CREATE DISTURBANCE

From Wednesday's Daily Leonard Creek, giving its address as Nebraska City, was arrested early this morning by Officer Henry Trout as the result of a disturbance that he created in one of the local taverns. The man with a companion giving the name of Rufus Beers, had had car trouble near 1 o'clock near the residence of J. A. Pitz on highway No. 75, later appearing at the sub station of the Iowa-Nebraska Light & Power Co., where they attempted to borrow the cars of the night force but without success.

The party had then driven to the vicinity of the Texaco oil station near the intersection of Chicago avenue and the Louisville road where they had abandoned the car and walked into the city.

The parties had appeared early this morning at the tavern and Creek, it is claimed, started a disturbance and when efforts were made to quiet him he had started to battle and made necessary his being subdued by employees of the place and then turned over to the police. Creek was taken to jail and proceeded to continue his warlike demonstration and broke out two window lights in the jail.

Rufus Beers, who had been with Creek was later taken in custody by Chief of Police Libershal, but whether a complaint will be filed against him is doubtful as he was not intoxicated when arrested and apparently had been merely a companion of Creek.

A complaint of disturbing the peace will be filed against Creek, it was stated at the city hall today.
