Names New Wheat

LINCOLN, Aug. 12 (UP)—The Nebraska college of agriculture today announced that its new wheat variety, Nebraska No. 1063, has been named "nebred."

The designation was suggested by E. A. Burnett, Chancellos Emeritus and former dean of the college.

University agronomists formally placed their stamp of approval on the new wheat type, but said no seed will be available for distribution until after the 1939 harvest. Production this year totaled only 1,100 pounds and the entire supply was disposed of for fall planting.

Nebred wheat has been given constant tests at the Nebraska experiment station since 1923. Its graduation into the group of wheats recombinant of consistent high performance.

Experts said nebred is extremely resistant to bunt or stinking smut, has exceptionally good milling and baking qualities, yields well and is very winter hardy. It is not, however, resistant to stem rust, but ranks above the leading Cheyenne variety in that respect.

Agriculturists believe nebred will find favor among Nebraska farmers, particularly in eastern counties, where the Cheyenne variety has fallen into some disfavor with farmers in years of rust epidemic.

MUST EXAMINE ASSETS

YORK, Neb., Aug. 11 (UP)—Before the York city council can submit a bid for the Iowa-Nebraska Light and Power company's holdings in York, it will be necessary for the city's special engineer to examine the books and records of the company.

That was the gist of a resolution passed by the council at a special meeting Wednesday afternoon.

So that the task of making a physical valuation of the York property may be expedited, the council will submit its request to power company officials for access to the books and records of the company.

FLYING PRIEST LENDS AID

CHESTERFIELD INLET, Northwest Territory, Aug. 12 (UP)—Father Paul Schulte, the flying priest, landed in the harbor today at the end of his race to an outpost 400 miles north of the arctic circle to rescue a fellow-priest who was desperately ill.

Father Julian Cochard, who was stricken last week at Arctic Bay, was still alive when Father Schulte landed. Father Schulte lifted him from the plane to a canoe, paddled to shore and hurried to the hospital where two doctors were waiting.

Since he took off last Tuesday in response to a radio message from the Hudson Bay company at Arctic Bay Father Schulte had flown 2,200 miles through fog, head winds and desolate darkness.

Speeding his patient southward he had divided his time between piloting the sea plane, gripping the sick priest's grateful hand and praying with him that they both would reach safety.
