

EAGLE NEWS ITEMS

Miss Frances Caddy visited her sister, Miss Edith Caddy in Plattsburgh last week. Miss Dorothea Kell visited friends in Palmyra last Thursday afternoon and evening. Mr. and Mrs. Ted Spahule of Lincoln spent Sunday afternoon with Fred C. Beach. Mr. and Mrs. R. C. Wenzel called last Sunday at the home of Mr. and Mrs. D. F. Butt. Mrs. E. H. May and Ormond attended the picnic at Douglas on Saturday of last week. Donald Horsh, who has spent the past several months in California returned home recently. F. W. Blumenkamp of Lincoln was in town last Friday taking care of some matters of business. Misses Mary and Pearl Norris of Lincoln are visiting relatives and friends in Eagle this week. Mrs. L. W. Piersol and Miss Lucille Piersol visited in Lincoln from Tuesday until Thursday evening. Mr. and Mrs. Harley Smith and Laura are enjoying having Edward Lee Kennedy of Omaha with them. Mrs. Guy Jones spent Friday afternoon in Palmyra and while there visited with relatives and friends. Mr. and Mrs. A. J. Nelson and daughter, Helen, were the guests of Mr. and Mrs. Chas. Garlit last Sunday. Mrs. Charles Gray, Sr. and Miss La Vona Gray of Douglas are visiting at the home of Mr. and Mrs. E. H. May. Bill Jack, who has spent the past several weeks at the Roy Vickers home at Nehawka, returned home recently. Mr. and Mrs. Elmer Umland have recently moved into the property owned by Mrs. Arthur Remaley of Lincoln. Miss Edith Caddy is visiting several days this week with home folk before returning to her work at Plattsburgh. Mrs. Sarah Kell visited her brother, Mr. N. E. VanSickle and Mrs. VanSickle in Farragut, Iowa, from Thursday until Monday. Mrs. Otto Kettelhut returned on Sunday from Pelican Lake, Minnesota where she has spent the past two months with friends. Mrs. Jesse Wall and daughter, Pauline, visited at the home of Mr. and Mrs. Arthur Thomson near Palmyra last Wednesday. Representatives from the extension clubs in and near Eagle attended a special meeting in Weeping Water on Friday of last week. Mr. and Mrs. Henry Umland and Dorothy Jean were the Sunday dinner guests of Mr. and Mrs. Fred Rudolph and daughters. Mr. and Mrs. Kenneth Kennedy of Omaha are the parents of a girl, born Tuesday, July 27th. Mrs. Kennedy was formerly Miss Helen Smith. The free movie which could not be shown last Thursday evening on account of the weather conditions, was shown on last Saturday evening. Miss Leta Wolken returned to Lincoln last Saturday evening after having spent the past week with her parents, Mr. and Mrs. Herman Wolken. The members of the Methodist Ladies Aid were the guests of the Prairie Home aid in the parlors of the Prairie Home Methodist church last Thursday afternoon. Harold Alden and family moved out of the property owned by F. W. Blumenkamp into the house across the street and west of the M. E. church Saturday of last week. A large crowd gathered in Eagle Tuesday evening, the first evening of the two-day picnic held annually in Eagle. Everyone seemed to enjoy the activities planned for the event. Mrs. K. B. Morgan went to Lincoln last Saturday and on Sunday she left for Canada. Mr. and Mrs. Morgan formerly lived in Canada and while there, Mrs. Morgan will arrange for a farm sale. George Hoffmeister received word last Tuesday that his brother had passed away at Norton, Kansas. He and his family and Mrs. Anna Earl left for Norton, Kansas, on Wednesday and returned Sunday evening. Mr. and Mrs. Roy Piersol and family of Tecumseh, Mr. and Mrs. Harry Piersol and Kenneth, Mr. and Mrs. Harold Piersol and children and Mr. and Mrs. Donald Piersol of Lincoln gathered at the L. W. Piersol home last Sunday.

3-piece Dining Room Suite, \$37.50.—Hiatt Furniture Co. Thomas Walling Company Abstracts of Title Phone 324 - Plattsburgh

Laughing Around the World With IRVIN S. COBB Better Water—Than Seeds By IRVIN S. COBB A SMALL negro boy went to a physician in Natchez to be treated for a painful sensation in one of his ears. The doctor examined and found the ear full of water. 'How did this happen,' he asked after he drained the ear—'been going in swimming?' 'Naw suh,' said the little darkey. 'Well, my little man,' replied the doctor in a jovial way, 'you better go home and tell your mother you have a bad case of 'water on the ear.' 'It may be 'water on de ear' now, but when I know'd it, it wuz water on de melon.' (American News Features, Inc.)

Weather News to be Speeded by New Robot Two Upper-Air Exploration Stations to Be Set Up This Fall, Dr. W. R. Gregg Announces. By FRED O. BAILEY United Press Staff Correspondent WASHINGTON, July 31 (UP)—Cold waves bound for the United States from the North Pole next winter will be reported several days ahead of their arrival under plans announced by the weather bureau of a new system of upper-air exploration. Two upper-air exploration stations will be established, one at Burbank, Cal., and the other at Fairbanks, Alaska, in September. Dr. W. R. Gregg, chief of the bureau, announced. Radio-meteorographs—robot weather observers that broadcast their findings from far above the earth to observers on the ground—will be released daily with balloons at these two stations. The Fairbanks station will enable meteorologists to forecast several days earlier than heretofore the approach of a cold wave. The Burbank station will provide upper-air weather news for forecasters all over the country. Great Obstacle Overcome 'The radio-meteorograph promises to remove one of the greatest handicaps to weather forecasting the world over—the dearth of up-to-the-minute information on the conditions in the upper air on which to base forecasts,' Dr. Gregg said. The radio-meteorograph consists of a miniature wireless set, which broadcasts the responses made by three elements sensitive to atmospheric changes. Attached to each element—one responsive to pressure changes, one to temperature changes and one to humidity changes—is a tiny hand which moves as the element moves. A fourth small hand, kept in motion by a special clockwork, passes over the three other hands, making contact as it goes. At each contact a signal is broadcast. A receiving set at a ground station picks it up. Time Intervals Translated Trained observers translate the time intervals between the contacts caused by changing atmospheric conditions and the regular contacts of the moving arm with fixed points into pressure, humidity and temperature readings. The radio-meteorograph observations from Burbank and Fairbanks, going out by radio and teletype, will reach forecast centers and airports almost as soon as they are taken. The reports will be invaluable to aviators, and especially those flying the northern regions, Gregg said. They will also enable the bureau to forecast sooner and much more accurately weather conditions for general purposes.

SULLIVAN TAMMANY LEADER NEW YORK, Aug. 2 (UP)—Representative Christopher D. Sullivan was today named leader of Tammany Hall. He takes the place of James Dooley who died a week ago.

DESERTERS TO BE TRIED UNDER LINDBERGH LAW OMAHA, Aug. 3 (UP)—Fort Crook army deserters who were captured near Fairmont, Minn., will be tried in federal court under the Lindbergh law. U. S. District Attorney Vetova announced today. Flemer F. Kitcher, 24, of Sioux City, Ia., and Ted Olson, 23, of Duluth, Minn., were secretly indicted by the federal grand jury ten days ago. Olson and Kitcher, after escaping the guard house and overpowering a guard, came to Omaha where they kidnaped a taxicab driver and forced him to take them to Council Bluffs.

BOMB NATIONALISTS GIBRALTAR, Aug. 3 (UP)—Two Loyalist airplanes today bombed heavily the new Spanish Nationalist fortifications near Algeciras, across the bay from Gibraltar. Nationalist anti-aircraft guns fired without effect on the planes. The fortifications of Algeciras are an important part of those built by the Nationalists in recent months, allegedly with German aid. They dominate Gibraltar and have caused anxiety to some British leaders, including Winston Churchill, dissident conservative power.

CROPS SHOW GAIN CHICAGO, Aug. 3 (UP)—Five private crop experts expressed the opinion that the domestic 1937 corn crop would be 2,771,000,000 bushels approximately and the wheat crop 841,000,000 bushels. The corn crop estimate showed 162,000,000 over the July 1st estimate and wheat showed a drop of 30,000,000 bushels. The July estimate was 1,525,000,000 above the 1936 yield of corn, the largest corn crop since 1932.

CANADIAN LIQUOR FLOW TO U. S. REMAINS STEADY OTTAWA, Ont. (UP)—Reopening of American distilleries has had little effect on the exports of Canadian liquor to the United States, it is revealed. Trade figures available here show that Canada has exported 12,000,000 gallons of liquor to the United States since the Volstead Act was repealed, and the movement is continuing at the rate of approximately 500,000 gallons per month.

PLUMBERS' MINDS PLUMBED SALT LAKE CITY (UP)—Utah plumbers had to remember to bring all of their tools to a state examination before they could practice their trade in the state. Each plumber has to pass tests in lead work, plans and charts, and a written examination of 20 questions covering sanitation, ventilation, and public health before he can receive a state license.

STALK HAS 48 LILIES ALBANY, N. Y. (UP)—Forty-eight tiger lilies growing on a single stalk were found at nearby Cousc Corners by 17-year-old Ann Summers. Horticulturists pointed out that a stalk with three or four lilies is not unusual but one with 48 blossoms is quite an oddity.

PROTECT your BABY SAFER against germs. So mother, do as hospitals do, as doctors recommend. Give your baby a safety-rub with Mennen Antiseptic Oil daily. Buy a bottle of the oil at your druggist's today.

MOTHER! PROTECT your BABY SAFER against germs. So mother, do as hospitals do, as doctors recommend. Give your baby a safety-rub with Mennen Antiseptic Oil daily. Buy a bottle of the oil at your druggist's today. Mennen Antiseptic OIL

Alvo News Received Too Late for Monday's Paper Mrs. Paul Coatsman visited Mrs. Ellis Mickle Thursday. Mr. and Mrs. Archie Miller were Lincoln visitors Friday. Mrs. Albert Swanson went to the Eryan Memorial hospital last Friday, where she will take treatments. She is reported as feeling much better. Mrs. Orval Gerbeling of Murdock spent the latter part of last week with Mr. and Mrs. S. C. Hardnock, helping her mother cook for threshers. Mrs. George Frisbee of Elmwood is caring for Betty Swanson and doing the house work at the Albert Swanson home while Mrs. Swanson is at the hospital. Speaking of pretty flowers, Miss Soren Peterson of Alvo has an unusually pretty flower garden in her back yard. These annuals are in full bloom and make a very beautiful sight. Dickie Bornemeier was ill for a few days with infection in one of his legs caused from running a big splinter in his leg when climbing down the hay rack a few days before. Dickie is again able to be up and about. Russell Bornemeier was home for a few days last week. The latter part of the week he was back at school taking final examinations. Russell will receive his master's degree at the close of summer school, from the state university. Simon Rehmeier has purchased a new Ford V-8. Mrs. Rehmeier is at the present time enjoying a visit at Algona, Iowa. She was accompanied by Mrs. Frank Taylor, they making the trip in the new Ford and will remain for the rest of this week visiting with relatives. Mr. and Mrs. Robert Graham and daughter, of Cedar Hill, Mr. and Mrs. Marion Dimmitt and children and Mrs. Nightengale of Ashland were dinner guests Sunday at the Glenn Dimmitt home. Lloyd Dimmitt returned home with his parents Sunday evening after spending a week with his cousin, Kendall Dimmitt. Mother Passes Away David Campbell's mother, Mrs. Sarah Campbell, of South Bend, passed away and funeral services were held Tuesday afternoon at her home near South Bend and at the Marcy funeral parlors at Ashland. Mr. Campbell resided in this community for several years. Goes to Valentine Marilyn Collins left Tuesday afternoon by train for Valentine, Neb., where she will visit her uncle and aunt, Mr. and Mrs. Hubert Strong. Marilyn will return in time for the opening of school as she plans to take post graduate work here this fall and assist in the office. Hurt when Thrown from Load Walter Collins was hurt when thrown from a load of bundles while threshing at his home Friday afternoon. Walter climbed upon another load of bundles to assist Mr. Mock with his unloading when the team became frightened and threw Walter off in such a manner that he fell on his head and shoulders. He suffered a brain shock and was badly shaken up. He was unable to assist with the threshing for several days. Ladies Aid Meeting Wednesday afternoon, August 4, at 2:30, the regular meeting of the Ladies Aid society was held at the church basement. Mesdames S. C. Hardnock, Chas. Edwards, Lyle Miller and Carl Rosenow were the hostesses. Jolly Stitches The "Jolly Stitches" met with Dorothy Jordan Tuesday afternoon

DO YOU KNOW— That the grapefruit, so named because it grows in clusters like a bunch of grapes, originated in China before the time of Confucius. It was first brought to America about a hundred years ago by a sea-captain named Shaddock and was called a shaddock until recent years.

Stung by Bees The little son of Mr. and Mrs. Harry Weichel was stung by bees when visiting at the home of his grandfather in Elmwood this week. The lad took a stick and began to stir the bees in one of Chris Dreamer's bee hives. The result was that the little fellow was badly stung on the face, arms and legs.

Community Day Plans in detail have not been made for Community day because of the busy season continuing longer due to rains holding up the threshing, but these plans will be announced in a few days.

Boy Scouts Camp Out Seven members of the Boy Scout troop of Alvo were over to the camp at South Bend last Friday and enjoyed camping out over night, with swimming and other recreational sports which delight the average boy's heart. Those in the party were Leon Taylor, Lloyd Bailey, Charles Holka, Donald Davis, Wayne Wollen Don Winn. Mr. Bailey, father of Lloyd went for them the following day, returning them all safely home.

BOYCOTT LIVESTOCK DES MOINES, Ia., Aug. 3 (UP)—Dr. H. A. Seidell, state veterinarian has issued a boycott against shipment of livestock into Iowa from 10 Nebraska and South Dakota counties where anthrax is reported prevalent. The ban affects Boyd, Cedar and Knox counties in Nebraska, and Charles Mix, Bon Homme, Yankton, Clay, Hutchinson, Davison and Douglas counties, South Dakota.

UTAH PEACHES CUT HEAVILY SALT LAKE CITY (UP)—An almost total failure of peaches in Utah is forecast by Frank Andrews, federal statistician. The freezing of trees and dormant buds last winter is blamed for cutting the peach crop 554,000 bushels to an estimated harvest of 60,000 bushels for the summer.

"CONSCIENCE DEBT" PAID LATE FIREMONT, O. (UP)—Howard Faber lost a pocketbook containing \$20 ten years ago. It was found by a Zanesville man who recently paid back the "conscience debt" through the mayor of nearby Tiffin. The money was given to Faber's father, Faber having died since the loss.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN WHEN you have those awful cramps when your nerves are all on edge—don't take it out on the man you love. Your husband can't possibly know how you feel for the simple reason that he is a man. A three-quarter wife may be no wife at all if she nags her husband seven days out of every month. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three cordials of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age." Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

STAR BLADES FOR GEM AND EVER-READY RAZORS

A CRIME It's a crime to miss the good shaves of Star Single-edge Blades! Made since 1880 by the inventors of the original safety razor. Keen, long-lasting, uniform. 4 FOR 10c

RED BOTTOM STOCK TANKS WARRANTED FOR 5 YEARS—Be prepared for this summer. Have plenty of water for your stock at all times with these strong and durable Red Bottom Stock Tanks. Made in both round and round end styles with patent tube top, reinforcing triple welded, double lock, seam bottom. We recommend these tanks above all others. Come in and get our present low prices.

George E. Nickles Murray, Nebr. These products manufactured by the COLUMBIAN STEEL TANK CO., Kansas City, Mo., U.S.A. FOR SALE BY

North Dakota will Buy Wheat to Hold Price Governor Langer Orders the State Mill to Buy All of the North Dakota Wheat Necessary. BISMARCK, N. D., Aug. 3 (UP)—Governor William Langer, today ordered the state owned mill to buy all North Dakota wheat necessary to "defeat the ends of the grain gamblers" and to pay prices higher than the leading market. The governor threatened to buy all in the state, paying cash, until buyers will pay what the grain is worth. The North Dakota wheat crop is estimated at near 100,000 bushels. The Langer administration move is backed by the state bank at Bismarck which has more than \$30,000,000 available. The state industrial commission will employ the state owned mill and elevator at Grand Forks. Added store space will be secured in Minneapolis and Duluth. "Grain gamblers have been robbing the North Dakota farmers for years, like vultures flying over a corpse," the governor said. He charged that the grain dealers do not give the farmers and honest bushel. Many demanded as much as two bushels of the unusually light North Dakota wheat to make one sixty pound bushel. He referred to sharp breaks in prices in light wheat prices on the Minneapolis market. Governor Langer ordered the mill to buy only North Dakota wheat and from farmers. Purchase of carload lots to start at once.

WILL BROADCAST ADDRESS WASHINGTON, Aug. 3 (UP)—President Roosevelt announced a national broadcasting engagement which may give him an opportunity shortly after adjournment of congress to stand in the shadow of the Washington monument and defend his interpretation of the constitution and renew his demand for judicial reform. Mr. Roosevelt will speak on the monument grounds on September 17, the anniversary of the adoption of the constitution. The address is made under the joint auspices of the U. S. constitutional sesqui-centennial commission and the Good Neighbor League. Participation of the Good Neighbor League is noted as significant as it has been frequently mentioned in discussion of possible political realignment possibly caused from the supreme court fight. Well informed persons predicted that Mr. Roosevelt would stress for a 1938 showdown on proposals to expand the supreme court. It was believed that the president would support a constitutional amendment although not suited to his plans.

NEBRASKA CORN TALL TOO LINCOLN, Aug. 4 (UP)—A Nebraska farmer enclosed a snapshot of a stalk of corn sixteen and one-half feet tall in a letter to Governor Cochran today and asked him to tell the governor of Iowa that the "Hawkeye state gets its seed from Nebraska." Nunemaker, the Laurel farmer, wrote that the stalk would have grown higher if it had not been for the grasshoppers. Cochran said, "If we had competed, we could have at least tied for first. I wish we had more of this corn."

Largest Corn Crop in Years is Anticipated From the Dakotas to Ohio Prospects Are for the Biggest Corn Crop Since 1932. By T. W. KIENLEN (Copyright 1937 by United Press) CHICAGO, Aug. 2 (UP)—Farmers from South Dakotas to Ohio prepared today to reap their biggest corn crop since 1932. They hope to sell it, despite low prices, for more money than they have got from corn in five years. Reports from nine major corn producing states indicated their crops this year will be two to eight times greater than in 1932. The government estimate on July 1 was around 2,572,000,000 bushels, nearly twice the national yield of 1,524,317,000 bushels in 1932. Continuous favorable weather throughout July, which usually finds the crop prospects more or less damaged, brightened this year's bumper crop outlook so much that prices on the Chicago board of trade fell 25 to almost 50 cents a bushel lower than in 1932. September corn futures today were around 90 cents a bushel; in 1936 they were \$1.12. December corn today was quoted at around 68 cents a bushel, 45 cents lower than last year and May was in a similar position. The loss per bushel in the present market price of the new crop will be more than made up by increased production and corn producers will have more money than at any time in the last five years. Illinois, which led these nine states in 1936 production, will lose its leadership to Iowa, one-time queen of the corn-belt, if present estimates are maintained when the crop is harvested. July 1 estimates by states and their 1936 yields were: State 1937 Estimate 1936 Yield Iowa 452,476,000 212,240,000 Illinois 363,864,000 217,751,000 Nebraska 196,830,000 26,859,000 Indiana 172,494,000 115,413,000 Minnesota 158,004,000 88,331,000 Ohio 140,616,000 121,605,000 Missouri 126,610,000 40,622,000 S. Dakota 50,480,000 8,446,000 N. Dakota 17,264,000 2,530,000 Leslie M. Carl, federal statistician, said, the Iowa crop "continued to show improvement through July. The plants have a rich green color and there is not the yellowish tinge of drought years." In Illinois conditions "were fair to excellent," according to numerous observers. The Farmers' Co-operative Co., Worthington, Minn., reported Minnesota conditions "never have looked better," and the Cargill company of Minnesota reported "corn made remarkable progress during July and now has reached its peak." It added, however, that a week or two of adverse conditions "may cause considerable damage." In North Dakota, Statistician Ben Kienholz reported an indicated increase of 15,000,000 bushels. The weather bureau reported corn "making progress," in South Dakota with conditions "good to excellent, particularly in the southeast." Indiana prospects were "for the best crop in years" with the crop now well above normal height. G. E. Enfield, Purdue university agronomist, said the prospect for a full crop is "above average at present." Ohio's crop suffered in some conditions from excessive water, which delayed planting or hindered growth.

That the grapefruit, so named because it grows in clusters like a bunch of grapes, originated in China before the time of Confucius. It was first brought to America about a hundred years ago by a sea-captain named Shaddock and was called a shaddock until recent years.

The loss per bushel in the present market price of the new crop will be more than made up by increased production and corn producers will have more money than at any time in the last five years. Illinois, which led these nine states in 1936 production, will lose its leadership to Iowa, one-time queen of the corn-belt, if present estimates are maintained when the crop is harvested. July 1 estimates by states and their 1936 yields were: State 1937 Estimate 1936 Yield Iowa 452,476,000 212,240,000 Illinois 363,864,000 217,751,000 Nebraska 196,830,000 26,859,000 Indiana 172,494,000 115,413,000 Minnesota 158,004,000 88,331,000 Ohio 140,616,000 121,605,000 Missouri 126,610,000 40,622,000 S. Dakota 50,480,000 8,446,000 N. Dakota 17,264,000 2,530,000 Leslie M. Carl, federal statistician, said, the Iowa crop "continued to show improvement through July. The plants have a rich green color and there is not the yellowish tinge of drought years." In Illinois conditions "were fair to excellent," according to numerous observers. The Farmers' Co-operative Co., Worthington, Minn., reported Minnesota conditions "never have looked better," and the Cargill company of Minnesota reported "corn made remarkable progress during July and now has reached its peak." It added, however, that a week or two of adverse conditions "may cause considerable damage." In North Dakota, Statistician Ben Kienholz reported an indicated increase of 15,000,000 bushels. The weather bureau reported corn "making progress," in South Dakota with conditions "good to excellent, particularly in the southeast." Indiana prospects were "for the best crop in years" with the crop now well above normal height. G. E. Enfield, Purdue university agronomist, said the prospect for a full crop is "above average at present." Ohio's crop suffered in some conditions from excessive water, which delayed planting or hindered growth.

Largest Corn Crop in Years is Anticipated From the Dakotas to Ohio Prospects Are for the Biggest Corn Crop Since 1932. By T. W. KIENLEN (Copyright 1937 by United Press) CHICAGO, Aug. 2 (UP)—Farmers from South Dakotas to Ohio prepared today to reap their biggest corn crop since 1932. They hope to sell it, despite low prices, for more money than they have got from corn in five years. Reports from nine major corn producing states indicated their crops this year will be two to eight times greater than in 1932. The government estimate on July 1 was around 2,572,000,000 bushels, nearly twice the national yield of 1,524,317,000 bushels in 1932. Continuous favorable weather throughout July, which usually finds the crop prospects more or less damaged, brightened this year's bumper crop outlook so much that prices on the Chicago board of trade fell 25 to almost 50 cents a bushel lower than in 1932. September corn futures today were around 90 cents a bushel; in 1936 they were \$1.12. December corn today was quoted at around 68 cents a bushel, 45 cents lower than last year and May was in a similar position. The loss per bushel in the present market price of the new crop will be more than made up by increased production and corn producers will have more money than at any time in the last five years. Illinois, which led these nine states in 1936 production, will lose its leadership to Iowa, one-time queen of the corn-belt, if present estimates are maintained when the crop is harvested. July 1 estimates by states and their 1936 yields were: State 1937 Estimate 1936 Yield Iowa 452,476,000 212,240,000 Illinois 363,864,000 217,751,000 Nebraska 196,830,000 26,859,000 Indiana 172,494,000 115,413,000 Minnesota 158,004,000 88,331,000 Ohio 140,616,000 121,605,000 Missouri 126,610,000 40,622,000 S. Dakota 50,480,000 8,446,000 N. Dakota 17,264,000 2,530,000 Leslie M. Carl, federal statistician, said, the Iowa crop "continued to show improvement through July.
