

**MANLEY NEWS**

Orris Schlieft shelled and delivered his corn to the Manley elevator on Monday of last week.

Mr. and Mrs. W. J. Rau visited friends and looked after some business matters in Elmwood Tuesday evening of last week.

Messrs Emil Koukal and Charles Ault and families, of Plattsmouth, were guests at the home of Mr. and Mrs. O. E. McDonald last Sunday.

Mrs. John Koop and three daughters, of Louisville, were visiting in Manley last Monday, being guests at the home of Mr. and Mrs. Rudolph Bergmann for the day.

Robert Wiles has purchased a new farm tractor to handle the heavy work on the farm. Robert is an excellent farmer and knows how to get the most out of the soil.

Herman Dall was called to Omaha on Wednesday of last week, where he had some business matters to look after. He made the trip in his car, and found traveling rather difficult on account of the snow storm.

Ernest Haning, of Weeping Water, and Joe Rudolph, of Eagle, both of whom are candidates for the unicameral legislature from this district, were in Manley Tuesday interviewing the voters of this vicinity in the interest of their respective candidacies.

Mrs. Herman Gansemmer, of west of Mynard, was a visitor in Manley one day last week, coming to look after some business matters and to visit her sister, Mrs. John Habel, but on account of the latter not being at home, she returned home without being able to see her.

Fred Carsten, candidate for the unicameral legislature, was a visitor in Manley Tuesday of last week, calling on the voters in the interest of his candidacy. Senator Carsten has been making a very thorough canvass of the two counties comprising the third legislative district.

Mrs. Frank T. Moore and daughter, Miss Margaret, and Mrs. Myra McDonald, mother of Oscar McDonald, and A. T. Hanson and family, all of Murray, were visiting last Monday evening at the O. E. McDonald home, coming over to see Mr. McDonald, who has been sick for a few days.

**Visiting with Friends Here**

Mr. and Mrs. A. B. Hill, who reside in a suburb of Chicago, out of where Mr. Hill travels over the country selling goods, dropped into Manley last Tuesday and visited with friends for a few days, being guests at the home of Mr. and Mrs. Harry Haws while here. They returned to their home in the east the latter part of the week.

**Elected County Chairman**

Mrs. Rudolph Bergmann and Oscar Dowler, who are members of the American Legion Auxiliary, were in Plattsmouth Tuesday of last week, where they attended a county-wide meeting of that organization and visiting with friends. Mrs. Dowler was chosen as county chairman. The meeting was held at the Legion community building and opened with a covered dish luncheon served at 12:30.

**Had a Rough Spill**

William Bourke, of Murdock, was a visitor in Manley last Tuesday, and as he started for home in his car, with the wind quite strong and almost dark, he drove south toward the highway. When he arrived at the corner, the car did not respond to the pull of the wheel to turn it west and went off the highway into a deep ditch at the side of the road. The vehicle landed in the ditch squarely on its front wheels, with the body pushing forward on the frame so the top was crushed and Mr. Bourke pinned behind the steering wheel. He was not seriously injured, but was unable to get out until someone came along and reported the matter to his friends in Manley who hastened to his rescue and righted the vehicle, getting him out. Mr. Bourke was taken back to Manley, where he was cared for. It was found he had suffered a bad bump on his head and an injury to one of his legs. While he is very sore as a result of the accident, Mr. Bourke is getting along very nicely and is well pleased that it was no worse.

**ILLINOIS WORKER ASLEEP FOR YEAR**

Ogleby, Ill., April 1.—After a year during which townspeople knew nothing of his condition, it became known Wednesday Joseph Legen, 30, cement worker, has been asleep since March 20, 1935.

Nine physicians have examined Legen and diagnosed the disease as sleeping sickness probably caused by spinal trouble, his father, Joseph Legen, said. No apparent change in his son's condition has been noticed, the father added, "but he sleeps peacefully."

**Wabash News**

W. T. Richards was a visitor in Lincoln last week, driving to the capital city in his car to look after some business matters.

Mr. and Mrs. A. B. Stromer, of Alvo, visited in Wabash for a short time Sunday, driving over to see Mrs. Stromer's father, John C. Browne.

Mr. and Mrs. Clarence Ohm of near South Bend were guests at the home of Lester Bosworth here, also renewing acquaintance with other friends in Wabash and vicinity.

W. H. McBride was all set to shell his corn last Wednesday, but the snow prevented continuance of the work as the wind whipped it about in such manner as to obscure vision of the men. The job will be finished at a later date.

Attorney Chas. E. Martin of Plattsmouth, was a visitor in Wabash last Tuesday, accompanying Searl S. Davison, Plattsmouth realtor. Mr. Martin is a candidate for county judge, and was meeting the voters of this vicinity while here.

Fred Carsten, of Avoca, who was a state senator in the last session of the legislature and is a candidate for membership in the new unicameral legislature, together with Joseph Rudolph of Eagle, also a candidate for the same office, were in Wabash last Tuesday calling on the voters.

Henry Schlueter and wife were in Murdock last Tuesday, where they attended the funeral of the late Mrs. L. Neitzel and also accompanied the funeral cortege to Lincoln, where the body was laid to rest in Wyuka cemetery. On their way home they came via Wabash and did some trading with the local merchants.

John C. Browne, manager of the Wabash elevator, has been receiving much corn during the past few weeks, since the weather moderated sufficient to permit shelling. For a time it was difficult to secure cars in which to ship the grain, but lately plenty of cars have been available and the grain is being shipped out about as fast as it comes in.

**Ladies Aid Met Wednesday**

The Ladies Aid of the Wabash church held their regular meeting on Wednesday of last week at the home of Mrs. Will Reuter, one of their fellow members. Although the weather was a bit stormy and considerable snow fell, there was a very good attendance out for the meeting and the ladies spent a very pleasant afternoon together, looking after matters of business and enjoying a social hour climaxed with the serving of delicious refreshments.

**MISSOURI PACIFIC TAXES**

Payment of 1935 taxes, amounting to \$3,398.85 has been made to Cass county, Nebraska, by the Missouri Pacific railroad. Of this amount, \$3,426.03 went to help defray expenses of the county's schools.

Total Missouri Pacific taxes in Nebraska in 1935 were \$57,867.39, including special taxes. General taxes were \$57,004.53, of which \$17,336.09 or 30.41 per cent, was school tax.

Douglas county received the largest individual share of Missouri Pacific taxes in Nebraska for 1935, the total there being \$24,217.12. In three other counties, the total was more than \$5,000 each.

**FIGHTS NEBRASKA STATIONS**

Washington.—Examiner P. W. Seward of the communications commission recommended that eight applications for new radio stations in the middlewest filed by a group headed by Emmons L. Abeles of Minneapolis be rejected. He also recommended that the application of the Northern Broadcasting company at Wausau, Wis., be denied.

Locations of the proposed stations in the Abeles' group were Winona, Minn.; Mankato, Minn.; Fort Dodge, Ia.; Clinton, Ia.; Hastings, Neb.; Grand Island, Neb.; Appleton, Wis.; and Wausau, Wis.

**Plan Achievement Programs**

Group achievement programs will appear in new dress this year in that the main feature will be a laundry demonstration. Other features will include community singing, dialogue on "What Makes a Good Day for the Farm Family," a resume of the year's work, and a social hour. Plans include exhibits exemplifying the various lessons of the past year, as well as various laundry equipment.

All project club members as well as visitors are urged to attend one of these meetings which will be held at the seven training centers in the county. Watch for the announcement of date and place of meeting for your community.

**Are Frozen Canned Goods Spoiled?**

Many homemakers are reporting that a great deal of their canned

**Cass County Farm Bureau Notes**

Copy furnished from Office of County Agent Wainscott

**Demonstrates Uses of Honey.**

Honey, which is a natural food substance has many uses aside from being used as a spread. In order to use it successfully one must understand its composition in relation to sugar. A cup of honey weighs more than a cup of sugar but some of that extra weight is water which necessitates reducing the amount of liquid used. Some of the many ways of preparing and using honey were demonstrated in the following: How to Measure Honey; Clarify Apples; Upside Down Apple Cake; Ginger Bread; Biscuit; Honey Syrup; Honey Meringue; Honey Butter; Honey Peanut Spread; Honey Nut Bread; Honey Scotch; Honey Carmel.

Thirty-four women and girls, including the home economics class of the Plattsmouth high school, attended this demonstration, which was presented by Mrs. Jensen, specialist for the American Honey Institute. Mr. and Mrs. Chas. Warga of Plattsmouth, representing the beekeepers of Cass county, assisted in making preparations for the demonstration.

**Farmers Show Interest in New Soils Conservation Program.**

More than 1200 farmers attended the scheduled meetings throughout the county when the new Soil Conservation Act was explained.

Farmers in general like the new plan very much. The fundamental plan of seeding more legumes to build up soil fertility, conserve moisture, and shift acreages from cash grain crops such as corn and wheat, which are soil depleting crops, to grasses and legumes which are soil conserving, appeals to farmers very much.

Many of them have expressed the attitude that the very principle which the new program carries is what they have wanted to do for several years and now with a subsidy payment for encouragement, they can get the job done.

The fact that they do not sign a contract but are paid for performance, will eliminate much of the difficulty that was experienced in the old AAA program.

**Feed and Seed Loans Now Available.**

Application for emergency crop loans for 1936 are now being received at the Farm Bureau office in Weeping Water, by R. J. Burke, field supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

The emergency crop loans will be made only to farmers who cannot obtain credit from any other source, as provided by regulations issued by the governor of the Farm Credit Administration. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1936 crops and in no instance may exceed \$200 to one farmer.

Farmers are not eligible for emergency crop loans if they can borrow from an individual, production credit association, bank or any other concern. Farmers will also be considered ineligible if they have an application pending with Resettlement Administration, have received assistance from that organization this year or are indebted to the Resettlement Administration for an unpaid loan.

As in the past, the security for an emergency crop loan will consist of a first lien on the crop financed. Landlord or others having an interest in the crop to be financed will be required to waive their claims in favor of a lien to the governor of the Farm Credit Administration until the emergency crop loan is paid.

Checks in payment of approved loans will be issued by the Regional Emergency Crop and Feed Loan Office at Omaha.

**Onion Tops.**

Use chopped green onion tops mixed with salad dressing, for sandwich filling.

Add 2 cups of chopped onion tops to 1 cup of thick cream, ¼ t. salt, a bit of pepper. Serve with mashed potatoes.

Serve onion tops with French dressing on lettuce leaf as a salad.

Add onion tops chopped fine to mashed or hashed browned potatoes a few minutes before serving.

Wilt chopped onion tops in butter. Serve over buttered toast sprinkled with cheese.

Add a cup of thin white sauce to a cup of wilted green onion tops for variety. (½ cup of crisp bacon to 2 cups of wilted onion tops.)

French dressing: ¼ cup oil; ¼ cup vinegar; ¼ t. salt; ¼ t. sugar; Pepper, Paprika.

Combine ingredients and beat. ¼ cup of grated American cheese may be added to the dressing.

**Possible Seed Corn Sources.**

In addition to the list of available seed corn sources published last week, the results of this week's testing shows the following possibilities, which are the high testing samples of those submitted by farmers during the past week or ten days:

S. G. Kellogg, Alvo, white, 1933 crop, germination 95 percent.

Peter Johnson, Alvo, Silvermine, 1933 crop, 400 bushels available, germination 84 percent.

Howard Philipot, Nehawka, yellow, 1933 crop, 1200 bushels available, germination 80 percent.

W. H. Lau, Murdock, white, graded, 1933 crop, 175 bushels available, germination 100 percent.

H. R. Enkelking, Elmwood, St. Chas. White, 1933 crop, 500 bushels available, germination 96 percent.

Herbert Oehlerking, Elmwood, Red Cob white, 1933 crop, 100 bushels available, germination 96 percent.

R. E. Foster, Union, yellow, 1933 crop, 100 bushels available, germination 80 percent.

John Svagera, Murray, yellow, 1935 crop, 120 bushels available, germination 96 percent.

Merritt Dodson, Nehawka, Reid's Yellow Dent, 1935 crop, 1300 bushels available, germination 84 percent.

Louis Sack, Plattsmouth, white, 1935 crop, 2,000 bushels available, germination 76 percent.

John Mockenhaupt Wabash, St. Chas. White Cob, 1935 crop, 1000 bushels available, germination 76 percent.

E. M. Dodrill, Lincoln Rt. 10, white (sample 1) 1500 bushels available, germination 96 percent.

E. M. Dodrill, Lincoln Rt. 10, white (Sample 2) 1500 bushels available, germination 88 percent.

E. M. Dodrill, Lincoln Rt. 10, yellow, 100 percent germination.

Omission of information such as year grown, quantity available, etc. in the above list, is due to the fact that this information was not given by the person mailing the sample to us.

**Elect Community Committees.**

Three precinct committeemen were elected at community meetings held in each of the precincts the past two weeks. Old AAA committeemen must

fruits and vegetables froze during the severe weather. These women are also questioning the advisability of using these products, in fact many have thrown away their non-acid foods such as beans and corn.

Freezing does not spoil canned goods unless the seal is broken. If the seal is broken the jars will spring a leak and the produce will soon spoil. Homemakers should watch carefully and determine whether or not any of the jars are springing leaks. If so, these products could be used immediately or opened and re-canned.

Frozen products may be used satisfactorily and kept indefinitely if the seal is not broken. It would be too bad to discard these frozen products without making an investigation as to whether or not they can be satisfactorily used.

**Terraces Save Moisture.**

Farms given erosion control treatment by the Soil Conservation Service have been madaged much less by melting snow than "untreated" farms, an inspection of the Plum Creek project near Albion, Nebraska, shows.

Forty-three inches of snow fell during the winter. High March temperatures resulted in a rapid thaw. With the ground frozen to an unusual depth by 41 days of sub-zero weather, most of the water ran off of untreated land and caused severe sheet erosion damage. Gullies were lengthened and deepened.

One terraced field which had been farmed on the contour most of the moisture was saved and soil losses were small. Brush dams and other gully control structures placed by the Soil Conservation Service prevented further gully damage on treated farms.

Legumes, especially alfalfa, seeded on rougher land served effectively to prevent soil losses, according to C. C. Girardot, an agronomist on the Plum Creek project.

have done a good job as most of them are being elected to serve on the new community committees for the Soil Conservation program.

**Farmers Busy Planting Trees.**

12,500 trees purchased by 57 Cass county farmers through the Clarke-McNary Act, are being shipped from Malsey, Nebraska, this week, for windbreak plantings.

**Variety of Oats Planted for Demonstration.**

Eight varieties of oats were seeded the past week on the George Domingo farm, one mile east and 2 ½ north of Weeping Water. There is an eighth of an acre in each variety. These varieties are seeded and also make a good yield and mature early. The varieties seeded in the plots are: Nebraska 21, Iogold, Bruner, Burt, E20, Burt 529, Burt 2491 (or Trojan) Kanota and one good local variety. Several of these are the latest developed varieties at the Iowa and Nebraska Experiment Stations. A field meeting will be held at these plots about harvest time to give farmers an idea as to the quality of these particular varieties.

**Considering Pasture Problems.**

Evidence that farmers are seriously considering re-seeding old pastures is shown by the fact that so many requests have come to the Farm Bureau office for the pasture circular on re-seeding, soil conditions, etc. recently put out by the College of Agriculture. 205 cars have been received thus far and the requests continue to come in every day.

**Return 1935 Farm Account Books.**

The forty-four farm account books completed in 1935 by Cass county farmers and checked in at the end of the year for summarization, have been returned to their owners. The county summary of farm accounts is being completed at the College of Agriculture Rural Economics Department and a copy will be given each account keeper as soon as they are available.

**Seed Grass Plots.**

Twelve plots of grasses were planted this week on a demonstration plot on the Edwin Steckley farm, three miles south of Weeping Water. These grasses are:

1. Mixture of brome, timothy, sweet clover and alfalfa.
2. Mixture of brome, orchard, sweet clover and alfalfa.
3. Mixture of brome and alfalfa.
4. Mixture of brome and red clover.
5. Single variety, Big Ben Stem.
6. Single variety, Little Blue Stem.
7. Single variety, Swiss Grass.
8. Single variety, Slough grass.
9. Single variety, Blue Grama.
10. Single variety, Western Wheat Grass.
11. Single variety, Needle Grass.
12. Single variety, Indian Grass.

The object of the plots is to acquaint Cass county farmers with the different varieties of grasses and those which seem to do the best in this locality.

**Nutrena CHICK MASH PELLETS**

Granular—The Natural Feed for Chicks

The FEED THAT HAS EVERYTHING

Nature designed the beak of chicks to pick up small granular feeds. Nutrena Chick Mash Pellets are the most NATURAL grain-like feed—just the right size to start your day-old chicks. Pellets are more sanitary—easier to feed—reduce waste and disease. They are uniform, a complete ration and take the guess work out of feeding.

Biologically correct—to insure maximum nutrition, rapid growth, sound bone structure, proper feathering, and two-pound broilers in record time. This is truly "THE FEED THAT HAS EVERYTHING."

**Hear Compensation Suit Over Wm. Senf Death**

**Matter Presented Before Judge Jackson at Nebraska City, for the Death of Cass County Man.**

Depositions figured to discredit claims that Willard Senf, deceased, was virtually the sole means of support of his father and mother were introduced Friday afternoon as the defense opened its case in a \$4,500 compensation case before Judge Jackson.

Senf lost his life last summer when he slipped from a Tobin Quarries company barge and drowned in the Missouri river.

Depositions from J. L. Meisinger, collection manager of an Omaha credit agency, and Bertha Ault, Louisville boarding house operator, were introduced in an effort to show that Senf had purchased a new automobile and had spent money liberally.

Glen Watkins, foreman for Tobin Quarries, defendants in the suit, was the only witness called by the defense Friday afternoon. He told of Senf's social activities, relating of numerous trips to dances and frequent "dates" with girls.

At one time, Watkins said, it had been necessary to suspend the man because he wasn't paying enough attention to his work. He was later reinstated.

Earlier in the day Carl Senf, Willard's brother, testified that he had given an old car to his dead brother to be used as a down payment in a trade for a new auto. He further testified he had made all the subsequent payments.

William Senf, the father, said that his son had contributed \$40 to \$50 a month all of the time and sometimes as much as \$80 and \$90 a month toward support of the family. —Nebraska City News-Press.

**GROCERS TO SUE COUNTY**

Omaha.—The Omaha Retail Grocers association is prepared to bring suit against Douglas county for unpaid 1935 relief bills. The association voted to press the claim and appointed a committee to handle the job. C. E. Stubbs, secretary of the association, will bring suit as trustee.

The association also informally discussed the action of Commissioner Jacobberger, chairman of the county board, in holding up 14 relief, grocery orders pending investigation. Jacobberger previously said he was holding up the orders because they included "unnecessary items, such as bacon and oranges," and excessive amounts of bread.

President Frank Bosanek of the association suggested that if Jacobberger studied the system of giving relief orders, "he would find the orders he calls excessive are for an entire month." He explained such items as oranges by saying each case is investigated, and if the condition of the family requires certain otherwise non-staple items, they are included in the orders.

**Community Sale**

to be held at Pavilion on paved highway No. 75 ½ mile north of Platte river, at LaPlatte, Neb., on **Thursday, April 9**
