

Trace Flow of Silver Dollars

All silver dollars—and two girls.

Looking over the first batch of the Standard Oil company's 110,000 silver dollars given out in payrolls in a "flow-of-money" test. Employees received blanks on which they were to indicate how the dollars were spent. Five thousand stores in Cleveland, where the test was conducted, were urged to co-operate with the plan and record when and how the money was received. The two girls, above, are employees of the company.

BENTLEY BLAZE RAZES BUILDING

Bentley, Ia., Aug. 6.—Fire of undetermined origin razed one building and damaged two others in Bentley's business district Tuesday night.

A two-story frame building, which comprises the general store and home of George O. Johnson on the first floor and the town hall on the second, was completely destroyed. The fire started on the roof.

Mr. and Mrs. Johnson and two children, at home at the time, escaped uninjured.

A stiff breeze whipped the blaze, causing it to spread to the home of Henry Schneekloth, which is also the Bentley post office. Damage to the Schneekloth dwelling was confined mainly to the roof, but there was also smoke damage in the home and post office.

The combination tavern and billiard parlor of Hiram Carter also was damaged slightly.

A busy season ahead in canning industry as moisture assures good crops in all lines.

Bachelor Banquets

By JOSEPHINE GIBSON, Director, Home Food Institute

MANY WOMEN hesitate to take even a short vacation in the summer time if it means leaving their helpless men folk at home to forage for their own food. They fear these summer bachelors of theirs might run amuck in the recipe file, grow thin and hungry from neglect, or let a pyramid of dishes collect in the kitchen sink. But really, such fears are groundless. Almost every man has some hidden culinary talent lurking under the surface of his masculine indifference. They all have their pet theories on seasonings and such, and this is the ideal time to try them out. With a little kindly guidance, and a few tactfully made suggestions, they may even fare so well as to call in their fellow bachelors for a brotherhood feast. Just post these mannish menus and recipes on the kitchen bulletin board, and leave without further worry. Your vacation will be a bachelor's holiday.

- Jellied Consommé
- Home Barbecued Steaks*
- Sliced Tomato Salad
- Fig Pudding served with Ice Cream and Strawberries
- Coffee
- Crisp Crackers
- Baked Potatoes
- Corn-on-the-Cob

- Gumbo Creole Soup (ready-to-serve)
- Boiled New Potatoes
- Hearts of Lettuce Salad with French Dressing
- Refrigerator Ginger Bread with Apple Butter Topping*
- Coffee

(* Indicates recipes given below)

Home Barbecued Steaks—Place 6 cubed steaks, or 6 individual steaks (hip or round) cubed with knife, on greased rack of broiler. Dip butter brush into Barbecue Sauce and brush the steaks with it. Place under hot broiler (450° F.), sear, turn steaks and brush with the sauce. Repeat this process every 5 or 6 minutes until steaks are cooked through, or until tender. The vinegar in the sauce aids in breaking down the meat fibers so that it becomes very tender.

Barbecue Sauce—Mix 3 tablespoons butter, 3 tablespoons Cider Vinegar, 1 teaspoon Prepared Brown Mustard, 1 teaspoon chopped onion, 1 teaspoon Worcestershire Sauce, 1 teaspoon Chili Sauce, ½ teaspoon lemon juice, 1 slice of lemon, ½ tablespoon brown sugar and a dash of pepper. Bring to boiling point. Keep warm while basting the meat. If any sauce remains, it may be kept in a cool place and used later.

Chipped Beef with Corn—Drain 1 No. 2 can whole kernel corn, saving liquid. Flake one 2½-oz. jar chipped beef, and place corn and beef in 2 tablespoons hot butter in skillet, and cook, stirring until slightly brown, and dry. Blend 2 tablespoons flour with the corn and meat and continue browning.

Apple Butter Topping—Add a few grains of salt to 1 egg white and beat until stiff. Fold in 4 tablespoons Pure Apple Butter, adding 1 tablespoonful at a time, beating after the addition of each tablespoonful. A few drops of lemon juice may be added, if desired.

Late Summer Best Time for Lawn Repairs

Scratch Surface and Cover with Light Dressing of Soil When Repairing the Bare Spots.

The time is approaching when work on lawns and the seeding of new lawns can be done under more favorable conditions than at any season. Fine lawn grasses all tend to stop growth in midsummer and their energy revives as fall approaches. This is believed to be governed by the length of the daylight.

From late August to the first of October, the earlier the better, is the most favorable time for the germination of lawn grass seed and the establishment of seedling plants. The growth urge is at its maximum, the weather is cooler, with more plentiful moisture, and with shortening days there is an apparent effort on the part of the plants to achieve maximum strength in preparation for the winter.

The earlier seed is sown, the longer seedling plants have to grow in this favorable period before the ground freezes. After October 1 there is considerable hazard due to the possibility that freezing will come when the seedling plants are too young to stand it. Seeding should never be delayed so long unless it is impossible to sow earlier.

Seed sown on established lawn for repair purposes at this season requires more careful treatment than in the early spring. There must be assurance that the seed is covered with earth, since otherwise it is likely to wash off the bare spots. Loosen the soil in the bare places, sprinkle on the seed and rake it in, or if seed is broadcast generally over the lawn it should be accompanied by a light top dressing. This should be prepared of sifted soil, which may be mixed with a complete plant food. It should not exceed a quarter of an inch in depth when spread over the lawn and should be carefully raked and washed off the grass leaves.

Throughout the cold-weather states of the United States, Kentucky blue grass is considered very satisfactory. It is sown usually in a mixture which includes considerable red top and some white clover and bent. Red top is a fine lawn grass which germinates more quickly than blue grass and becomes established easily, but it is not so permanent. It is used as a nurse crop to the blue grass, which, while slower in germinating and taking hold, will finally come to dominate in the permanent lawn. White clover thickens the turf and enriches the soil.

It is a good plan for gardeners to have a ready supply of good grass seed for the late summer and fall re-seeding; and where new lawns are to be made, a supply of plant food will also be needed.

Washington.—A bill to put dealers and handlers of live poultry under federal licenses was passed by the house and sent to the white house.

'SAMARITAN' HAS BAD LUCK

Omaha.—For a good samaritan, William Neihart of Omaha, has more than his share of tough luck.

Neihart passed the scene of an automobile accident Sunday and volunteered to take the victims to a hospital. En route, his car collided with one driven by William Watson, of Omaha. There was no serious damage and Neihart went on to the hospital where Lester Fuller, Mrs. Fuller, Mr. and Mrs. H. M. Rentschler, Omaha, had their minor injuries attended.

Then Neihart, with Fuller and Dugan, drivers of the cars in the first accident, all went to police headquarters where all were booked on charges of reckless driving. Neihart was also booked on charges of leaving the scene of an accident. While the three were there Watson walked in and was booked as a witness.

EIG WHEAT SHIPMENTS

Omaha.—Officials of the Northwestern railroad here said 45 cars of wheat, mostly from South Dakota, were loaded at Gordon in the two weeks period July 15 to 31. Approximately 60,000 bushels of wheat were loaded.

The figures are not exceptionally heavy for a normal season, the railroad officials reported. No figures are available as yet for the month of August, but the loadings, it was said, have been heavy. Heavy loadings have also been recorded at Merriman, altho the number of cars filled is less than at Gordon. Most of the grain loaded at Merriman and Gordon is consigned to the Omaha market.

Improved crop conditions and higher prices for farm products will stimulate business. Shrewd advertisers recognize this and will go after increased trade.

RODEO AT WAHOO

Wahoo, Neb., Aug. 8.—(Special)—Sam Stuart of Fort Worth, Texas, the only rival of the bullfighting Sidney Franklin in the United States, has been engaged to face a new herd of Brahma bulls in the arena here during the second annual Wahoo Buckaroo. This sport is purely burlesque in nature but a whale of a lot of fun and will be the night feature of the Saunders County Buckaroo-Fair, August 21 to 24, inclusive.

The fast working cowboys will make a quick change from the regulation rodeo arena of the afternoon to a smaller one for the burlesque feature and Mr. Stuart will be assisted by a bevy of agile clowns among which are Cousin Kingfish who fights from safety on a high wire and Scrap Iron, who fights from a fire department barrel on the ground. Charley Shultz, the children's clown of Ponca City, Oklahoma and Milt McKinley, the flirting cowboy who flirts only with danger, will add action, color and comedy to the Spanish setting.

The requirements for this type of sport are good health, eyesight and co-ordination of mind and muscle to dodge gracefully these furious Brahma beasts of East Indian where they have gained prowess over their jungle enemy, the man-killing Bengal tiger.

A BIG CIRCUS TO BE IN THIS SECTION SOON

The circus fans and circus minded folks of this vicinity will have an opportunity to enjoy the performances of the Russell Bros. three-ring circus when it exhibits in Nebraska City, Thursday, August 13th.

The circus is one form of amusement that still retains its lure, and most any circus is worth seeing, but when the one in question is the Russell Bros. Three Ring Circus, then our circus admirers may be assured of a treat—for this is one of the very highest class and cleanest of circuses.

This show is deserving of patronage because it was one of the first of the large shows to reduce its price of admission and it did so without in any way cutting down on its performance or menagerie display.

All that one pair of eyes can see and more too, will be presented in the three rings and on the hippodrome track. The Russell Circus is one that boasts of its display of trained horses and its unusual assembly of novel features, which are to be seen exclusively with this show. After all it is the remarkable sensational trapeze performance of Bob Fisher's Five Fearless Flyers that is the big sensation of the show.

POULTRY LICENSE ENACTED

Washington.—A bill to put dealers and handlers of live poultry under federal licenses was passed by the house and sent to the white house.

Bringing the measure before the house, Rep. Mitchell (D., Tenn.) said it was designed to prevent "racketeering" in central markets by charging for services never given. He said the bill, previously passed by the senate, would cut the cost of a bird to the New York consumer from 15 to 20 cents and boost the price per pound for the southern or western producer by 2 1-2 to 3 cents.

MYNARD CHURCH NOTES

There will be a real treat for the people of the Mynard community on Sunday, August 11th.

The sextet of colored people will sing a number of their spiritual songs at the service at 11 o'clock.

There will also be with us in the afternoon at 3 o'clock Rev. Vannice who will hold the Fourth Quarterly Conference.

Bring your lunch and have a good time between the services, fellowship dinner at 1 o'clock.

H. A. MCKELVEY, Pastor.

Phone the news to No. 6.

YOU cannot prevent automobile accidents—you may not be to blame if your car becomes involved in an accident. But it is almost certain to cost you money. Carry adequate insurance thru

G-Men Find the 'Phoney'

More than \$1,000,000 in phoney bills was capacity of counterfeiters plant at High Falls, N. Y., until government men found Uso Albani, Albert Ravone and Carmine Coppola (l. to r.), working the plant. Some of completed bills are seen below.

Elmwood News

Orley Clement has just completed the manufacture of a popcorn stand and vendor and will use it to dispense popcorn to those desiring it.

Mr. and Mrs. Raymond Rucker of Otoe were visiting in Elmwood last Sunday and while here were guests at the home of Mr. and Mrs. Herman Penterman.

Last Monday Mr. and Mrs. John E. Turner of Plattsmouth, were visiting for a short time in Elmwood, guests at the home of Mr. and Mrs. N. D. Bothwell and also with the father, Oscar Turner.

Henry Westfall of the Coryell filling station and owner of the Westfall garage, accompanied by John Gerdes of near Wabash, were in Lincoln last Tuesday looking after some business matters for a short time.

Miss Lucile Buising, the genial clerk at the Farmers Exchange is at this time taking her vacation, spending the same at Fairbury where she formerly resided and where she has a large number of very close friends.

Mrs. Catherine Lorenz of Omaha is spending a week with her sister, Mrs. Guy Clements at their cottage at South Bend where they are enjoying the outing and getting away from the crowded hot city during the excessively warm weather.

Morris Penterman has been assisting Mr. Race in hauling wheat from the threshing machine which is threshing for Norman Bornemeler, of the elevator. The wheat is making over twenty-five bushels and is testing fifty-nine pounds to the bushel.

Mrs. Emil Rosenow who is the accommodating and efficient worker at the American Exchange bank is at this time taking her vacation and has been doing duty as service hand at the filling station when the husband is called away to look after business in the country and elsewhere.

Mr. and Mrs. Emil Meyers of Fairbury with the kiddies arrived in Elmwood last Sunday morning to visit for the day at the home of Mrs. Meyers, Mr. and Mrs. Frank Gillet. Mrs. Meyers was very sick for a time and was in the hospital, but has entirely recovered and is feeling fine. Mr. and Mrs. Gillet were pleased with the very pleasant visit.

To Spend Two Weeks in West.

Five of the young men of Elmwood who have been working hard and steady during the spring and summer are to take a little vacation which will approximate about two weeks in the west, they being Virgil Woods, who will furnish the auto, Kenneth and Clyde West, Don Gonzales and Loren Dennis. They will make a tour of the west portion of Nebraska and portions of South Dakota, Wyoming and Colorado and will drive where the attractions allure, spending as much time in any one place as there are new things to see.

Here from the North.

Mr. and Mrs. Wm. Hulsh of who have been spending a month at Backus, Minn., where their son, Herbert, makes his home and where he is engaged in potato farming, returned home this week and were pleased to see the old friends here again. They report very good crops up that way.

Entertained at Supper.

Elmer Shreeve and wife and Mrs. Emma Shreeve, mother of Elmer, were hosts at an evening picnic supper at the home of Elmer Shreeve last Friday evening when the entertained Supt. Spencer Ledger and wife and their little daughter and Rev. Ernest Baker and wife and a sister of Mrs. Baker.

The occasion honored Superintendent and Mrs. Ledger who are in a short time to move to Burchard where Mr. Ledger is to be superintendent of schools. They expect to move in about a week or ten days.

Completing a New Book. Mrs. Bess Street Aldrich, the au-

thoress, is at this time completing her seventh book which will be ready for the printer in a short time. The name of which cannot be made known at this time, as the matter is under contract. The book will surely prove a winner, we are certain, as the other six have been. "The Rim of the Prairie" was especially an interesting volume and also "The Lantern in Her Hand," and it is confidently expected that the forthcoming volume will be as popular, if not more so than any of those which have preceded it.

Will Make a Trip West.

Morris Penterman, Dale Wilson, Clarence Miller and James Miller are departing for North Dakota where they will expect to work in the harvest field and with threshing crews as long as they find work in that line, after which they will continue on west with their car and finally expect to wind up at Portland, Ore., to visit at the homes of two sisters of Mrs. Penterman and one brother and where they will also endeavor to secure work. They are expecting to remain away for six months and to see the great northwest while away.

Mrs. Elizabeth Lewis Buried.

The funeral of Mrs. Elizabeth Lewis, who passed away at her home on the farm a few miles from Alvo was held there last Tuesday and the interment made at the beautiful Elmwood cemetery beside the husband and an infant daughter who died many years ago.

Band of Gypsies Here.

Elmwood was stirred from center to circumference last Tuesday morning when nearly a dozen automobiles filled with a roaming band of gypsies stopped in town and the women be-

gan plying their trade telling fortunes and asking for money for the blessing which they claimed they were able to give. After supplying themselves with things to eat they departed, going towards the pavement and then to where no one knows. Anyway the people were pleased that they departed while the town was whole.

MILL COIN NOT SOLUTION

Jefferson City.—Attorney General McKittrick said federal coinage of less-than-a-penny money "would not relieve Missouri's problem of collecting a 1 percent sales tax." He said "require payment of one mill on transactions of less than 10 cents would be more than the law authorizes."

After reading a newspaper dispatch quoting Colorado officials as saying they expected to proceed with a plan of using metal tokens in payment of its sales tax, the attorney general said:

"The proposed Missouri token plan is clearly in violation of the national currency act, and even if congress did pass an act authorizing currency of five mills and one mill it would not relieve the Missouri problem of collecting the tax as provided by the sales tax act, for the reason the sales tax act requires the merchant to collect 1 percent of the price of the transaction, and on all transactions of less than ten cents the merchant cannot collect more than authorized by the act, that is, one-wit 1 percent."

Santa Fe.—New Mexico will continue use of the one and five mill tax tokens for sales tax payments despite a ruling by Secretary Morgenthau that the tokens are illegal.

"See it before you buy it."

Summer Clearance

All Summer Dresses Greatly Reduced

\$1.39 \$1.98 \$2.98 \$3.98

EVERY SUMMER DRESS in stock must be cleared from our racks within the next two weeks! That's why we are reducing them from one-third to one-half of their early season prices and offering them to you now while there is still two full months of wear for them. Come in and see these unusual values!

YOU WILL FIND prints and solid colors, dozens and dozens of whites, of course, two and three piece outfits and separate coats.

THERE are not all sizes in all styles and designs and fabrics, of course, but the selection is so large that you can hardly fail to find what you want... providing you come early!
