HERE FROM CALIFORNIA

Mrs. George E. Davis of Downey, California, is in the city to enjoy a visit with the old friends in the community where she made her home some forty years before the family moved to Havelock and later to the west coast. She is a daughter of Mr. and Mrs. Archibald Adams, the former still living on the west coast where he has attained the ripe age of 93 years.

DIES IN KANSAS

From Saturday's Daily:

A message was received here today of the death at Concordia, Kansas, of the Rev. E. H. Pontius, former pastor of the United Brethren church at Mynard and well remembered by the many old friends over this section of the county. The funeral services will be held at Concordia on Sunday and the interment made in that city.

VERY HAPPY EVENT

Friday morning at the Methodist hospital at Omaha there was born to Mr. and Mrs. Floyd Becker a fine son and heir who with the mother is doing nicely and the event has brought the greatest happiness to all of the members of the family circle. The young man has been named William Floyd. This is the first child in the family. The young man is grandson of Mrs. W. H. Rainey and Mr. and Mrs. W. A. Becker of this city.

UNDERGO TONSILECTOMY

Marion and Howard Baker, making their homes with Mr. and Mrs. William Kraeger, west of Mynard were here Friday to have a tonsilectomy performed at the office of a local physician. The operation was very successful and the patients were able to return home and in a few days of recuperation will be able to resume their usual activities.

RECOVERING NICELY

Miss Lucille Meisinger, one of the popular teachers of the county schools, is showing marked improvement at the family home in this city. Miss Meisinger was suffering from an attack of pneumonia and for some time was quite seriously ill but is now definitely advancing to recovery. She is the daughter of Mr. and Mrs. J. M. Meisinger.

VISIT AT SAVANNAH

Mr. and Mrs. Carl J. Schneider, Mrs. Arthur Wetenkamp of this city and Mrs. Herbert Klauschie, of Omaha, motored to Savannah, Missouri, Friday to spend a few hours with Mrs. B. F. Wiles, mother of the ladies. Mrs. Wiles is taking a course of treatment at the hospital in that city. She is doing very nicely and it is hoped that in a short time she can return to her home in Lincoln.

SAYS STOCK 'CONCENTRATED'

Washington.—The communications commission was told that while the American Telephone and Telegraph company had "more stockholders than any other corporation in the world" 5 percent of them "owned 50 percent of the stock."

Dr. N. R. Daniellian, an accountant, testified the huge utility which is being investigated for possible future rate making and regulatory purposes had stressed the wide ownership of its stock in an effort to build good will with the public and to "influence legislative committees in Washington and the several states."

Answering questions of Samuel Becker, special commission counsel, Daniellian said all his information had been taken from records of the telephone company. Those showed, he said, that stockholders in A. T. and T. increased from slightly more than 7,000 in 1900 to a peak of 731,377 in 1932 and then dipped to 664,095 in 1935.

Daniellian said 382,000 stockholders owned from one to ten shares. These, he said, represented 57.5 percent of all the stockholders but they owned less than 10 percent of the shares. Most of the utility stock, he said, was "concentrated" in the financial east, with New York and Massachusetts leading in the number of stockholders.

FARM PAPERS IN APPEAL

Washington.—Five farm publishing companies, including one for which Secretary Wallace once served as editor, protested to the supreme court against a \$37,000 judgment assessed against them under the Sherman anti-trust law. They appealed from a ruling of the Seventh circuit court of appeals, which upheld a federal district court decision in favor of the Indiana Farmer's Guide Publishing company of Huntington, Ind. Claiming they had combined in restraint of trade, this firm brought suit against the publishing companies which formed the Midwest Farm Paper Unit, inc. They are the Prairie Farm Publishing company of Illinois; the Wisconsin Farmer company; the McKelvie Publishing company of Nebraska; the West Publishing company of Minnesota; and the Wallace Publishing company of Iowa. The latter publishes Wallace's Iowa Homestead, once edited by Secretary Wallace.

FLETCHER DEFENDS SEC ACT

Washington.—Making a letter in which former Senator Hamilton Keen of New Jersey said drastic regulations were driving securities business from New York to London, Senator Fletcher defended operation of the securities exchange act. Chairman of the senate banking committee, Fletcher wrote Keen that "many dire predictions and melancholy forecasts were made at the time the law was passed" but none had come to pass.

CRASH IS FATAL TO CLARKSON AUTOIST

Madison, Neb., June 11.—John J. Chleboun of Clarkson was injured fatally near here early Thursday. The automobile he was driving upset on the highway. He was rushed to a Madison physician's office but died a few moments after reaching here. Doctors said Chleboun's skull was fractured. County Attorney George Dittreich said there would be no inquest.

SHOWING IMPROVEMENT

Mrs. D. W. Parker of Lincoln, mother of Mrs. J. Howard Davis of this city, is reported as doing very nicely now at the hospital in Lincoln where she has been recovering from an operation for appendicitis. She was quite ill for several days but is now well on the way to recovery. Mrs. Davis has been at Lincoln with the mother since the operation.

SEEK RADIO STATION

Washington.—Permission to establish a new radio station at Falls City, Neb., was asked of the communications commission by the Falls City Broadcasting corporation. The station would operate with 100 watts power and unlimited time on a frequency of 1,310 kilocycles.

HORSE CAUSES INJURIES

Big Springs, Neb.—Joe Hatterman of near Big Springs was struck by an automobile while leading a horse along the highway and suffered a fractured leg, cuts and bruises. The horse shied at the automobile and Hatterman was thrown in front of the car. The car went into a ditch, but its passengers were unhurt.

4-H GROUP TO WASHINGTON

Four Nebraska boys and girls, representing approximately 20,000 youths enrolled in 4-H club work, will leave Lincoln Saturday bound for Washington where next week they will enter the national club camp. They are Mollie Svoboda of Saunders county, Cora Mae Briggs of Seward county, Avera Jersperon of Washington county and Rex Brown of Fillmore county.

L. I. Frisbie, state 4-H leader at the agricultural college, and Mrs. Mary Nelson, his assistant, will accompany the delegation. They will join similar groups from the Dakotas, Iowa and Kansas in Chicago Sunday where they will go by chartered bus to the national capital.

In Washington the Nebraskans will join champions from all other states in the camp, June 18-24. The NBC will carry a special radio program from the camp Monday, June 22, on the national farm and home hour. Rex Brown is one of the eight 4-H club members who will speak.

CONFER ON TAX MEASURE

Washington, June 10.—Holding an "exploratory" meeting, house and senate conferees on the tax bill agreed on several minor points in the measure, but passed over major issues.

"We did agree on a few minor administrative and perfecting amendments," Chairman Doughton, democrat, North Carolina, of the house ways and means committee, told the news men, "but otherwise the meeting was merely to consider the bill generally and lay the basis for future discussions."

There appeared little likelihood complete agreement on the bill would be reached before the end of the week since several republican conferees are in Cleveland attending their party's convention.

NORRIS MEASURE FAVORED

Washington.—The senate irrigation and reclamation committee voted to report favorably a bill by Senator Norris for relief of the Bridgeport Irrigation District, North Platte reclamation project.

The interest rate on delinquent charges due from the district to the government would be reduced from 10 to 6 percent annually and all payments made previously in excess of 6 percent would be credited to the district. The measure provides for the district to pay the federal government \$59,962.55 (less interest overpayments) in 40 equal annual installments, with 6 percent interest added to installments not paid promptly.

FARMER TAKES STRYCHNINE

Johnson, Neb.—Albert Weers, 40, Brock farmer and implement salesman, is in serious condition. Tuesday afternoon Weers drove about five miles from his home, took a strong dose of strychnine and returned home before the poison had taken effect. The doctor whom the family called immediately, said he would probably recover, altho there is a chance he would be paralyzed to some extent. His act was said to be caused by financial trouble.

SHERIFF HUNTS PASTOR

O'Neill, Neb.—Sheriff Duffey has asked Thayer county authorities to aid him in apprehending Rev. Charles Raymond Wylie, 29, pastor of the Methodist church at Inman, against whom a no-fund check charge was filed. The complaint, charging Mr. Wylie wrote non-fund checks totaling \$32.85, was signed by Ralph Leidy, manager of the O'Neill Chick hatchery. Duffey said the minister was not at Inman.

KEARNEY WANTS POOL

Kearney, Neb.—Ray E. Turner of the Kearney park commission announced application was made to PWA for \$28,600 additional for park improvements. A \$35,000 swimming pool, for which bonds were voted in April, is part of the plan. Turner said the commission wished to erect a band shell, cement tennis courts, a rock garden, a shelter house and new sidewalks at Harmon field, in addition to the pool.

LOSES GARAGE, CHICKS

Bradshaw, Neb.—You've heard of hard luck? Clarence Peetzke had some. Tuesday morning that big wind destroyed the garage at his farm and turned his automobile upside down. Wednesday afternoon fire destroyed his chicken and brooder house along with 300 chickens. Peetzke thought it was pretty lucky the Bradshaw firemen saved his house and barn.

FLOWERS FOR SHUT-INS

Detroit, Mich.—The world's largest flower order, consisting of more than three quarters of a million bouquets and potted plants, will be delivered Sunday, June 14, to permanent shut-ins throughout the United States and Canada.

The day will mark the fourth annual observance of International Flower Shut-in Day.

This tremendous good will gesture, most widespread ever made by an industry, will be participated in by retail florists, wholesalers and growers in 2300 cities and towns of North America, under the supervision of the Florists' Telegraph Delivery Association, with international headquarters in Detroit.

In these cities and towns, Shut-in Day committees, made up of florists, have been functioning for several weeks, gathering names and addresses of unfortunate men, women and children who rarely, if ever, are enabled to enjoy flowers, according to Albert Barber, executive secretary of the association, who is directing the movement.

Citizens are aiding the committees by bringing to them the name and address of shut-ins.

"We hope that every person in North America who knows a permanent shut-in will take his name and address to the nearest florist," said Mr. Barber. "Not knowingly will we overlook any shut-in who is deserving of flowers."

"In the delivering of the flowers we will be aided by messenger boys

loaned us by the telegraph companies. In many communities throughout the United States, Junior League members and church groups will help us to arrange the flowers in the hospitals and in other institutions where there are shut-ins."

Shut-in Day, explained Mr. Barber, is an entirely altruistic movement, made possible through the fact that usually in June there is an abundance of flowers.

"The taking of this surplus to the bed-sides of those who ordinarily are not enabled to enjoy flowers seems to us the best possible use we can make of it," he declared. "We want to spread this June beauty and fragrance as far as possible on Shut-in Day. And not one florist's cash register will ring, as far as flowers for deserving, permanent shut-ins are concerned."

YOUNG TRUSTIES ESCAPE

Pawnee City, Neb.—Harold Trout, 18, and Wayne Avery, 18, who were to have been taken to the state industrial school at Kearney Friday, escaped from the county jail here.

SHUMAN IS POSTMASTER

Osceola, Neb.—F. W. Shuman was appointed Thursday as postmaster of Osceola, his appointment having been opposed by Norris, but eventually confirmed.

Sunlight or Moonlight Now Come Into Living Room At Flick of Switch

By Jean Prentice

A fresh note of modernism is injected into this Chinese Chippendale living room through the installation of a concealed lighting unit recessed behind the curtains. The effect produced is that of warm sunlight streaming through the window.

THERE seems to be simply no limit to the ingenuity of these lighting people nowadays. A press of a button, and they give you daylight, sunlight, or moonlight at any hour of the day or evening—right in your own living room. And it's almost laughably simple! Lighting panels built into hidden places produce the effect. They are often used over the latest kitchen sinks, although in such cases, ordinary colorless bulbs are employed. Recently this type of lighting has become quite popular in living rooms, particularly where there is a bay window.

Choice of Colors
Where there is no space between the draperies and curtains, a row of small 10-watt bulbs or several lumiline lamps may be mounted behind the valance or curtain cornice. The wiring can be so arranged that a choice of colored light is simply a matter of which switch is pressed.
In these modern times, there's no need to permit the original architectural limitations of a room to stand in the way of modernity. And you'll find that the modest investment yields ample dividends in the added enjoyment you derive from your home.
There are two ways of installing
