

UNION ITEMS.

Mayor George A. Stites was called to Plattsmouth and Omaha, where he had some business matters to look after on last Friday.

Mrs. W. A. Taylor and Mr. and Mrs. C. W. Hoback were at Murray last Saturday night, where they were called to look after some matters of business.

Otto Ehlers threshed last Saturday and was pleased to learn that his wheat had made some twenty bushels to the acre, the grain being of very fair quality.

Edgar Newton and family were in Union last Saturday, coming down from their home in Plattsmouth to spend the day with Mrs. Newton's mother, Mrs. Vesta Clarke.

C. E. Withrow, of Palmyra, where he is engaged in the publishing of a newspaper, was looking after some business and visiting with relatives and friends here over the week end.

Lawrence Meisinger and family visited at the home of Mr. and Mrs. E. E. Leach last Sunday evening, enjoying their visit in spite of the extremely high temperature that prevailed.

Will Kropp, of Nebraska City, was a visitor in Union last Monday, coming up to look after some business matters, and from here went on to Lincoln, where he also looked after business.

Miss Vera Caldwell was taken to

the Clarkson hospital in Omaha last Thursday, where she was placed under observation and treatment. It is quite certain she will have to undergo an operation for appendicitis.

Dan Reynolds, who was formerly manager of the Trunkenholz Oil company station here, but resigned to accept a position with the stone quarries, has been offered a promotion in Omaha and has taken the latter.

Fred I. Rea, district manager of the Iowa-Nebraska Light & Power company, with headquarters in Plattsmouth, was looking after some business matters in Union last Saturday, conferring with the local representative, Elmer Withrow.

John B. Roddy, Frank Bauer, and his three nieces, Ruth, Dorothy and Bessie Anne Nickles, who were visiting at the Bauer home from Oklahoma, where they live, were enjoying a dip at the swimming hole at the Taylor mill near Nebraska City last Sunday.

Genevieve Becker, daughter of Mr. and Mrs. Henry H. Becker, who has been conducting the filling station as a regular work, was assisting at the John Fitzpatrick cafe last Monday. Miss Genevieve is a hustler and will make an excellent helper in any position she takes up.

A Good Idea.
Robert Fitch, Jr., the Cass county surveyor, and his assistant, were over east of Union in the Sciota district on Monday of this week, where they were busy relocating section corners and placing concrete corner posts with

brass tips in the ground to tell just where the section lines are. This is a very good idea and one that will preserve the landmarks for years to come, having been originated by the county surveyor, Mr. Fitch.

Truck Repaired Here.
L. L. McCarty, service wagon man for the Conoco Oil company, with headquarters at Plattsmouth, was in Union Monday making some deliveries of Conoco products, and was compelled to leave his truck here for repairs, as the key to one of the wheels had become loosened, causing both the axle and the hub to cut until it was no longer safe to drive.

Charles Land got the necessary repairs and looked after the work of putting the truck back in shape so it could be used again.

Says Viaduct to be Built
John Fitzpatrick was at Lincoln last Friday and in conversation with some men there who seem to know the inside dope about the matter, was advised that the viaduct over the Missouri Pacific tracks here is to be built and that it will not be long before active work on the structure will be started. That's good news!

Visited in Union
Mr. and Mrs. F. W. Robb and family, of Lincoln; John Robb, of Lincoln; Norma Robb, of Nebraska City; Mrs. Elizabeth Stanton and brother, Herbert Stanton, and Miss Elizabeth Robb, all of Nebraska City, were guests Sunday at the home of Mont

Robb and daughter, Augusta, returning home in the evening. Mrs. Norman Robb and her daughter, Elizabeth will depart for Los Angeles, accompanied by Herbert Stanton, brother of Mrs. Robb, making the trip via auto. Mrs. Robb and daughter residing there where another daughter and sister, Miss Jane Robb already lives, while Mr. Stanton, who is an employee of the postoffice at Nebraska City and is taking his vacation expects to return at the end of his two weeks' leave of absence.

Back from the East.
George M. Porter and wife and Charles Van Patton and wife, who have been visiting at the old home of Mr. Porter and his sister, Mrs. Van Patton, at Seven Mile Ford, West Virginia, during the past several weeks, returned home last Friday, stopping for a visit with their relatives here and then going on to their home in Lincoln. W. H. and D. B. Porter are brothers of George Porter and his sister, Mrs. Van Patton, and Mrs. J. C. Snavely and Mrs. E. J. Wood are the other sisters of the family who enjoyed the stop-over visit and the opportunity it afforded them of learning much of interest concerning their old home in the east. The visitors reported having had a splendid time, but, as is always the case when one goes back to the scenes of youth, they found a great many changes in the passing years. They found crops very good most of the way, going and returning and say that Virginia will have exceptionally good crops this year.

UNDERGOES TONSILECTOMY
From Tuesday's Daily:
This morning Dorothy Ann Will underwent a tonsilectomy at the office of a local physician. The patient stood the ordeal in fine shape and it is hoped that in a few days that she may be back in her former excellent condition. She has been bothered for sometime with the tonsils and now they will trouble her no more.

To Have Fine Homes
P. F. Rihn, who some time since purchased the home formerly owned by Earl Merritt, has been having considerable work done on the same, including the addition of another room, the making of some alterations to the kitchen, installing a bath room and water service, all of which will make them a most excellent place of abode.

Charles L. Greene last week purchased the property of E. J. Mougay, containing some 30 acres and a nine-room house, which he is altering considerable to make it more adapted to his needs. There is ample pasture for a cow and some 25 acres of land to be cultivated. This will make a fine home for Mr. and Mrs. Greene and the kiddies and provide Charlie with a good bit of outdoor exercise during the hours he is not busy in the store.

The acquisition of these homes by Messrs Rihn and Greene insure the permanent residence of these two excellent families as active and hard-working citizens of Union.

Apologies to Henry Wallace
Alvin Range loaned a sow to Lloyd Scott for the purpose of enabling the latter to get a start in the hog-raising business. The first litter, farrowed early this year, numbered sixteen pigs, all of them surviving. In due course of time, a few days ago, another litter was farrowed to this same sow, the number this time being nineteen, all of which but one survived. Thus in the course of a few months the population of this one family has been increased 3400 per cent. Surely such goings on as this would make Uncle Henry Wallace open his eyes. However, Mr. Scott is well pleased with his family of young porkers that squeal for their daily allowance, and will see that they get it, growing into strong, healthy hogs that will net a nice return for his labor of looking after them.

Takes Over Oil Station
Charles Land has accepted the position of manager of the Trunkenholz Oil company's station in Union, placing Ben Anderson in charge of the pumps. Both these gentlemen are well qualified for the job they are undertaking and not being afraid to work, should make a success of the business for themselves and the concern by which they are employed.

Had Picnic Dinner Sunday
The various members of the Hoback family were gathered at the Nebraska City last Sunday, where they held a fine picnic and ate their dinner in the shade of the stately pine trees at Morton park. The gathering was in honor of Charles Hoback, Sr., and wife, who have been here from their home in Los Angeles for more than a week.

EIGHT MILE GROVE LUTHERAN CHURCH
Sunday, Aug. 4th
9:30 a. m. Sunday school.
10:0 a. m. German service.
Sunday, August 11th
10:30 a. m. English service. The annual congregational meeting will be held in connection with this service.

The job of controlling old man river is no small undertaking, but continued appropriations of 21 million dollars will go a long way toward doing it.

HAS FINE POSITION

Miss Mary Donnelly Robb, daughter of Mrs. Norma Robb, 317 North Ninth street, Nebraska City, has the kind of a job many girls dream about but few live to obtain. Miss Robb, in the few short months she has lived in California, has been advanced to the position of secretary in the offices of Fox West Coast Corporation.

The position gives her the privilege to hobnob with the stars—movie, of course. A complimentary ticket to Fox theaters, and other interests of the company, go with the job. At the recent gathering of the cinema elite at Wrigley Field in California Miss Robb had a box seat, with Clark Gable and other film celebrities right there too. Miss Robb is enjoying life in California, she writes friends.

Her mother and sister, Elizabeth, will join her there to live, leaving Nebraska City August 4. Herbert Stanford, brother of Mrs. Robb, will accompany them. He plans to remain until about September 1, and will return by airplane.
