Little Bonnie June Stokes, while returning from school last Monday, was struck by an automobile driven by a young man and knocked down and bruised and skinned somewhat, although not bad enough to have to go to bed on that account. There are two sides to this auto business, that of the pedestrian, who should exercise care and diligence in walking across streets and highways and the other side of the car owner, who should exercise more than ordinary care and diligence in his driving to avoid accidents.

Writes from Cuba

John Crane, local lumberman, who is on a prolonged tour, and is probably at the time this is written either passing through the canal zone or sailing Pacific waters up the west coast, wrote to R Bergman from Havana, Cuba, telling of his trip that far. He spent two days in New York, where he saw two fine baseball games. He was on the ocean during the rough sea when hurricane winds caused heavy losses to both freight and passenger vessels, with a considerable loss of life.

DO YOU KNOW—

That the dandelion gets its name in a very peculiar manner. One of the early botanists likened its leaves to the teeth of the lion and so he called it in his native French, "Dents-de-Lion", which means "teeth of the lion."

Mr. Crane admits he was very sick, but says that it is over now and he has since been enjoying his trip a great deal.

He enjoyed his stay in Cuba, seeing many interesting sights. From there he was to continue on his way through the Panama canal and up the Pacific coast to San Francisco, stopping for a brief visit at Los Angeles. From San Francisco he will entrain for the return trip to Nebraska, having covered many thousands of miles.

It will be a most pleasant and worth-while journey and one that will probably never be forgotten by Mr. Crane.

BARROW SELLS AT \$1.55 POUND ON FOOT

At the National Swine Show, held during the Illinois state fair the middle of August, a Duroc barrow named Red Royal weighing 210 pounds, was placed Grand Champion over all breeds of swine and cross-breeds.

After winning these laurels over barrows from 16 states, this barrow raised by two young Illinois farmers, ages 20 and 22, Wareham Bros., was sold at public auction to the governor of Illinois, for the world's record price of \$1.55 per lb. The barrow was donated by the Governor to the Home for Crippled Children.

This barrow brought to these young farmers more than \$600, as added to his sale price the United Duroc Record Association gave a prize of \$250, besides the regular premium money won at the Swine Show.

Otto Schafer, of this county, has been a breeder of the Duroc swine for the past years, the same strain of the grand champion at the Illinois fair.

City Council Holds Regular Meet Monday

Matter of WPA Project for Wintersteen Hill and Adjustment of a Neighborhood Quarrel.

The city council had a full attendance Monday evening when the last meeting of September convened to take up matters pertaining to the city and its business, the greater part of the time being devoted to the discussion of WPA aid on the Wintersteen hill road surfacing and the adjustment of the neighborhood battle on the hill over a roadway and alley. The League of Nebraska Municipalities presented a communication inviting the city to send a delegation to North Platte for the session on October 7, 8 and 9th of the annual meeting. It was decided that the mayor and city attorney attend and also as many of the councilmen as could make the trip.

Police Report

Police Judge C. L. Graves reported that for the week of September 17th there had been one arrest, committed to jail; September 24, one arrest and fines and costs of \$13.25 secured.

Chairman Webb of the tax and property committee reported a resolution restoring tax certificates held by the city to the county treasurer so that the treasurer might accept redemption taxes.

Chairman Tippens of the streets, alleys and bridges committee, reported that the street force had been busy in repairing streets in all parts of the city but that the rain of Saturday had washed out a great deal of the work that had already been completed and it would require more time to get the roads back in shape. The ditches must dry out more before the maintainer could grade them properly.

Water Mains.

Chairman Schutz of the fire and water committee, asked further time on the matter of the extension of water mains and the placing of a hydrant in the west part of the city.

Chairman Johnson of the lighting committee, reported that the new electrolite globes were here and would be installed where needed.

Chairman Vroman of the police committee reported that the police had taken excellent care of the crowds during the carnival and were deserving of much commendation. Mayor Lushinsky also commended the police, both the regular force and the extra men that had served.

Wintersteen Hill.

Chairman Bestor of the WPA committee reported that Lloyd Woodard, of the WPA state organization had visited here and that the matter of the rock surfacing of the Wintersteen hill road had been taken up. The representative had been very assuring that the project would be allowed and approved and the money appropriated as soon as possible.

Councilman Johnson inquired if an estimate and cost of construction would not be required and Mr. Bestor responded that the former estimate of the cost still stood.

Fred H. Vincent, a member of the Improvement club committee, stated

that one of the WPA district officials had stated that there would be nothing doing until engineers were placed on the job and an estimate made of the grading and cost.

Councilman Webb stated that the matter of rock surfacing and sewerage had been discussed by Mr. Woodard, that he had indicated that the jobs would be no hand or wheelbarrow proposition.

Councilman Johnson reported that he thought the use of the large county grader could be secured in getting the roadway in shape for the surfacing.

Councilman Rebal suggested that the city have Mr. Woodard here for a night meeting with the councilmen and the Wintersteen hill committee. Councilman Bestor pointed out that definite plans and ideas would have to be prepared to present if a meeting was held and not just a rambling discussion.

Mayor Lushinsky stated that the matter was in a position where there could be nothing more done until the allowance of the funds and then work could start at once.

Chairman Webb of the tax and property committee discussed the situation in regard to the general position of the city in regard to properties held under tax liens.

Property Sold.

The bid of Carl Graves on the property at Eighth and Rock streets, title now owned by the city, was received. On motion the property was sold to Mr. Graves for \$400 and deed ordered issued.

Councilman Johnson asked that the Burlington be notified to repair or replace the sidewalk along their property on Lincoln avenue.

A number of work orders were received and placed in the hands of the streets, alleys and bridges committee.

The remainder of the session was devoted to the long standing battle of Wintersteen hill where the conflict over the opening of the street and alley that have long been closed has been raging. The mayor and councilmen have urged that the parties get together and settle the matter but this has failed as one of these has failed to accept the compromise offered. The mayor stated that if the city had to open the street and alley at considerable cost, that all buildings that lie in the unopened street would have to be moved.
