Mrs. G. G. Hoffman, 76, a resident of Plattsburgh for many years, died Friday at Los Angeles where she has made her home since 1934 with her daughters and their families.

BELLEVUE JUBILANT OVER SCHOOL LAW

The state legislature Tuesday morning passed L. B. 502, which appropriates 15 thousand dollars of state money to reimburse school districts for the education of soldier's children. It was sponsored by Senator Fred L. Carsten of Avoca.

Bellevue residents, who had pushed the bill, were jubilant over its passage. The vote was 38 to 0.

F. Heyt Freeman, president of the Bellevue school board, said it meant the end of a 47-year fight to have the state share part of the burden.

Monday night the board wired Governor Cochran asking his support of the bill and pointing out that of the Bellevue school appropriation of 17 thousand dollars, \$3,672 represents cost of educating the army children at Fort Crook.

The board decided that should the bill fail of passage, it would bar soldiers' children, despite a ruling by the state superintendent of schools that they must be admitted.

DENY REHEARING

The state supreme court Saturday denied a rehearing in a case from Plattsburgh, where the city won a dispute with the Standard Savings & Loan association, over redemption of property from taxes. The city had bought at a tax foreclosure sale property in which the loan association was interested, and the district court allowed the latter to redeem the property at the price the city bid in, which was less than the unpaid taxes. The supreme court said that redemption could be made only by paying all the taxes due, as any other course would permit property owners to commute their taxes for less than was owing.

1937 Ford V-8

• If you think that "all low-price cars cost about the same" — forget it! They don't.

Ford makes a car — a 60-horsepower economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

• Of course, first cost doesn't prove "low cost" — you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures — on the open road — in a car provided by the nearest Ford dealer.

• When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest precision standards?"

There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 \$529 at Dearborn Factory.
Prices begin at \$529. Transportation charges, State and Federal taxes extra.
This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.
