THE WORST IS YET TO COME!

The past few years of drouth, with decent rains almost reaching the vanishing point, make every rain seem so unusual that we are inclined to forget that at any time Plattsmouth can expect to get the heavy rains that we have had in the past.

In 1898 we had nearly 6 inches of rainfall in 1 1/2 hours, and about 1905 we had 5 heavy rains that flooded cellars on Main street.

The lowering of Main street during Henry R. Gering's term as mayor brought relief, but in 1921 the engineers induced the city to raise Main street and TRY to get the water into the expensive box sewers, (the engineers got 5% commission ON THE COST).

If these box sewers are filled to their utmost capacity, they will only take care of the amount required to offset the raising of Main street.

The enlarging of the sewer inlets will fill the Sixth street box sewers if the ordinance prohibiting dumping of grass and rubbish into the waterways is obeyed, and prosecutions will soon follow future violations of this ordinance.

ADDING FANS AND EXTRA SEATS
A number of wall fans are being added at the Legion building in addition to the big cool-air circulator to insure a cool room for the beauty pageant Tuesday night. Arrangements are also being made to put in a good number of extra seats, so as to accommodate the large crowd expected. Tunnel's sound system, with two speakers, will enable the large audience to hear clearly the introductions of the various contestants by Foster May, as well as the ceremony of crowning "Miss Plattsmouth" after the judges have made their final decision. Miss Betty Bulin as "Miss Plattsmouth, 1936" will place the crown on the new queen. All of the 96 contributing sponsors will have brief messages presented over the "mike" by Foster May, coincident to the introduction of the contestants.

THE WEATHER

Courtesy Weyrich & Hadraba

We commend the weather man. Such a comfortable July as the one just passed is indeed praiseworthy. Only three days during the past month had temperatures rising above 100 and the high for the month was 102.5. Twelve days of the month had high readings below 90 degrees. The low for the month was 60.5 on the 30th.

July, 1937 lacked only .5 of an inch of having as much rainfall as the first seven months of 1936. 5.91 inches of rain fell during the past month. Green lawns and heavy vegetation have made the month seem even cooler. This is one summer that Nebraskans have enjoyed an ideal climate.

A contrast with the past month was 1936. Only .14 of an inch of rain fell during the month. The high reading for the month was 115 on the 26th. The month had 24 days with temperatures above 100. Only one day had a high below 90.

During July 1935 this vicinity had 2 inches of rainfall. The low was 61 on the 13th and the high, 105 on the 7th and 30th. The month recorded 17 days with temperatures above 100. In 1934, .51 of an inch of rain fell during July. The low reading was 49 on the 7th. 21 days had temperatures above 100. The high was 114 on the 20th.

TRAFFIC IS RESUMED
The main line traffic of the Missouri Pacific from Omaha to Kansas City, was resumed late Friday afternoon when the force of maintenance of way workers completed the repair of the Mynard siding track damaged in the wreck early Friday. This permitted trains to travel around the main line tracks, still blocked with wreckage.

The wreck attracted the attention of hundreds and Friday all day the vicinity was black with parked cars and the eager spectators to look over the mass of steel and wood that represented all that remained of the twenty-one cars.

The wreckers and cranes attracted much attention as they worked in lifting the large steel cars up and off from the sidetrack in order to clear it for travel.

RETURN FROM EAST

Dr. and Mrs. Frank Molak returned from a very interesting trip in the east Sunday morning. Dr. Molak attended the annual convention of the American Dental association at Atlantic City July 12 to 16. Interesting programs with excellent speakers and exhibits were arranged for the doctors. 12,000 dentists attended, approximately 100 were from Nebraska.

The Molaks visited relatives in New York City for several days. They went through Rockefeller Center and while there, Mrs. Molak visited a friend who is a member of the Rockettes. They also visited other points of interest in New York.

Washington, D. C. was next on the visit. They were also guests of relatives in Washington. There they visited government buildings and other interesting spots. In Philadelphia the couple looked up many historical points.

On the return trip they visited in Indiana. They report corn in excellent condition in that state. All farm lands showed an abundance of rain throughout the trip.

BANK NIGHT CLOSE
From Friday's Daily—
Last evening at the Ritz theatre the announcement was made by Mr. G. G. Griffin, the manager, that the bank nights which have been held on Wednesday and Thursday of each week, would be discontinued.

The bank nights have been operative for many months and have proven a very good drawing card. The decision was made following the notification that the attorney general had ruled the nights illegal and notifying the various local officials to see that the nights were stopped.

FIFTY GIRLS ENTER "MISS PLATTSMOUTH" COMPETITION

Fifty girls have entered the "Miss Plattsmouth, 1937" pageant being sponsored by the American Legion Auxiliary, to be held Tuesday night at the Legion community building. Besides the fifty sponsoring merchants, forty-six others are co-operating in the presentation of this spectacle through complimentary entries.

Foster May, radio newscaster, will officiate as master of ceremonies. The entries will be judged by Lester Palmer, Omaha municipal judge, William J. Kotera, chief engineer of radio station WOW, and Mrs. Foster May. Winner will receive an all-expense trip to the state fair when the Nebraska pageant is staged in September.

A complimentary dance for the contestants and open to the public on payment of a nominal admission charge, will be held. The Avalons, nine-piece orchestra, will play. Henry Jasper, local florist, has arranged to present the winner with a corsage bouquet.

Tunnel microphone and sound system will be used in presenting the program.

VISITS OLD FRIENDS

Eugene Hawkenbery, former resident here, arrived in the city Wednesday evening to spend a short time here visiting with the old time friends and associates. Mr. Hawkenbery is now making his home at St. Louis where he has resided since leaving here in 1923. He is now engaged in the electric work at one of the large shops in St. Louis.

He noted a great many improvements in the city since he left here as a boy and also missed many of the friends of his school days who have removed from the city.
