Three Million Hiway Program to Start Soon

Paving on "O" Street Among Projects Listed for Lettings in Next Few Weeks.

A three million dollar highway program has been shaped for Nebraska this winter. Including contracts to be awarded after the Dec. 20 letting, the following work will be started or ready to start:

Paving, 58 miles.
Bituminous mat, 6 miles.
Gravel, 196 miles.
Grading, 255 miles.
Bridges, 109.
Viaducts, 7.

The paving will bring the total of concrete highways in the state to approximately 890 miles. In addition, there will be 527 miles of bituminous mat. Graveled roads will total nearly 6,000 miles, making the aggregate of all-weather roads in Nebraska nearly 7,500 miles.

Highway work in the state is not concentrated in any large individual projects this winter, but is spread over a large number of counties. Much of the paving consists of one or two mile strips within cities. The federal road allotment provided 25 percent had to be utilized in cities. However, some of the more important construction work ahead is as follows:

Paving the relocation of U. S. 20 between Waterbury and Laurel, in Dixon and Cedar counties.

Extension of paving on Nebraska No. 8 between Scribner and West Point in Dodge and Cuming counties.

Extension of paving on Nebraska 24 between Lincoln and Union in Cass county.

Railroad grade separation on U. S. 6 west of Dorchester in Saline county.

Grading preparatory to paving west of North Platte on U. S. 30 in Lincoln county.

Extension of paving on U. S. 73 east and west of Verdon in Richardson county.

Railroad grade separation at Alliance in Box Butte county.

'BEWILDERED' ON OUTSIDE

Omaha.—Frank Pomeroy, 24, who has no regular home and has spent most of his life in reformatories since he was 12, faced United States Commissioner Mullen Friday on a Dyer act charge, and said that the outside world "completely ybewildered" him.

He admitted transporting a stolen car from Madison, Wis., to Nebraska and was held for the federal grand jury. Pomeroy recently was released from Anamosa reformatory in Iowa, where he served nearly five years. Previously he had been in the Wyoming reformatory.

The noises of city life, automobiles, and rush of traffic befuddled him, Pomeroy said. After his recent release, timidity kept him from seeking work and he turned, he said, to theft.

ZEPHYR GETS FOURTH CAR

Chicago.—President Budd of the Burlington made known an additional car had been ordered for the road's streamlined train, the Zephyr. This will make the train a four car unit.

The Zephyr, constructed of stainless steel, went into regular service Nov. 11 in what President Budd described as "the heart of the system." The routes so designated are between Lincoln, Neb., and Kansas City, and comprise one of the Burlington railroad's heaviest local passenger lines. The car will be built by the Edward G. Budd Manufacturing company of Philadelphia and will cost about \$45,000.

The Weeping Water Republican was awarded the contract for printing the commissioner proceedings.

In the bids for county physician service there were only bids in the first district and in which the contract was secured by Dr. Jerrold F. Stibal as the lowest bidder.

In the bids for the burial of the pauper dead the contract was awarded to the Sattler funeral home.

Wabash News

P. H. Clarkes was out looking after his traps last Wednesday afternoon. He was expecting that the run would bring him a few peats.

H. P. Hinds, who is making his home with his daughter and husband, Mr. and Mrs. W. L. Copple, was a visitor in Wabash for a short time last Monday.

Warren Richards and son, Lloyd, were in Weeping Water Tuesday of last week, where they were looking some business matters for a short time and meeting many of their old friends.

Feeling Much Better Now
L. R. Stanley, who suffered a great deal from a cyst which formed on his leg and had to be removed with the surgeon's knife, is now feeling much better and able to get about. He was having a quantity of wood sawed at the farm last Wednesday, being assisted at the work by Keith Mumford and a number of others. The saw rig used on the job belongs to Herbert Hansen, who was assisted in its operation by Frank Wilson.

Ladies Aid Holds Meeting
The Ladies Aid society of the Wabash church was meeting with their member, Mrs. William Reuter, on last Wednesday afternoon when they were busily engaged with their pre-Christmas work as well as laying plans for the work of the new year ahead.

At the conclusion of the business session and a short social period, they enjoyed a fine luncheon and left for their respective homes declaring Mrs. Reuter a royal entertainer.

Sold 4,500 Bushels of Corn
Ivy C. McCrorey, who has kept his corn back and not sold it, has just had some 4,500 bushels shelled and delivered the same to the Wabash elevator, receiving the sum of \$1 per bushel for it. This is considered a very good price and affords a striking comparison to the 10 to 15 cents a bushel corn was bringing less than two years ago. With \$1 corn and the other products selling in like proportion, farming should once more prove a paying endeavor. The only regret is that so few have corn to sell these days.

Near Serious Fire
Last Saturday night, Mr. and Mrs. H. H. Gerbeling remained up until a late hour in the hope that their daughter, who works in Lincoln, might come home for the week end, but after the departure of the train went to bed, being careful of the fire which was left burning during the night. They did not arise until quite late Sunday morning and when they opened the living room door, they found the room filled with smoke and very hot, for the room was on fire. Mr. Gerbeling groped along the floor to the place where the fire was burning, with a pail of water at his side, which he poured on the burning floor and extinguished the blaze. It was found that the rug in front of the stove had been consumed and the fire had eaten through the double floor, being at a point where it would have soon burst out in uncontrollable flames, causing probable destruction of the home. As it was, the interior of the house was badly damaged by the smoke. An insurance adjuster arrived the following day and allowed the claim for damage, which is being repaired, so that the home will soon be in its accustomed good condition.

DISREGARDS PAST EVENTS
Washington.—In its first formal statement on formulation of a federal aviation policy, the president's aviation commission said it would not concern itself with air mail contract cancellations or other events of the "past."
Denying published reports that it would recommend repeal of the Black-McKellar air mail law and "junking" the new air mail setup, Chairman Clark Howell, sr., said he was sure any modification recommended would have the approval of Senators Black and McKellar. He added that the commission had not yet taken up the matter.
