excellent effort to observe the law, but in one or two cases the operators had ignored the suggestions of the police as to the manner in which the place was conducted.

On motion of Councilman Brittain, the town pump, located near the city hall, was ordered fixed and the thirsty once more able to quaff the good cold water as of old.

Chairman Palmer of the lighting committee gave a report of the voltage tests made by the Iowa-Nebraska Light & Power Co., on the electroliner systems and showing that a very good voltage was maintained and which with a few changes would be well balanced in all sections. He also reported that the city had recovered a judgment from the trucker at Hamburg, Iowa, that had broken one of the electroliners here, but the value of the judgment was a matter of doubt.

Chairman Vroman of the police committee stated that the members of the force had asked for the purchase of night sticks for use on their beats. On motion the committee was authorized to have three night sticks purchased.

A resolution was then read and adopted regarding the conversion and refunding of city bonds in the sum of \$68,000 and the answer date set for September 14th.

Councilman Brittain asked that another slow sign be placed near the Sixth and Pearl street intersection to take care of a very dangerous situation, this leading to a long and general discussion of the traffic problem and the car driver that will step on the gas. The matter was finally terminated by the adoption of an amendment by Councilman Bestor that the police committee be empowered to secure a car and two men to travel out and check up the speeders over the city and to haul them before the court where they were found violating the speed limits set by ordinance. Councilman Webb secured the adoption of the additional amendment that signs, if they were to be placed, bear the caption, "Streets Patrolled, 25 Miles Per Hour." The matter of signs however, was left at the discretion of the police committee and the mayor.

Councilman Schutz inquired as to the possibility of the surfacing of the highway over Wintersteen hill, originally set out as a rock crushing project. This was thoroughly discussed and it was decided to have the claims and planning committee of the council take a general survey of the cost and the possibility of the co-operation of the commissioners in getting the roadway rock surfaced as had been originally planned. This was heartily agreed to by all of the council and to make the proposition one to be taken up with the WPA.

The following claims were ordered paid by the council:  
Ivan Taylor, street work --- \$ 17.60  
Charles Gradoville, same --- 19.60  
George Taylor, same --- 7.00  
George Taylor, street work with team --- 14.40  
Albert Olson, phone rent --- 5.10  
The claim of the fire department for \$5 occupation tax fees from forty fire insurance companies, was referred to the fire and water committee to check up the number of companies that were listed.
