TEA-TIME IS LACE WAFER TIME

Tea-time is THE time for lace wafers. They are always in good taste to the epicure, as well as the authority on social etiquette, because lace wafers are a dainty delicacy—delightful to look at, delicious to taste. The following ingredients are needed:
2 tablespoons shortening 1 cup sugar
2 eggs 1/4 teaspoon salt
1/4 teaspoon nutmeg
2 1/2 cups Quaker Rolled Oats
2 1/2 teaspoons baking powder
1/4 teaspoon vanilla
1/4 teaspoon almond flavoring
Cream shortening and sugar together. Add beaten eggs and mix well. Combine salt, nutmeg, rolled oats and baking powder. Add this to the first mixture and stir thoroughly. Add vanilla and almond flavoring. Drop by teaspoons on the greased baking sheet, two inches apart. Bake in a moderate oven 350 degrees F. for about 12 minutes. Remove from the pan while warm.

GOOD POTATO YIELD

Mr. Wallace Shirley, near Hamburg, Iowa, planted one-fourth acre to Wisconsin late Rural New Yorker dry land seed potatoes June 12 last. The first rain since planting time came August 20 and the yield was 70 bushels from this quarter acre, all of which sold at \$2 a bushel.

The secret was, he planted one eye in each hill and cultivated them often and didn't let the soil crust or pack.

If our land will produce a yield like that, more of our money will remain home, instead of sending it away. The late dry land seed is about cleaned up. Irrigated stock will not raise potatoes here—only vines. The early crop in the dry land district of Western Nebraska failed this season.

In planting potatoes or any other farm or garden crop, it is important to get good seed from a reliable dealer. Journal ads list guaranteed seed that is best for use in this territory, while seed imported from a distance often gives unsatisfactory results.

Has Serious Auto Wreck.

While Charise Hall, who represents the Farmers Oil company of Nehawka was going to Union, and was going down a stiff grade onto the Weeping Water bridge, and Earl Upton was approaching from the north, having stopped at the entrance of the highway, and thinking he had sufficient time to get on the highway in advance of the truck, assayed to do so, but his car did not pick up as quickly as it was expected and the truck collided with it, with very serious results. The truck struck the car at the rear, driving the chassis against the west end of the steel and concrete bridge, cutting off the body of Mr. Upton's car and throwing it some thirty feet over into the creek. Mr. Upton was thrown clear of the wreckage and had his head badly cut, his nose lacerated and his teeth loosened and rendered unconscious. He was picked up by Blair Porter and the brother, L. R. Upton notified, who took him to Union but as Dr. Andersen was out of town he was hurried to Nehawka where he was treated by Dr. H. W. Walters and by this time seemed to be about normal again. He then returned to the scene of the accident and assisted in picking up the wreckage. The truck had endeavored to stop, as the marks of the sliding of its wheels was apparent. Mr. Hall was not injured and the truck was not damaged. Fortunately for Mr. Upton that he was not killed outright. When the impact came Earl had a hound dog in the

Prof. Glenn La Dolyt, Agricultural teacher in the local schools, presented the large "N's" to the twelve young men who had earned them.

Other speakers on the program included V. P. Sheldon, one of the University of Nebraska football players back in 1895, who told of the manner of playing football in those days; Raymond C. Pollard, who has attended at least one U. of N. game each year since 1887, with the exception of one year, and who reviewed the changing rules and method of play as he has viewed them, and E. J. Nitzman, who also spoke at some length on the value of athletics in our educational institutions.

It was a most interesting gathering and thoroughly enjoyed by all who were present.

The splendid dinner was prepared by ladies of the Legion Auxiliary.
