### Urges Program of Small Refuges for Waterfowl

Plea Made to Landowners to Join in National Program of Wildlife Restoration.

Praising a campaign for waterfowl sanctuarties on private lands recently inaugurated by the Mississippi State Game and Fish Commission officials of the U.S. Biological Survey today appealed to landowners in other states to make similar efforts as part of the national 14.40 program of wildlife restoration.

In Mississippi, according to reports received by the bureau from State Director of Conservation Hunter Kimball, game wardens throughout the state are explaining to owners of small ponds and lakes the \$ 65.74 seriousness of the waterfowl shortage and urging them to make their water areas inviolate sanctuaries. In one county seven parties have already offered to provide such refuges.

"With emergency funds and with the proceeds from the duck-stamp Denton. Five of the six members of sales," says the biological survey, the group were injured but not dan- ficers with a beautiful gavel as a "the federal government is carrying gerously. They were released after she has for the members of the club on a restoration program that will treatment at the St. Elizabeth hos-24.20 result in the establishment of refuges on the breeding grounds and flyways in the United States. Many additional refuges will, however, be needed for the full realization of wildlife restoration in this country, Orin Lanning last Friday, October and the establishment of numerous 12th with a covered dish luncheon lighted to enjoy the day at the small areas will go a long way towards meeting this need. For administrative reasons the government \$ 12.00 large consolidated areas, but no pool or slough that attracts the wild fowl 56.70 is too small for a private sanctuary. Thus a nation-wide small-areas-forwaterfowl program will be a valuable supplement to the government's

# Can you Phore your the Others! Oil is Better than the Others!

# We Can and Do!

This Machine Shows Why this New Oil Cuts Motor Wear and Saves You Money!

OU, as a buyer of Motor Oil, should ask that question -and demand facts! Here is Continental's answer: In the demonstration pictured below, the film strength and oiliness of every well known motor oil in America have been shown to be increased by the addition of a drop of Germ Essence.

Demonstrations before at least two hundred thousand motor-minded men have proved that "Any oil would be better oil if Germ Processed!" But there is only one oil made by the patented Germ Process-New and Improved a Conoco Germ Processed Motor Oil! Use this oil of proved strength in your car! It saves you money by giving greater motor protection and lower oil consumption. It gives you the comfortable feeling that you know your car is protected by the safest, finest motor oil made!

Assembled Instrument. Split bearings and shaft, lubricated with competitive oil, are clamped between "jaws" of instrument. With set-screw, ex-

Crank is now used to turn shaft. Oil film ruptures and bearings "seize." Shaft extremely hard to turn. You can even bear the metal-to-metal con-

treme pressure is applied

Drop of Germ Essence is added to oil in bearing. Same pressure applied. Shaft can now be turned easily. Smooth, quice movement-no scizing-no sound, Proof that Germ Processing in-creases oiliness and film strength of any oil!

#### TO CAR OWNERS OF

Continental backs claims with facts. To prove that New and Improved Conoco Germ Processed Motor Oil gives you lower oil consumption as well as greater motor protection, we drove six brand new cars to destruction, testing this oil against five other nationally known oils. Any Conoco station will give you a booklet that tells the story of this convincing test. It will pay you in money saved to read it. Drive in and ask for a copy-or try this oill
