The commission is to be composed

"Blanche was sick for over three years. She had the care of the best physicians procurable, and no expense or trouble was spared to give her relief. She was so thin that she was fairly skin and bones, her digestion was out of order and she had the most awful headaches. We gave up all hope of her recovery. Her long, thin, listless face made me nearly half crazy, and we did every thing in our power to give her strength and induce her to take an interest in anything.

"One day a friend told me about the Pink Pills, and Mr. Hartness went down town and got three boxes She had taken about one box, when, to my mazement, one morning I heard her playing on the plane. I could hardly bedeve it, for it had been over a year since the piano had been opened.

"Soon she began to take short rides on her bicycle, and soon she went singing around the house, our own happy, hearty little daughter once more. 'She thinks nothing of a spin on her

wheel over to Mt. Clemens or Pontiac, and is as well as she ever was. "I had a girl living at our house who was a great sufferer from impoverished blood, and who received instant and

permanent relief from the use of one ox of the pills. 'If this information can be of any use

They are entirely harmless and can be given to weak and sickly children with the greatest good and without the slightest danger.
