GOLD RESERVE 11 BILLIONS

Washington. — America's huge gold reserve crossed the \$11,000,000,000 mark for the first time in history. Bullion holdings for Oct. 13—the day the new tri-power gold exchange agreement went into effect—were reported by the treasury at \$11,001,612,674, or about \$15,000,000 above the previous day. The increase came as a surprise to many fiscal authorities who had expected the gold pact to start a movement of bullion to France and England.

The report, however, showed that gold was still flowing strongly toward the United States, continuing a trend of many months. Treasury officials declined to say whether the \$15,000,000 increase was the result of gold purchases from France and England under the new accord, or of receipts from other nations not parties to the agreement.

CHURCHES LOSING CONVERTS

Kansas City.—Protestant churches of America are losing "from 50 to 60 percent" of their new converts "within a few months or years" after conversion, delegates to the International Disciples of Christ convention were told. Rev. Floyd Allan Bash, pastor of the Central Christian church of Des Moines, Ia., claimed this "mortality rate" among protestant congregations in an address to an estimated 2,500 fellow church members. He blamed inadequate evangelism for the loss, calling it "the greatest tragedy in the life of the church."

This dramatic photo—one of the most unusual of its kind ever taken—shows three of the seven survivors of ill-fated "Sand Merchant" clinging to an overturned lifeboat on Lake Erie as the rescue ship, Thunder Bay Quarries, approaches. Nineteen men and one woman were drowned when the "Sand Merchant," bound for Cleveland from Toronto, capsized and sank 15 miles northwest of Cleveland when its cargo of sand shifted in the heavy seas. A member of the rescue ship's crew took this vivid photo yesterday.
