Have Pleasant Trip Through Eastern States

Mr. and Mrs. Carl Schneider and Party Return From Extensive Automobile Tour.

Thursday night Mr. and Mrs. Carl J. Schneider and son, Ronald, Miss Florence Wiles and Mrs. Ethelyn Mullis, of Lincoln returned from an auto trip that took them over several thousand miles of the east and border states.

On their way to the east they had gone by the way of Chicago and then to Detroit, automobile capital of the world, enjoying many places of interest and then going on through Canada to see many of the places of charm in this part of the Dominion. They visited at Niagara Falls, one of the natural wonders that has attracted millions through the years.

The journey down the valley of the Susquehanna river in Pennsylvania, was one of the most pleasant of the trip, and where many feet above the roadway was the mark of the high water stage of 1936. This part of the journey brought them to Harrisburg and the battlefield of Gettysburg, where just a few weeks ago the last of the civil war veterans had gathered to view scenes where in their youth they had battled.

From the battlefield the party proceeded to Washington, D. C., and spent some time in looking over the magnificent government buildings and being guided by John Iverson, who has spent a number of years in the government service and is well acquainted with the city, and they followed the usual custom of visiting the Washington home at Mt. Vernon, one of the national shrines. Starting home they stopped at Frederick, Maryland, made famous by the story of Barbara Fritchley and her defense of the flag, as well as at Cumberland, Maryland, which is located in the valley and one of the old towns of that section of Maryland.

The party on their return came through the northern part of West Virginia and into Ohio at East Liverpool. They drove home direct through Indiana, Illinois and Iowa, and made fine time on the modern highway systems.

Heavy Rain and Hail Hits at Noon Hour

Torrential Rainfall South of City Brings Flood of Water Into Main Part of City.

From Saturday's Daily—
 An inch rain accompanied by a hail storm visited Plattsmouth and vicinity at the noon hour today and for over an hour the rain intermingled with the hail pelted down on the city.

Farther south of the city the rain was reported as much heavier and as the result shortly after 1 o'clock a bank of water rolled down Chicago avenue and into Sixth street and thence into Main street. The sewer at Tenth and Chicago avenue was unable to carry the amount of water rushing down the small creek which was added to by the stream that spread down the paving and rolled on north to the main section of the city.

Cars parked along South Sixth street added to the checking of the water and forced the water and mud up onto the walk on the west side of the E. A. Wurl building. After effort some of the cars were moved out of the danger zone and permitted the more rapid movement of the water. The cars also retarded grass and debris to keep water from getting into the sewers.

No overflow occurred from the sewer on Washington avenue altho a great deal of water flowed down the paving following the heavy rain.

The bottom land east of the Burlington station was flooded by the water from the overcrowded sewers and from the Burlington viaduct that emptied the streams out into the bottom land.

Precipitation to 3:30 p. m., 1.21.
