

# Cass County Farms Beer Taverns Must Not Sell 'Setups' is Rule

**Makings for Mixed Drinks Are Banned by the State Liquor Commission.**

The liquor commission has entered a formal order banning sale of "Setups" in beer parlors and forbidding possession of any liquor in beer taverns.

"Setups" were defined as ginger ale or any other drink which may be mixed with alcohol and ice for the purpose of mixing drinks. Chairman Gass of the commission advised beer dealers to stop all sales of ginger ale or other mixing drinks unless the purchaser wished to take the bottle out with him.

Also forbidden by new orders was the practice of drinking liquor on premises licensed for package sale only. The order also banned customers from loitering on beer or liquor licensed premises after the closing hour fixed by city or village order.

"It is further provided," the order continued, "that the sale to any customer of any quantity of liquor for the purpose of consumption of said liquor in his place of business after the closing hour, shall be deemed a violation of this regulation."

Penalty for violation of any of the regulations was to be revocation or suspension of the violator's license.

The commission, following a hearing, denied a beer license to William Fleischman of Elmwood.

# Applicants for New State Job Still Roll In

**George W. Olson of This City Among Those Who Would Be State Assistance Director.**

An announcement of a dearth of applicants for the \$3,000 job of director of the newly created state assistance committee has brought out seventeen applications, and the suggestion from County Commissioner William Barber of Omaha that Ernest F. Witte, who has been serving as state administrator of emergency relief, be appointed, making a list of eighteen. Barber said in a letter to Governor Cochran that he did not know that Witte would consider the job, but he asked the governor to consider Witte's good work in that position when it comes to selecting a director.

The director will really have three jobs in one, director of direct relief, director of old age assistance, and director of assistance for blind, dependent, crippled or delinquent children.

State Land Commissioner Swanson, secretary of the board of educational lands and funds which is designated by the new law as state assistance committee, has received six additional applications from men desiring to fill the director's job. Swanson commented on the irony of politics.

"I'm a republican, the only one on the state board of educational lands and funds. I'm the secretary of the board and all the applications for the job of director of assistance come to me.

"Pretty nearly all the applicants tell me what good democrats they are."

W. F. Dahms, 1333 K street, Lincoln, ten years a resident of the capital city, has applied, stating that he has been a "very consistent democrat for twenty years."

W. F. Porter of Lincoln, formerly secretary of state and recently a democratic candidate for governor, prominent in the Townsend pension plan, has applied, stating that no one has done more along the line of advocating pensions for the old than he.

George W. Olson of Plattsmouth joins the other applicants. Fred Meehan of Omaha, sterytper, has applied.

George B. Campbell of Seward, with seventeen years experience in banking and for two years engaged in fire insurance field work and adjusting, 60 years of age, has applied.

A. H. Mann, 40 years old, living in Lincoln, is another applicant. Included in his experience was one year devoted to welfare work and rehabilitation nwork for the Elks state association and the state department of vocational education on a program of rehabilitation of crippled children.

B. F. Perry, old age commissioner under the law enacted by the last regular session, is one of the seventeen applicants. The old law under which he was working was repealed at the recent special legislative session. It was an act originating in the 1935 regular session and was construed as not making an appropriation, consequently Perry and his office force drew no pay. The special session appropriated funds in the treasury to pay this debt and Perry and his clerks are now presenting claims totaling \$2,129. Auditor Ayres said he would allow them when they are presented. Perry was on the payroll at \$240 a month. He employed four clerks in October but cut the number to two in November. His claims for himself and clerks include \$276 office and traveling expense.

**FILM PLAYBOY IS ACCUSED**

Hollywood. — Two film extras charged Charles A. Wilroy, Hollywood playboy and minor actor, with abducting and beating them on the outskirts of the film colony. The actresses, Marion Volk and Lorraine Crane, reported to police that Wilroy took them to the Toluva lake district, home of screen notables, and administered severe beatings.

Miss Crane charged she was abducted at the point of a gun, assaulted and thrwn from the actor's car. Wilroy admitted taking Miss Crane for a ride but denied he made advances. Miss Volk said Wilroy also had pulled a gun on her but she thought he was "kidding." She said, however, they had fought and he had put her out of the car in the desolate area. Wilroy was held on suspicion of kidnaping, possession of a revolver and statutory assault.

# CHRISTMAS SEAL AND ROLL CALL AGREEMENT

This agreement has been approved by the American Red Cross and the National Tuberculosis Association regarding roll call and the sale of Christmas seals:

1. That there is no official or other connection between the Roll Call and the Christmas Seal sale.

2. That the Roll Call is held from Armistice day up to and including Thanksgiving day; that the seal sale begins the day after Thanksgiving.

3. That both the American Red Cross and the National Tuberculosis Association will keep their chapters and affiliated associations constantly informed of this understanding and that both organizations will do what they can to clarify in all newspapers and other publicity the distinct character of the two fund raising undertakings and to prevent overlapping of the periods during which it is agreed that the roll call and seal sale respectively shall be conducted.

4. That this agreement permits the National Tuberculosis Association and its affiliated associations to deliver seals in advance to corporations and merchants who use them on their bills, which are mailed out a few days before the end of the month of November.

5. That this agreement refers specifically to the Roll Call and Seal Sale and does not preclude the extensive educational and publicity campaigns which the Red Cross and the National Tuberculosis Association are accustomed to carry on throughout the year nor such pre-campaign publicity as may be necessary preceding the Roll Call or the Seal Sale.
