"CHEVIES" WIN FROM BREG

From Friday's Daily The Chevrolet team of the kitten-ball league last evening annexed their game with the BREG team, one of the league leaders and assisting in making the honor of the season winner a divided one. There are now several teams in the race for first place as this is the second defeat for the BREG.

The Chevies opened the scoring in their part of the first inning to ring up a score right off the start.

The BREG came back in the second to score two and looked good to be able to maintain their pace but faltered in the third when the Chevrolet team started a rally and three runs crossed the plate, one being a home run by Oliver of the auto team.

Dr. L. S. Pucelik was on the mound for the "Chevies" and pitched a strong game, as he struck out his opponents at critical stages. Dick March did the hurling for the BREG and did a nice job but several errors added to the opportunities of the automobile handlers to score.

Drouth Relief for Several Nebraska Counties

Sherman, Valley, Clay and Fillmore Counties Are Helped with Federal Funds.

Drouth conditions in Sherman, Valley, Clay and Fillmore counties are growing steadily more serious. L. A. White, rural rehabilitation director said, as a result of the renewed attack of sun and heat the last few days. Their condition, unless relief comes soon, forecasts a constantly increasing relief load both for humans and livestock.

Considerable local corn purchases have been made with federal relief funds for livestock in these counties, and already hay has been shipped in from other sections of the state or from outside the state to help maintain stock. Some bran also has been purchased for feed.

White said he is putting four carloads of rye seed for fall pasture into Clay, Fillmore, Nuckolls and Hamilton county. These and the other extreme drouth counties previously had received substantial shipments of forage seed.

Twenty-six carloads of hay have been the only purchase made outside Nebraska to date in providing feed and seed for drouth stricken Nebraska farmers, White said. More than 1,200,000 pounds of forage seed has been shipped to distribution points in the state, and much of this already is in the ground. Recent rains in many sections of the state, he felt, have assured quantities of forage except in the four worst affected counties and possibly a few others.

Corn Being Hurt. High temperatures and winds during the past few days caused corn to roll considerably, according to reports received by the state and federal division of agricultural statistics.

Adverse weather has been quite severe in drouth areas. Rainfall for the week ending Saturday averaged .63 of an inch. The drouth areas in Nebraska comprise about thirty counties and conditions are still bad there. Rainfall for the week ending Saturday was quite general but usually light.

District Statistician Swedlund wired that "Corn was knee high in southwestern Nebraska with good stands and making fine growth. Pastures are improving and the crops looking very good." Southwestern Nebraska had very heavy rains about ten days ago.

The weekly report and reports from statisticians indicate an improvement in the cattle condition in northeastern Nebraska. Pasture and tame hay condition are somewhat higher due to improvements since the rain over the greater portion of the state. Yield reports on winter wheat vary from a failure to very good yields. Corn condition is reported slightly lower.

ERECTING JAIL

Workmen have been busy the past week or more, running a water line to the site of the new jail. Men have also been laying the concrete foundation on which the jail will be built, and on which the steel cages will be placed.

As soon as the cement has set sufficiently, the cages will be put in place and then the building will be erected around them.

This looks like a pretty strong proposition, and when it is erected there is little doubt but that anyone placed inside will be held until the officers are ready to release them.—Weeping Water Republican.

Dwyer, general attorney for the Home Loan corporation of Nebraska, came down Friday evening and will spend Sunday where with his family and looking after the business affairs of his office here. During the business meeting three new officers were elected. The new officers are, song leaders, Virginia Trively and Eleanor Minor, and cheer leader, Grace Welch.

HOG HAS BAD LUCK

Sometime during Friday night a hog, weighing in the neighborhood of 100 pounds, was killed on Webster boulevard just at the end of the brick paving. The hog had been struck by a car or truck and knocked for some distance. The night police were notified of the presence of the animal and removed it to one side of the paving until it could be hauled away.

The animal is thought to be the property of one of the nearby residents and had escaped from its pen and unluckily wandered onto the busy boulevard where traffic is heavy and moves fast.

One-Man Submarine

Byron Connott of Chicago, photographed in his "first successful one-man submarine," which is only ten feet long and weighs less than 1,000 pounds. After submerging in Wolf Lake, near Hammond, Ind., on Sunday, the amateur inventor rode in his whale-shaped craft a mile under water and then scudded back on the surface. The craft is twenty inches wide, thirty-four inches high, and has an air regulator and automatic pump siphon system, and is powered by an eighteen-volt motor.
