

### City to Seek Assurance of Not Being 'Sold Out'

Will Follow Other Cities in Asking Advance Notice of Any Contemplated Sale of Iowa-Nebr.

From Tuesday's Daily— The city council at their session last evening followed the example of several other Nebraska cities in authorizing the lighting committee to take up with the Iowa-Nebraska Light & Power Co., negotiations to secure from the company the assurance that the city would have definite notice of any possible sale, if contemplated, to the Southeastern Power district. This is so that the city might start proceedings to protect their interests in the securing of the plant or the local control of the utilities here.

The report of City Treasurer M. D. Brown was received and showed that the city had in its treasury at the first of the month \$20,900.63. City Clerk Albert Olson showed that his receipts for the month of July had been \$799.43.

The city fire department notified the council that Robert H. Bestor had been named as a member of the fire department to succeed Charles Tunnel. The council voted to confirm the choice of Mr. Bestor.

A communication was received from the residents of the vicinity of Eighth and Vine streets, asking that a street light be installed. This was referred to the lighting committee.

**Need for Action on PWA** A communication was received from the PWA committee of the state in which the city was reminded that September 30th was the deadline for all applications and also that the sooner applications were filed the most likely for quick consideration. This is the plan where PWA supplies 45 per cent of the cost of the projects and the city or political subdivision 55 per cent.

Mayor Lusinsky in connection with the PWA letter stated that engineers had been here to check Chicago avenue and to prepare plans and specifications for the paving and also sewer extension in case the city should find it possible to accept this offer.

Chief of Police W. M. Barclay re-

ported two arrests for the past month of July and fines and costs of \$5 each.

#### Discuss Fire Department

Chief of the fire department, Dr. O. Sandin, reported some ten fires over a period of several weeks and which included a number of weed and brush fires that the department had been called out for.

The subject of fires brought on an extended discussion of matters of the fire department, Mayor Lushinsky urging that the siren be sounded as soon as the fire truck starts out on a call and be kept going so that other traffic could clear the way. Councilman Vincent stated that the firemen had complained of spectators at the fires getting in the way and parking cars so that the truck had a hard time in reaching the scene of a fire. Councilman Schutz also urged that other traffic give way to the fire fighting apparatus. He also urged that matches and cigarettes be taken away from prisoners at the city jail in the future as a mattress was burned a few nights ago by a prisoner.

Police Judge C. L. Graves reported one arrest for the week of July 30th and three for the week of August 4th.

#### Committee Reports

Chairman Rebal of the judiciary committee asked further time on the investigation of the request for closing hours for the barber shops of the city. Mayor Lushinsky urged that some steps be taken to check "U" turns on the main traffic intersections.

The tax and property committee through Chairman Webb reported that they had a bid on the Dollie Smith residence property on Wintersteen Hill, west half of lots one and two, block 65, original town. This was by W. P. Rice for \$150 and on motion the bid was accepted. Lots 11 and 12, Block 16, were also sold by unanimous vote of the council, to John Meisinger, Jr., and wife on their bid of \$500.

Chairman Tippens of the streets, alleys and bridges committee reported that the rain of Friday night had damaged the streets to some extent. He also urged that lumber be secured for a retaining wall to hold a section of the road requested repaired in the fourth ward.

Chairman Comstock of the lighting committee called the attention of the council to the new light at the foot of the stairs leading to the council chamber and which has long been needed.

In the line of WPA work Mayor Lushinsky called attention to the fact that the Lincoln avenue project was getting along very well although there had been a few break downs that had held up the work. He reported that the cemetery project was now getting under way and also that the tennis courts were getting in shape.

Councilman Gabelman called attention of the council to the need of drainage at places along Lincoln avenue so that water would not be diverted across the street.

#### Support Recreation Center

L. S. Devoe, head of the recreational work in Cass county, was present and gave a most interesting outline of the work of his organization and plans for the future which would provide something for the young and old alike, hand, vocal music, baseball, tennis and other activities had

been popular in the summer and a winter program was also provided. Mr. Devoe stated that it was desired that these activities be placed on a definite basis by the government and that sponsors would be asked to make definite what they might offer in support of the project. In the event of the assurance the government stood ready to appropriate \$5,000 in labor for the work. Mr. Devoe suggested that the city pledge \$10 per month for the Recreation Center as a cash contribution and which would give them \$120 a year, which with county aid and the use of city buildings would make it very easy to carry on the work. On motion of Councilman Vincent the sum of \$10 per month was pledged by the city for the Recreation Center.

On motion of Councilman Webb, the new tennis courts on the Eperston lots were placed under the direction of the Recreation Center and also it was voted to see that the NYA was continued in constructing horse-shoe and croquet courts on other city owned lots.
