Now it so "happened" that he was detained at the store until everything was in readiness and was then offered a ride home, which he accepted after some hesitancy. Arriving there, he found the home filled with a merry crowd. This was one surprise that worked out according to the plans, and Harry was just about taken off his feet. Needless to say, all enjoyed the evening immensely.

From there they will go on to Salmon, Idaho, where a brother of the brides, William Breuner, resides, spending some two weeks in that vicinity.

Met with Severe Accident

While Mrs. B. C. Marquardt was busily engaged about the yard, she stumbled and in falling threw out her hand to break the severity of the fall. Her hand came in contact with the sharp edge of a galvanized vessel, causing a severe cut that required a number of stitches to close. The services of a doctor were required and we are pleased to report the injured member is improving rapidly.

Drive Now On for Funds for the Scout Program

Belated Canvass Among "150 Club" Members for 1938 Under Way - To Seek New Ones.

Far more than a year has elapsed since "150 Club" members were canvassed for 1937 dues. This year's drive, delayed from early in April, for various reasons, has now become imperative to provide the money for past due area per capita assessment, and other expenses including telephone rental and upkeep of the cabin at Camp Wheeler. Of the members who enrolled anew last year for 1937-38-39, five paid \$3 each for the three years, and will not be contacted again either this year or next. Of the remainder, up to last week only one had come in and volunteered payment of 1938 dues. Now, cards are in the hands of solicitors and each and every one who pledged support to the Scouting program last year will be asked to pay their 1938 dues at once.

Some Moved Away

As always, there are some who move away, and that leaves a gap in the enrolled membership that must be filled if the quota is raised. So, quite a few new names are to be contacted in this drive, hopeful that they will pledge their \$1 a year for the remaining two years of the three year period.

Next year's drive will be held in April—on time, and none of those making \$2 payments at this time for the two years will be contacted at that time.

Cost No Greater for More Troops

Continued efforts will be made this fall to get a second—and possibly a third troop—organized in Plattsmouth. The area cost is no greater for a half dozen troops than the one oversize one now functioning—being computed on a population per capita basis and remaining constant at \$90 per year for towns of between three and four thousand. Larger towns, of course, pay more, at the rate of three cents per person based on the lowest full thousand.

There is no lack of boys desiring to belong, as shown by a recent fact-finding survey in the schools. There is no lack of financial support, since three or more troops can function for practically the same amount as one.

The whole problem is one of adult leadership. Until more men of the community become more interested in the Scouting program for boys, than just to put up their dollar per year and then set back and say, "Let George do it," there will still be boys on the outside wanting to become Scouts.

As stated, a sincere effort will be made very shortly to start the new school year off with one or more additional troops. Cabin facilities are adequate to handle half a dozen or more troops if adult leaders could only be found willing to devote time to the work.

ASKS FOR DAMAGES

In the county court a suit for damages has been filed by Harry Kasten against the First Trust Co. of Lincoln, and Herman Agena, as defendants.

The petition states that the plaintiff had a lease from the defendant trust company from March 1, 1938 to March 1, 1939 to farm 90 to 100 acres of farming land, located in the extreme western part of Cass county.

It is further alleged that on July 23, 1938 the defendant company gave a lease to Agena as agent to plow land and prepare for future crops.

On the 30th day of July Agena, it is alleged, as the agent of the defendant company, entered on the farm and set fire to sixty-eight acres of stubble and on which was approximately 100 tons of straw belonging to the defendant and which was lying on the field. This was valued at \$2.50 per ton.

It is further alleged that the stubble field was full of grasshoppers which were driven by the fire from the stubble field where they had fed, to a thirty acre tract of corn which was damaged greatly as the result. The sum of \$500 in damages is asked.
