoroughly processed under pressure.

Those who do not own a steam pressure canner may be able to share one with neighbors, or may can meat at a properly equipped community center. Relief agencies in the drought areas are trying to increase the number of local canning centers as fast as proper equipment and competent supervisors can be obtained. In many areas farmers are using the animals that they are no longer able to feed to local packing plants, making arrangements for canning on a share basis.

If well supervised and equipped, canning centers are of great value in communities where everybody needs to make provision for the coming winter. The set-up may vary. There may be a neighborhood cooperative plan whereby families pool their individual equipment and work together. Or the county may own portable canning equipment which is moved on schedule. Or the community or relief agency may equip an existing building, such as an idle creamery, a school laboratory, or a farmers' market, as a temporary canner.

The Bureau of Home Economics has prepared detailed directions for meat canning with especial attention to emergency canning of meat without chilling. It has also mimeographed material on the management and equipment of community canning centers. The specialists strongly recommend that those interested in either home or community canning should send for this information before undertaking any work. Nobody, the bureau says, should lose through wrong methods a single can of good food that may be needed next winter. Write to the Bureau of Home Economics, U. S. Department of Agriculture, Washington, D. C.

**BORN**

To Mr. and Mrs. Jack von Gillern, a son, Jack Raymond von Gillern, II, at the St. Mary's hospital at Nebraska City. Mrs. von Gillern was formerly Miss Kathleen Troop, daughter of Mr. and Mrs. Arthur Troop of this city.

## HOW BIG A LUBRICATING JOB CAN A QUART OF OIL DO?

HERE is a record of motor protection and low consumption that conclusively proves how big a lubricating job a quart of oil can do. Six strictly stock cars, with one fill—five quarts only—of six different, nationally advertised motor oils were run to "destruction" at the Indianapolis Speedway under AAA supervision. Under exactly similar conditions the cars were operated until their motors failed. Here is the result: Oil No. 4 went 1713.2 miles; Oil No. 6 went 1764.4 miles; Oil No. 5 finished 1815.9 miles; Oil No. 1 completed 2266.8 miles. Oil No. 3 totalled 3318.8 miles. Oil No. 2, New and Improved Conoco Germ Processed Motor Oil, piled up the amazing total of 4729 miles! That was 3000 miles farther than the first oil to go out, and 1400 miles farther than the last oil to fail.

Such demonstrated superior qualities of greater film strength, ability to withstand increased heat, resistance to dilution—such proved performance should guide your future oil purchases. Be safe—look for the Red Triangle Sign.

## Ku Klux Klan Chief Favors Its Revival

Imperial Wizard Dr. Hiram Evans Announces Movement for Remobilization.

Atlanta—Mobilization of the Ku Klux Klan "to co-ordinate the forces of those who are interested in preserving constitutional government" was announced by Dr. Hiram Evans, Imperial Wizard. In a statement in which he said the nation "is in great danger," Dr. Evans announced the appointment of M. O. Dunning, former collector of customs for Georgia and prominent in civic and commercial organizations, as chief of staff, and said other leaders in the Klan would be "rapidly recalled to colors." He said:

"Public spirited people, Klansmen and non-members alike, realize that this nation is in great danger. Because of its record of heroic achievement, the Klan has been called upon by them to mobilize and co-ordinate those who are interested in preserving the constitutional government set up by our forefathers. Answering this request for vital service, and from among those who beyond question have organization ability, character and national reputation for public service, I have chosen as the one pre-eminently capable of doing the job, Klansman M. O. Dunning. I have appointed him chief of staff in charge of propagation. The Klan has delivered in every crisis since the Civil war and can be counted on now."

"Klansman in action, competent and courageous, will lead the American people to see that individual liberty and constitutional government shall not perish and that this nation be no longer the victim of alien propaganda. The Klan, a living vital movement in itself, is not a party to any other movement whatsoever. There is not a liaison between the Klan and fascism, nazism, communism or shirism, for all such are alien to personal freedom and dangerous to national liberty. Mr. Dunning, first of our great leaders to be recalled to the colors, will be rapidly followed by such others as are needed to prepare the Klan for its greatest service."

The Klan has been inactive for a number of years. Dr. Evans said its last war was in connection with a campaign in behalf of legislation restricting immigration. The organization also is credited with taking an

active part in the campaign of 1928 in which Alfred E. Smith was defeated for the presidency. Dr. Adams said the new work of the Klan would not involve religious, racial or political issues, but would be directed at propaganda that is "undermining our institutions."

**VISITS IN THE CITY**

The home of Mrs. J. F. Clugy was the scene of a very pleasant party of relatives on Sunday who motored here from Clarinda, Iowa, to enjoy a visit for the day here. In the party were Mr. and Mrs. Herman Clugy, Mrs. Healey, Mr. and Mrs. Fred Tate and two sons, Darrell and Merrill.

Phone the news to No. 6.

**DIES IN SHOOTING GALLERY**

Chicago—A stranger idled into Ward Burton's shooting gallery. Picking up the target revolver he looked it over with a critical eye and then plunked a quarter on the counter for ten shots. The attendant turned on the mechanical rabbits, and the idlers gravitated over to watch the shooting.

The stranger pecked away at the target six times. Twice the bullet found the bull's eye and rang the bell. The attendant turned aside to ring up the quarter on his cash register. He heard a seventh shot, and then a heavy crash. The customer had sent the seventh bullet thru his temple.
