

Counsels Raising Sugar Beets in This Section

C. H. Thomas Urges This as a Means of Developing Sources of Employment for Labor.

To the majority of the American people, the sugar beet industry is of little or no importance. It looks reasonable to believe that right now, while we have eighteen million people on relief rolls, that the raising of sugar beets and manufacturing of our own sugar should be of vital importance. If the farmers of the Central West were permitted to raise enough beets on the river valleys at the fixed price now on sugar beets so that we would be producing 80 per cent of the sugar we consume instead of 27 per cent, we would see millions of dollars being spent building sugar refineries and thousands of people being put to work, in the fields as well as in the refineries.

For it keeps one man plenty busy to care for 10 acres of beets where the same man could take care of from 60 to 80 acres of corn, which means that it takes 6 or 8 times the labor to produce the same amount of acres of beets as it does corn. And it keeps from 200 to 350 men busy most all winter in one refinery.

There we have the Missouri River valley, the Platte, the Elkhorn besides numerous smaller valleys that would raise better sugar beets dry farming than they are raising on their irrigated land in the western part of the state.

Right here at home we have railroads, running every direction, good highways, and possibly a waterway, one of the most convenient distributing points in the middle west.

Now with our thousands of acres and people lying idle and with ma-

HELP KIDNEYS

If your kidneys function badly and you have a lame, aching back, with attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains... use Doan's Pills. Doan's are especially for poorly functioning kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor!

DOAN'S PILLS

Chinery now perfected that will cut the costs of production at least \$6.00 per acre along with the fact that the land has proved itself in 1930 the American Beet Sugar Company of Mason City, Iowa, had a field of 40 acres near Hamburg, Iowa, which produced 16 tons per acre testing 15 per cent sugar fat. Here is one industry that, if developed, will do more than all the river and dam projects put together will ever do, to help us out of the depression. Ask any banker or business man in any town or locality where they raise sugar beets and he will tell you that the people who are paying their debts are the beet growers.

Why not investigate the possibility of a home or government owned sugar refinery. Beings our president has put a fixed price on sugar beets as well as raised the quota on home grown sugar, its at least a prospect worth of consideration.

C. H. THOMAS.

VISITS IN CITY

Mrs. Mary Fetzter, of Louisville, was in the city Saturday to look after some business and calling on the many old time friends in this community. Mrs. Fetzter while in the city was a caller at the Journal to renew her subscription to the semi-weekly edition of the paper.

Phone the news to No. 6.

COURT TAKES ADJOURNMENT

The district court took an adjournment Friday afternoon to resume activities on Monday when Judge Livingston and the jury will continue the hearing of the case of Edith Bailar vs. L. W. Baldwin, trustee, et al. The plaintiff has not finished their case which is one for damages against the Missouri Pacific railroad and it is expected that two more days will be required to complete the case and submit it to the jury.

Judge Livingston presided today over the program at Nebraska City of the presentation of the portrait of Judge James T. Begley to the Otoe county bar to be placed in the court house at Nebraska City.

RIVERVIEW CLUB NOTES

The Riverview club met at the home of Mrs. George Brinklow.

Most of the members were present. Quite an interesting discussion was had on "Food Needs at Low Cost."

After business matters were finished, a shower was planned for one of the members, to be held at the home of Mrs. Louis Sack.

A special business meeting was also planned to be held at the home of Vice President Mrs. Harold Hull. Refreshments were served, after which the club adjourned to meet with Mrs. Joe Campbell and daughter, Miss Josephine on Dec. 18th.

PROGRAM AND PLATE SUPPER

At Cullum school, Dist. 30 on Dec. 14. Everyone welcome.

JUNE KEIL, Teacher.

F. J. Hild, one of the prominent residents of west of Mynard, was in the city for a short time Saturday to look after some business affairs and while here was a caller at the Journal to renew his subscription.

Old Bellevue College Again to Function

Will Be Leased to Establish Vocational Training for Transients at the Omaha Center.

The Nebraska division of the federal transient bureau will take over the old Bellevue college campus and buildings on lease next week to establish a vocational training school, Randall C. Biart, state director for FERA, urban rehabilitation division, announced yesterday.

With John McPherson, director of the state transient bureau, Biart has leased the property from Hastings college. Prof. Harry Fore, formerly of Creighton university, now educational supervisor of the "Bo Arts college" at the center, will be in charge of the school.

The faculty will be drawn from the state and federal vocational education department with the co-operation of J. R. Hawke, director of adult education in the Omaha schools.

A Select Roster.

From 150 to two hundred men will be selected from the center. The enrollment is not open to everybody, but only to those who can pass rigid physical, mental and character tests. No age limit has been established, but enrollment will be confined to younger men.

Comprehensive, practical courses will be offered, said Biart. There will be no "frills" in the curriculum, he said.

The long period of unemployment has caused a good many men who formerly were skilled to be skilled no longer, said Biart, and has made it impossible for many others to obtain training.

Plan Play Program.

The college equipment consists of several buildings, including four dormitories, the president's home and an athletic field. There are a gymnasium, a basketball court and a swimming pool, 20 by 60 feet. A recreation program will be arranged.

While men will be sent down next week, said McPherson, 10 days or two weeks will be required before the equipment will be ready.

Established more than 50 years ago, Bellevue was the seat of a government vocational school for training of disabled veterans in 1921.

HERE FOR TRIAL

From Friday's Daily J. E. Lancaster, state deputy sheriff, was in the city today to attend the trial of the case of Edith Bailar vs. the Missouri Pacific railroad, a damage suit for an accident at the Murray crossing.

Mr. Lancaster has had a very strenuous time in the past two weeks as he was one of the state men working on bank robbery cases that finally culminated in the raid at Kinney, Nebraska, last Saturday and the capture and rout of most of the gang that has been engaged in bank stickups over the west. Mr. Lancaster states the gang had been under suspicion for some time and the evidence against them was gradually tightened until the raid.

DEAD ANIMALS

Dead animals removed free of charge. Telephone South Omaha Rendering Works, Market 4626. Reverse charges. n5-tfw

Mrs. Jacob Buechler, residing in the Cedar Creek community, was here Saturday to look after some business affairs and also to renew her subscription to the semi-weekly edition of the Journal.

All kinds of commercial printing done promptly at the Journal office.

ENJOY A FINE MEETING

A party of Plattsmouth Rotarians were at Council Bluffs Friday to attend the conference held there at an intercity meeting. The event was attended by eleven of the district governors of Rotary from the west and northern states as well as representatives of the Canadian Rotarians.

The meeting was held at Chieftain hotel in Council Bluffs and large delegations were present from the surrounding towns in Nebraska and Iowa and to enjoy the splendid talks that were given by the various visiting executives. The speakers represented many of the leaders in leading professions and business interests and all brought messages of the greatest interest.

Those from this city attending the conference were L. O. Minor, president; Dr. R. P. Westover, Dr. P. T. Heineman, Ray Misner, Fred Lugsch, Robert M. Walling, Dr. H. G. McClusky and Arthur Troop.

TALK TURKEY

Service of Christmas day turkey up to a maximum of about 100 thousand pounds to 53 thousand men in 248 CCC camps in the eight states comprising the Seventh corps area has been authorized.

Actually, much less will probably decorate the camp holiday tables, for Colonel F. E. Williford, corps area CCC officer, has authorized Christmas leave with pay for men desiring to spend the day at home and able to arrange their own transportation.

A further inducement to leave camp before Christmas day is held out to six thousand men whose final term of service expires December 31. They may be discharged as early as December 22.

From January 2 to 9, a total of 9,067 men will be enrolled into the CCC in the corps area to bring its strength up to a quota of 56 thousand.
