Tremendous Amount of Tax Delinquent

Enough to Build Three More State Capitol Buildings on Books of 93 County Treasurers.

As Bob Ripley would say, "Believe it or not . . ." enough money to build three more state capitol buildings like Nebraska's present one in every respect, is lying around in the form of delinquent taxes, of which a part is due from Cass county taxpayers.

In an effort to further the collection of delinquent taxes, and at the same time save the taxpayers who have delinquent taxes a good sized sum of money, Cass county commissioners and the city council are co-operating in bringing to readers of the Semi-Weekly and Daily Journal a series of advertisements which started several weeks ago, and which have been the means of creating considerable interest in the program. Following the publication of each one of this series of advertisements, people interested in good government have availed themselves of the facilities of the county treasurer to learn how money may be saved by having tax bills brought to date, and declared payment would be forthcoming soon.

People are often prone to think that the little that they owe to the governmental subdivisions — state, county, school district and city — in the form of back taxes amounts to nothing at all, but if everyone made an honest effort to meet tax obligations, a general reduction in taxes would be available to every Nebraskan. Many of us have been unable to pay our taxes because the last few years have been hard times to pay any bills, and have viewed with much concern the piling up of the interest until, added to the principal sum due, it reached a total beyond the ability of many to pay.

Enactment of Legislative Bill No. 1 cut from these tax bills the interest and penalties and those who have been unable to pay taxes may do so now and save money at the same time.

This series of advertisements, endorsed by state, county and city officials and leaders is creating considerable interest and enlightening many who have thought the sum total of taxes delinquent in Nebraska is not great. We respectfully call the attention of Journal readers to these ads as they appear each Thursday in both the semi-weekly and the daily issues.

OVERCOME BY SLEEP

From Monday's Daily—
 Late last night the night police discovered a stranger asleep on the steps of the Hotel Plattsmouth and who was deep in the arms of slumber that required some effort on the part of the officers to arouse him.

The man resided in the vicinity of LaPlatte and after he had visited a number of taverns with companions, he became involved in arguments with his friends and with the result that he was left here flat. Lacking the funds to hire a car or to secure a room at a hotel he did the next best thing—sought sleep out in the open.

The police escorted him to the city jail and there he rested for the remainder of the night.

TWO CASES DISMISSED

Monday afternoon in the county court a hearing was had in the case of the State of Nebraska vs. William Mabe, asking that he be placed under a peace bond by Claude LaHoda. After the evidence was taken the court decided that there was not evidence enough to warrant the charge and the matter was dismissed at the cost of plaintiff.

The complaint of the State of Nebraska vs. Claude LaHoda, charging the defendant with assault and battery was also dismissed by the court after hearing the evidence.
