

PERSONAL, POLITICAL AND PERTINENT.

Much criticism is offered today to the apparent unfairness with which Judge Chapman has treated the democrats of this judicial district in the matter of fixing the days for holding court. The fact is pointed out that he adjourned court over Tuesday, when the republican convention was held at Nebraska City, so that other lawyers, as well as himself, could attend, and held no court yesterday, but in addition to holding court today, the day when the democratic convention has been called for, he had the jury called for that day, and had two cases set for trial then. Democratic members of the bar talk of it as an insult to them.

The largest shipment of soap ever made arrived in Omaha yesterday over the Chicago & Northwestern road, and was taken to Denver via the Union Pacific. It consisted of thirty carloads of White Russian soap, and the cars were covered with streamers, bearing the name of the manufacturers of that soap.

The constitutional convention at Columbia, S. C., has decided that there shall never be a divorce granted in South Carolina for any cause. Senator Tillman did his best to have the divorcees of other states recognized in this state, but his appeals were heard with a deaf ear and he was voted down. The bible was quoted from very freely during the debate. The parliamentary clincher was put on after the matter was adopted.

Gottlieb Klaus, says the Columbus Journal, will raise 700 bushels of potatoes to the acre on his farm in Saunders county.

Lord Scully, the owner of so many farms in Kansas, Nebraska, Illinois and Indiana, comes over to America at last to be naturalized as a citizen and grow up with the country. This is the first instance of the naturalization of a live British lord since the war of the revolution. But in case the house of peers is wiped out, according to the plans of the liberals in Great Britain, there will doubtless be a great migration of the nobility to this country, where so many of them already own lands, mines and railroad stocks and bonds. Other things being equal, a man follows his property in course of time. If we can make a good American of Scully, we should not despair of doing the same for Marlborough, Dunraven and the rest. —Lincoln Journal.

New York Sun: The day of the prairie schooner is by no means past despite the convenience and cheapness of railroad travelling all over the country. Many convoys of the picturesque wagons are yet seen in the further west, conveying families of restless westerners to some newer promised land. Last week a fleet of schooners carrying eight families passed through the Klamath Lake county, Wash., enroute from Nebraska to Ashland, Ore. They had been on the road since May 21.

The Nebraska City News says that "Chapman turned Warren down with an ease and grace that could only be expected from a trained and polished politician."

An advertisement for Frank J. Morgan, the enterprising clothier, appears in this issue. It is a good idea for Plattsmouth people to patronize the merchants who advertise. If they do not advertise, it is evident that they don't want your trade.

The average weight of a man six feet high should not exceed 175 pounds; at least that should be taken as a natural proportion. Besides contributing to the natural configuration of the body, fat acts as a non-conductor of heat and plays an important role as food supply in sickness or starvation.

The bank of Hemingford was closed yesterday by the state banking board. Bank Examiner E. L. Dodder took possession. The capital stock was \$15,000 and the bank was owned by Messrs. H. B. Austin and McLeod.

The latest photograph of the noted Mrs. Hetty Green is one taken when she was a frivolous young person, more interested in dinners and dances than in finances. It shows a pretty girl with regular features and vivacious expression. It is taken in the frock she wore to a dinner party given by Martin Van Buren at Saratoga Springs at which time she was chaperoned by the wife of the Russian ambassador.

The next time Warren attempts to capture the judgeship in this district he will first ascertain what Cass county has to say about the matter. —Nebraska City News.

Conductor Summers took Tom Ryan's train out yesterday and shortly after leaving Dunbar an old plug of a horse got on the track and refused to get off. To have bumped into the old plug would have made it

a \$100 horse, and the fireman had to get off the engine and give the plug a chase before the track could be cleared. —Nebraska City Press.

The Press this morning said that the nomination of Chapman was made unanimous. The Otoe county delegates say that nothing of the kind was done. It is merely a question of republican veracity. —Nebraska City News.

A Washington grand jury has recommended the reinstatement of the whipping post as a penalty for wife beaters and other petty criminals. It may be that these offenders need more severe punishment than is now accorded them, but a return to the semi-barbarian whipping-post is a step back from civilization which will not have the popular approval. —Bee.

THE republicans of the second judicial district renominated Judge Chapman yesterday in their convention at Nebraska City. In doing this they understand, of course, that they will have a vigorous fight on their hands to make it successful. Judge Chapman has unquestioned ability, and is a very pleasant gentleman socially; but he has for various reasons incurred very bitter enemies, especially among members of the bar, and his party will have a job of no ordinary character on its hands to elect him, no matter who the nominee is on the democratic side. The democrats of this county have indicated their preference for that office in the person of Basil S. Ramsey, county judge for the past three terms, who has made an exceptionally good record in that office, and in case he is nominated it will no doubt be a very pretty fight with the odds in the latter's favor.

IN the notice given of the candidates on the democratic ticket last week the fact was inadvertently omitted that Judge Archer is a member of the bar, having been regularly admitted after due examination, and would be a practicing attorney but for the fact that his official business as police judge and justice of the peace has for several years past in a great measure debarred him from taking cases at law. The fact that Mr. Archer has made such an exceptionally just and equitable justice of the peace and judge of the police court of the city as to satisfy men of all parties points him out as entirely capable and the proper man for county judge, independent of his being a lawyer.

OTOE county republicans are, according to the Nebraska City papers, very indignant at the delegates of the Cass county convention, who gave Judge Chapman the privilege to name his own delegation to the judicial convention, and they threaten to not go through the formality of naming delegates to that convention. They think, as a matter of courtesy, Otoe county republicans should have been consulted at least. Some of the leaders of the party are quoted as saying they will not support the judge at the polls, and if they carry out their threats, he may find it a close race this time if he gets elected. —Weeping Water Republican.

THE democrats in Cass county who this year vote for Judge Chapman will be few and far between.

Will Not Fight in Texas. Corbett and Fitzsimmons must find another place than Texas to pull off their fight for the proposed championship of the world. The legislature yesterday, by a vote that was practically unanimous in the senate and only a little less in the house, passed the bill prohibiting prize-fighting and thus accomplished the purpose for which the governor assembled the members in special session. The vote by which the bill was carried furnishes the strongest proof of the sentiment of the state with reference to prize-fighting.

The bill makes prize-fighting a felony and imposes a punishment upon the principals for every infraction of the law by imprisonment in the penitentiary for a term of not less than two and not more than five years. A dispatch from Laredo, Tex., says that "the representatives of the Florida Athletic club have completed arrangements with the owners of a bull pen across the river in New Laredo, Mexico, for an option of eight days' duration, the object being to secure a place for the Corbett-Fitzsimmons fight. The consent of the city authorities of New Laredo has been secured to permit the fight to take place. All that now remains is the approval of the governor of the state, Tamulpias, who is now being communicated with."
