NEARLY THRU BUYING SHEEP

Denver.—Officials of the Denver office of the AAA announced that the federal government's drought relief sheep buying program is almost completed in western states. More sheep have been offered than the government could buy. Requests to extend the program have come from Colorado, Montana, New Mexico and Utah. Reports showed 2,500,000 sheep have been purchased but figures are incomplete. When the program was started the government had \$10,000,000 in purchase about 4,500,000 head of sheep, and some goats. Officials believe the purchasing is three-fourths complete. Reports from drought states indicated thousands of unpurchased animals will starve this winter unless additional aid is forthcoming, officials said.

THOUSAND REBELS BURIED

Oviedo, Spain.—Seven hundred rebel dead were reported buried Monday and 300 additional Tuesday in General Ochoa's relentless mop-up campaign in the almost inaccessible mountain strongholds of northern Spain.

Eye witness accounts of uncontrolled looting, seizure of jewelry and clothing, and robbing of banks by communist rebel hordes were permitted for the first time to be released thru newly established communications.

The burial of the rebel dead, most of them killed during the height of fighting days previously, gives the first conclusive indication of the enormous death toll in northern Spain, final results of which probably never will be known.
