SECOND ANNUAL CAMPOREE
 American Legion Troop No. 264 will act as host troop. Thursday afternoon at four o'clock Boy Scouts of Arbor Lodge district will begin their two day camp at Camp Wheeler, site of our Boy Scout cabin, a short distance south of Rock Creek school house, on the telegraph road. Plans are made for a genuine good time among the boys and their leaders. The local committee is being assisted by a group of adults the same as last year, who will help in the judging of contests.
 Tents will be set between four and six Thursday afternoon, then comes supper, and in the evening a real camp-fire session will be held. This will be a lot of fun, and parents and friends of local Scouts are cordially invited to this feature of the camp, at 8 o'clock.
 Friday will be given to tests and contests of various kinds, with special demonstration of first aid under direction of Dr. R. P. Westover. The Scouts will also be judged and rated for standing on care of camp, cooking, and general camp habits. This is a time of instruction, demonstration and general advancement in Scouting, and the boys are looking forward to a good time.

FACTS FAVOR FORD

- 1 The 1939 Ford V-8 is a beautiful, modern motor car. Its 85-horsepower engine gives you economical, well-balanced performance over the entire speed range — and the 60-horsepower engine is even more economical.
- 2 The structural strength of the Ford car — frame, bracing, axles, body — makes not only for safety, but durability and long life.
- 3 Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.
- 4 The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points — power, strength, safety, comfort — are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see — quality of materials, precision of manufacture, fundamental engineering.
