

City Council Holds Meeting Monday Night

Move to Secure Engineer to Draw Plans for Sewer on Chicago Avenue.

A great many subjects were on the blotter last evening at the city council meeting and while not a great deal of legislation was accomplished, there was much to be discussed in the various matters.

An application of William Gorder for permission to place a gas tank at his garage at Sixth and Pearl streets was received and permission granted with the tank to be placed five feet underground and to be done under the supervision of the streets, alleys and bridges committee.

A communication was received from the Plattsmouth State bank stating that under their sales contract with the city they did not propose to turn over to the city the \$16,000 of bonds which it has been proposed to refund. The letter was received and placed on file. The city will call the bonds on October 1st and interest will be stopped until new refunding bonds are issued.

There was some discussion of the matter of the Chicago avenue paving and also the sewer. Mayor Lushinsky stated that the sewer work could be carried on through the colder weather while the work on the paving probably would not start until spring.

The question of rock surfacing of the city streets as requested by a number of the residents over the city and which will surface a great many badly needed roadways. These applications are being received and will be divided into projects for the carrying on of the surfacing. The surfacing of Pearl from Tenth to Thirteenth and Locust from Eighth to Seventh are among the proposed districts.

Chairman Tipples of the streets, alleys and bridges committee, reported that street work now was very well caught up south of Washington avenue as the county maintainer had been used to assist in surfacing up of the roads. The department had been busy in cleaning up after the street programs and carnival. Mayor Lushinsky commended the street department for excellent work in this line.

Chairman Vincent of the license committee reported that an application had been made by George J. Stoll, Jr., for license to operate an ale beer business in the Hotel Plattsmouth building at Sixth and Main streets. This was referred to the license committee to investigate and also to see as to the advertising of the application.

Bids were received for the purchase of 200 feet of double strength fire hose. The Anderson Co., and United Rubber Co., were bidders and the matter referred to the fire and water committee for checking, a recess being taken. The committee recommended that the bids be rejected and new bids be secured for the meeting on Monday, October 10th.

Mayor Lushinsky stated that it would be necessary to have extension of heat to the new fire station, that also the heating plant and water heater should be overhauled and placed in first class shape. This was referred to the parks and improvement committee for action.

Mayor Lushinsky stated that he had been asked by several to urge the creation of a parking space at the south of the Hotel Plattsmouth for the use of getting in and out of the hotel by patrons with their baggage. This was discussed at some length by a large part of the membership. It was decided to postpone action and also to have the lot at Seventh and Main on Pearl street from Fourth to Third fixed up as regular parking spaces for the cars.

Councilman Vroman reported that the police had handled the King Korn Carnival situation in excellent shape and that the force was now back on regular schedule. Mr.

Vroman reported that Chief Barclay was off duty on account of illness. On motion of Mr. Vroman, \$5 was ordered to be given to the Boy Scouts that assisted as patrol police during the King Korn Carnival.

The placing of the remaining boulders donated by the Burlington was discussed by Chairman Tipples of the streets, alleys and bridges committee who had been urged to get these off of the railroad hands and placed where they might be needed. Cooperation of the local shop force would be available in getting them out of the yards where they are now located.

The meeting of the League of Nebraska Municipalities at Kearney on October 11th to 14th, was discussed and Mayor Lushinsky urged that all of the councilmen possible attend the meetings at which civic problems are discussed by the various delegates.

Chairman Webb of the WPA committee reported that the work on Lincoln avenue was near completion and lacked only a few days. The work had to date cost the sum of \$1,355.

City Attorney J. Howard Davis told of a meeting at Lincoln with the legal representatives of the Iowa-Nebraska Light & Power Co., and that of the city of Lincoln. It had been their opinion that the city need have no apprehension as to the local distribution system being sold without notice and in their opinion even if sold that the city could start condemnation before the transfer completed.

The following claims were ordered paid by the council:

Duplex Mfg. Co., repairs tractor	30.75
George VanHorn, cutting weeds	1.05
Charles Valley, gas tractor	20.70
J. C. Brittain, cleaning electroliners	9.50

VISIT AT AUBURN

Mr. and Mrs. E. J. Ferrie motored to Auburn Sunday, accompanied by their daughter, Mrs. Carl Ulrich and infant son, Duane Edward. They were guests at the home of Mr. and Mrs. L. F. Otto, the former formerly Miss Ruth Ferrie. The party enjoyed a fine dinner at the Otto home and visited many of the places of interest in that section.

HERE SUNDAY

Mr. and Mrs. Joseph Manacek, of Omaha, were here Sunday to spend the day visiting with Mrs. R. A. Bates, aunt of Mrs. Manacek. They were accompanied here by Miss Beatrice Knoflicek, who spent the day with her mother, Mrs. Mary Knoflicek and family.

FIRST AUTO CASUALTY

The accident in which Keith Ost, 19, of Nehawka was fatally injured, was the first auto fatality in Cass county in 1938, the office of Sheriff Homer Sylvester announced today. While other years have made many white crosses along the highways of Cass county, the record has been clear until the unfortunate accident that brought death to this young man.

When the accident occurred Ost, Orin and Raymond Pollard and Kent Balfour were riding on the outside of the car of Oscar Brandt, who had as his passengers two teachers en route back to their school work, making seven that were riding in and out of the Brandt car.

A passing car had stirred up dust on the roadway that obscured the view and Donald Campbell and Brandt, drivers of the two cars were unable to see through the dust and sideswiped with the result that Ost was caught between the cars and crushed.

The injured boy was taken to Omaha by members of the Hohscheidt family and placed in the hospital where he died a few hours later.

Keith Ost was a son of Mr. and Mrs. W. A. Ost and was born near Nehawka in June 1918. He is a graduate of the Nehawka high school. Surviving are his parents and a sister, Betty.

ATTEND REBEKAH MEETING

From Tuesday's Daily—Last evening Bell lodge of Benson, of the Rebekahs, entertained the officers of the second district Rebekahs at their lodge rooms in west Omaha.

Mrs. W. H. Ofe of this city took a car load of the local Rebekahs to Omaha to enjoy the meeting, among these Mrs. H. L. Kruger, one of the district officers. Others in the party were Mrs. Henrietta Ofe, Mrs. F. H. Mumm and Miss Marie Kaufmann.

Agent Declares Nazi Possesses U. S. Ship Plans

John C. Metcalfe Exposes Many Alleged Activities of "Bund" in United States.

WASHINGTON, Sept. 28 (UP)—John C. Metcalfe, agent for the house committee investigating un-American activities charged today that Nazi adherents have obtained possession of secret construction plans for U. S. battleships. Metcalfe, former Chicago newspaper man who became a committee agent, disclosed activities of German-American bund members, charging:

1. The bund already is advertising an October 2 celebration of Adolf Hitler's acquisition of the Sudetenland, although the Sudetenlands have not yet been acquired.

2. The bund members consider themselves the same type of minority as the Germans inhabiting Czechoslovakia's Sudetenland.

3. Nazi agents have acquired secret battleship plans and even have been assigned to go on trial runs of the latest type battleships of the United States navy.

4. That the German-American bund can muster 5,000 storm troopers within its own ranks and plans to draft such men "for a sabotage machine and a spy net" in event of a German-United States war.

Metcalfe said that storm troopers revealed that several of them "are aviation mechanics and hinted that they were employed by the Douglas Aircraft corporation and also Boeing aircraft."

"Information has come to this committee," he said "that this organization is growing and it is reported that already a second force has been established in Los Angeles. This fact lends credence to the belief that the United States may expect to see German storm troop units established throughout the country."

KEARNEY TO ASK FOR GRANT

KEARNEY, Sept. 27 (UP)—The Kearney city council last night voted to make application before September 30 to the PWA for a 45 per cent grant and a 55 per cent loan "to purchase or construct" an electric distribution system.

"Purchase" and not "construction" is the object, council members indicated. The action was taken after a conference with President Horace Carey of the Platte Valley public power and irrigation district.

The city has been offered the facilities of the central power company in the proposed state-wide grid set-up planned by the big hydro electric districts of the state.

RIVERVIEW CLUB

The Riverview club met at the home of Mrs. Georgia Creamer on September 13th. New officers were installed and started off for another year's work, with Mrs. Greely Bell as president. A song, "America the Beautiful," was sung. Plans were made to take a float to the King Korn Carnival, also a weiner roast was planned to be held at the home of Mrs. Henry Kuhns Oct. 2nd.

A very nice luncheon was served by Mrs. Creamer assisted by Mrs. Homer Shrader.

Our next club meeting will be held at the home of Mrs. H. L. Gayer, October 11th.

DO A GOOD WORK

The members of the city police department and the city street department are to be congratulated on their exceptionally fine service during the King Korn Carnival.

The police report but one arrest and a record of no auto accidents in the city during the four days of festivity and fun, a truly fine record.

The street department had the task of keeping the street clean of debris and this was a real job as those who were on the streets late at night after the crowds had dispersed can realize. The whole force were out in the wee small hours Sunday and the streets made clear of all paper and rubbish in quick order, being clean and attractive as the church going public were on their way to worship.

MERRY WORKERS CLUB

The Merry Workers club met at the home of Mrs. George McKay Sept. 28 at which time the capsule friends were revealed. After the regular meeting the rest of the afternoon was spent in the nature of a shower honoring Mrs. McKay. Very delicious refreshments were served by the hostess. The next meeting will be held at the home of Mrs. John Hild, the date to be decided later.

VIEWS CROP CONDITIONS

Searl S. Davis was a business visitor in Wahoo and Agnew. He found that, although crop conditions in Cass county are poor, as one travels farther west he realizes that conditions here could be much worse.
