Elmwood News

Louis Bornemeier was a guest at the home of his sister in Hastings last Sunday.

Charles Gerbeling is spending some time in Plattsmouth as a guest at the home of his son, Floyd.

Louis Bornemeier was looking after some business matters in Lincoln Tuesday, driving over in his car.

Len Parich has just completed a small residence south of the Missouri Pacific tracks, where he will make his home in the future.

Louis F. Langhorst was a visitor in Murray last Tuesday, where he was visiting and consulting with his friend, George E. Nickles.

Maynard Lloyd and Frances Cole, of Weeping Water were visiting with friends and looking after business matters in Elmwood last Tuesday afternoon.

Walter Cromwell, who has been a resident of Waverly for a number of years past, has purchased a residence property in Elmwood and will soon move here to make his home.

Rev. W. B. Bliss, pastor of the Elmwood Methodist church, attended a church conference held in Lincoln last Sunday evening. He was accompanied by the other members of the family.

Charles Woods and wife drove out to the farm last Tuesday, where Mrs. Woods spent the day with her daughter-in-law while Mr. Woods and son went to Omaha to look after business matters.

William Patterson, of Murray, was a visitor last Tuesday afternoon at the home of his friend, William Fleischman, and also renewed acquaintance with a number of others whom he knew in this vicinity.

Carl B. Compton, employee of the Rudge and Gunzel store at Lincoln, who has been working as salesman for Maytag washers, has established an agency at the Farmers Union store here and will work this territory.

Mrs. Eva Edwards, of Portland, Maine, who is visiting with friends in Nebraska, was a guest at the home of her friend, Mrs. Emily Gonzales for a few days during the past week and on Monday went to Murdock, at which place she planned to visit at the home of James Mills.

Oscar Gopen, of Plattsmouth, was a visitor in Elmwood last Tuesday. He had expected to visit his old friend, L. A. Tyson, but found Mr. and Mrs. Tyson were away from home at the time, and instead met and enjoyed a fine visit with another old friend, Oscar Turner.

Mrs. Emil Rosenow, who has been enjoying her annual vacation during the past week, returns this week to her duties at the American Exchange bank, where she has been employed for a number of years. Part of the vacation period was spent in looking after work about the home and she also visited with a number of friends.

Shower for Miss Hill

The Misses Zink were hostesses at a very pleasant gathering which was given in honor of Miss Dolores Hill, who is soon to be married. The afternoon was spent in social conversation and the presentation of the various gifts which the friends of the bride had brought. A most delicious luncheon was served as a fitting climax to the pleasant afternoon.

Attending League Assembly

The Misses Goidie Keach and Clarice Hottel, young folks of the Elm-

Miserable with backache?

WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or too frequent urination and getting up at night when you feel tired, nervous, all upset... use Doan's Pills. Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor.

DOAN'S PILLS

Democratic Group Pay Visit Out in County

Enjoy Band Concert at Weeping Water; Also Spend Several Hours at Louisville Festival.

Thursday evening some four car loads of members of the Cass County Young Democrats and friends made a short swing out into the central portion of the county to meet their friends in the organization there and also to instill a spirit of enthusiasm for the re-election of President Roosevelt.

The members of the party first visited at Weeping Water, which pleasant city was filled with large numbers in order to enjoy the band concert which was presented by the crack band of that city. The Weeping Water band is one of the best in the county and certainly their well arranged and artistic programs are very much appreciated by the large audiences. Weeping Water and its business houses are presenting an interesting picture of the returning prosperity of the past few years. At Weeping Water a large group of new members was received to add to the rolls of the Cass County Young Democrats.

The caravan on the return journey came by way of Louisville where the chamber of commerce and the American Legion post are staging a three day homecoming and fall festival that has drawn out a large crowd and furnished fun and entertainment for the residents for many miles around. The festival is being held on the main street of the town where there are rides, concessions and several shows set along the sides to form a real midway. Thursday evening in addition to the usual crowd of Louisville folks out for a good time, a large delegation of boosters from Springfield, headed by their band, were on the job to tell of the fine picnic that is to be held next week at the Sarpy county town and which is always a big annual event. Among the members of the Springfield band was George Lutter, former Plattsmouth musician.

WHO IS OLDEST RESIDENT?

A group of old time residents of the city were discussing the matter of who is the oldest continuous resident of the city now living here. The passing years have taken toll of many of the real old time residents and few are left who have been here over a period of sixty years. The discussion developed the fact that probably the person living here the longest period of time is Albert Reinackie, residing on Winterstein hill. Mr. Reinackie was born in this city in 1860 and has since made his home here, his parents coming here several years before the outbreak of the Civil war and he was born just as the shadows of the Civil war were menacing the land. Certainly this record is one that will be hard to surpass of a lifetime spent in this community.

Have Excellent Water System

While other towns are becoming apprehensive as to their water supply giving out, Elmwood has not a worry along this line, as the deep wells continue to furnish an unlimited quantity of pure water. They have been subjected to continuous pumping 24 hours per day, supplying 130 gallons of water per minute, which is sufficient (with the stand pipe kept filled) to take care of any emergency that might arise.

Attended Dealer Conference

Jay Stanton, who recently succeeded Louis Bornemeier in the poultry and produce business and manager of the Farmers Union station in Elmwood, accompanied by Mrs. Stanton, attended a conference of the various dealers of this section of the state which was held at the Jerpe plant in Auburn. The dealers were given instruction in the judging of poultry and proper grading of same as to price.

Honor Member of Assembly

The Rebekah Assembly of Elmwood met last Tuesday evening, at which time one of the special features of the meeting was the bestowing of honor on their fellow member, the former Miss Ruby Kuehn, who is now Mrs. Tierton. A shower was in order and the guest of honor received many beautiful and useful gifts. A delicious luncheon was also one of the features of the meeting. The guest of honor is a daughter of Mr. and Mrs. Herman Kuehn, and was but recently married.

Have Hopes of Some Corn

Tom Lockie, John Schultz and George Miller, all of whom reside a few miles south of Elmwood, while talking about the excessive and continued drought stated that even with no additional moisture they are expecting some ten bushels of corn to the acre from their fields. Although conditions are extremely serious, with that much of a yield, there still remains a chance of getting their seed back and some feed for their stock, even if there be no marketable corn for sale.

Persistency is what counts most in advertising!

MUSIC LEADS TO JAIL

From Saturday's Daily: Melodies sweet are enjoyed by all the world, but wafted on the night breezes by the shrill alcoholic tenor, they are the bunk, so say the members of the night police force, Officers Pickrell and Lancaster.

Last night when the householders were wending their way home from the business section, Frank Sloan and Eddie Rozner, who claimed their residence as the government camp north of this city, filled with the spirits of many potent brands, started their concert of song that eventually led to their downfall. They failed to take advantage of the opportunity of retreating to their base and as the consequence were escorted to the city jail to rest and recuperate from the strenuous evening of wine and song—but no women.

This morning the two men were arraigned before Judge Charles L. Graves in police court. Sloan to face a charge of intoxication and disturbing the peace and his companion for drunkenness. After hearing the evidence offered the court gave Sloan a jail of \$10 and costs that amounted to \$14, while Rozner was given a fine of \$8 for the intoxication and which totaled \$10.

Forest Fires Take Huge Toll

Forest fires which took a terrific toll of damage in the northwest left a blackened and devastated area in their wake. An idea of the desolation is given by the above photo showing a CCC worker repairing disrupted telephone service by stringing wires from burnt tree trunks in the Markham-Palo forest district of northern Minnesota.

MURDOCK ITEMS

Mr. and Mrs. Lennie Lau were in Lincoln last Wednesday, where they did some shopping, including the purchase of supplies by Mrs. Lau for her beauty shop here.

Kenneth Tool and wife, of Wahoo, spent the day last Sunday at the home of the parents of Mr. Tool, Henry A. Tool and wife, enjoying a very pleasant visit here.

George Mills has purchased a new Chevrolet to replace the car that was wrecked some time ago. However, during his recent illness, he has not been able to use it very much.

Mr. and Mrs. Russell Rodgers, of Denver, who have been visiting here during the past two weeks at the home of Mrs. Rodgers' parents, Mr. and Mrs. John Scheel, departed for home early last week.

Miss Helen Bornemeier, who was so ill with repeated attacks of appendicitis, spending some time in the hospital at Lincoln, has been feeling much improved since her return and is working again at this time.

Reports from the home of Fred Stock, Sr., who has been sick for some time past, are to the effect that he remains in about the same condition and that the hot weather is adding greatly to his discomfort.

A number of the ladies who are members of the Order of Eastern Star, were in Omaha last Wednesday, being guests at a picnic given by one of the OES chapters of that city. A most pleasant time is reported.

Mr. and Mrs. Albert Bauer were called to Plattsmouth one day last week to attend the funeral of Claus Boetel, who passed away at the home of his son there at the age of 91 years. The deceased man was a cousin of Mr. Bauer.

Many of the trees over the country have been dying on account of the lack of sufficient moisture and due to the extreme hot winds. H. R. Schmidt has been trimming the dead limbs from his trees and painting the wounds to preserve the trees, if possible.

John J. Gustin and wife arrived in Murdock last week and are visiting here with relatives and their many old friends. The Gustin family are now making their home at Wheatland, Wyoming, where Mr. Gustin has been engaged in business for some time.

Millard Schewe, who is employed by the Nebraska Power company in Omaha, has been in the west for a week enjoying a vacation and on his return came via Murdock for a visit with the folks before continuing on the Omaha to resume his work. He made the trip by auto.

Eugene Tool, who has been with the folks at Denver during the past month or more, arrived in Murdock this week and is visiting here for a short time. He will attend the University of Nebraska again this year, and his friends hope he will find time to pay numerous visits to the old home town.

Gale McDonald and family, of Hampton, where Mr. McDonald is a rural mail carrier, were here for a visit with Mrs. Hannah McDonald, mother of Gale, and also with Bryan McDonald and family last Sunday. They returned home in the evening so Mr. McDonald could resume his work the following day.

Is Seriously Ill

Since the auto accident of some six weeks ago in which George Mills and his sister were injured, Mr. Mills has been showing good recovery from his injuries and was able to be about, coming to town one day last week. The following morning, he was taken with a very severe illness, something in the nature of a slight paralytic stroke, which has kept him confined to his home since. His many friends are hoping he may soon be over the malady and well again.

Enjoys Living in South

Mrs. H. H. Lavton has just received a letter from her friend, Mrs. Henry Davis, who with the husband some time since went to Missouri to make their home, and are now located at Glenston, Mo., telling of a visit to Ozark lake, where she says the fishing was fine, and which is a fine place to live. However, down there the Davis family are missing their friends of so many years here. They extend a very cordial invitation to all their friends in this part of the country to come down and pay them a visit and promise to show them a good time.

Plan to Conserve Water

There is a movement on foot for the making of a number of artificial lakes in this part of the country for the storing of water during the time when there is plenty of it, so it can

COLUMBIAN Red Top GRAIN BINS

You Pay for Them Once—They Pay for Themselves Over and Over Again

This is the year to make big money on your grain by storing it in a Columbian Red Top Grain Bin and waiting for highest prices. The extra profit this first year may pay for your bin—and it will last 15 to 20 years.

And besides making extra money you'll save the big expense of storing your grain in terminal elevators. You won't ever have to dump grain on the ground. You'll have a safe, self-proof, weather-tight, fire-safe place for storing everything.

These popular bins are easier to erect. Deep horizontal swedges give double strength. Come in and see for yourself.

Available in the following sizes: 600 bu., 1000 bu., 1500 bu., 1900 bu. and 2150 bu. Other bins up to 7000 bu. capacity.

RED BOTTOM STOCK TANKS
WARRANTED FOR 5 YEARS—Be prepared for this summer. Have plenty of water for your stock at all times with these strong and durable Red Bottom Stock Tanks. Made in both round and round end styles with patent tube top, reinforcing triple swedges, double lock seam bottom. We recommend these tanks above all others. Come in and get our present low prices.

These products manufactured by the COLUMBIAN STEEL TANK CO., Kansas City, Mo., U. S. A.

be used in time of scarcity to aid growing crops and improve climatic conditions. One of these has been at the farm of H. L. Bornemeier, between Murdock and Alvo, another on the Conrad Baumgartner farm and others at various locations where a natural lake once existed but has dried up. Henry Tool is in receipt of considerable correspondence on this subject from A. L. Tidd, of Plattsmouth. The question is one of state and national interest.

Given Farewell Reception

During the time the P. T. Johnson family has resided in Murdock (nearly eight years), there has always been maintained a bond of friendship between Mr. Johnson and wife and the people of the community, and now that they are moving to another field of labor, the ladies of the Extension club gave a farewell reception for Mrs. Johnson, who has been active in 4-H club work, with a large number present and a fine time had by all on last Monday evening. This was followed by a similar function on Wednesday evening, given by the ladies of the church and Bible school. A program was followed by the serving of ice cream and cake.

Complete Work for Army

Matthew Thingan and son, Victor, have just completed the building of a considerable number of tent frames for use at the encampment of the National Guards at Ashland, some of wood and some of steel. The army officers who had the work done were so favorably impressed with the usefulness and durability of the steel frames that Mr. Thingan was asked to go to Camp Dodge, near Des Moines, and there demonstrate his steel frame, but as he has the construction of a dwelling house on his hands, which was to be completed in a stipulated time, he had to decline the invitation to go to Des Moines.

Arrive Home from West

After spending some ten days in the mountains of Colorado, Gust Pentd and his daughter, Miss Myrtle, returned home last Tuesday evening, well pleased with their outing. They found the mountain breezes cool and refreshing and at nights slept under cover while folks here were sweltering in the heat. However they found pretty much the same drought conditions everywhere they went, supporting the claim of this year's drought being the most severe and widespread of any in the history of our country.

Kittenball Results

Last Tuesday night on the lighted playing field, before the usual large crowd, the Lutherans defeated the Tigers, 18 to 11, while the Bible School team of Murdock won over the Callahan team by a score of 10 to 2.

Filling His Silo

Ferd A. Brunkow was one of the comparatively few farmers who tried out pit silos during the drought of 1934, and found it a good way to conserve his feed. So he has cleaned out the old silo and enlarged it, and expects to fill it again with feed for the coming winter. The time is now at hand to cut the corn for ensilage and there are very few fields where the yield promises to be sufficient to make it worth while to give up this feed supply in exchange for the corn that might be realized if they were let stand till husking time.

Home from Trip to Europe
Miss Hildegard Baumgartner, who has been spending some six weeks in Europe, writes that she arrived in

New York on August 8th and that she had an excellent trip. She will be home in due time, spending the rest of her summer vacation here. Miss Baumgartner is to teach in the Malvern, Iowa, schools this year.

Water Works Working

The new waterworks system has been tested and found capable of meeting the requirements set forth in the specifications. Last Wednesday, after 43 hours of continuous pumping, the tank was full and the well was seemingly as strong as ever, furnishing a full even flow of water at every stroke of the pumps.

The tank showed slight leaks at some of the joints and the water was run out, being used to settle the dirt in the trenches where mains had been laid. The leaks were marked and the concern that erected the tank had workmen here to tighten up the rivets, after which the tank was given its final coat of paint, this having been left until after a test could be made to determine the places of leaks. This completed their job, and the tank is now filled with a supply of fresh, pure water for the use of patrons of the new waterworks system.

Attended Services at Fremont

L. Neitzel and daughter, Mrs. Clara Hartung made a trip to Cedar Bluffs last Sunday to visit at the home of Mrs. J. J. Martin, sister of the late Mrs. L. Neitzel. Mr. Neitzel continued on to Fremont to attend the Evangelical church, which he found deserted. He then went to the M. E. church to worship, but says he did not find that fine edifice overcrowded. With a seating capacity of 800 or more, there were something over 100 present. Mr. Neitzel believes Fremont is overchurched, or the people lack interest in the work of the church, as demonstrated by the way they turned out Sunday.

They returned home that evening, having enjoyed a most pleasant visit at Cedar Bluffs.

VISITING FROM UTAH

Mr. and Mrs. Lloyd Somerville and three little daughters and Mr. Somerville's mother, Mrs. James Somerville were here from Moab, Utah, visiting at the home of Mrs. Somerville's uncle and aunt, Mr. and Mrs. Henry Fornoff. They were on their way home after visiting in Peoria, Illinois with Mrs. Somerville's father, Phillip Fornoff.

TO ATTEND REUNION

From Saturday's Daily: Mrs. L. G. Larson departed this morning for Western Springs, Illinois, to visit a sister, Mrs. Charles B. Gustafson, also to attend a reunion of three sisters whom she has not seen for several years. Mrs. Larson was accompanied by Mrs. F. L. Barkus and daughter, Betty Mae, who will visit there over the week end.
