His Seed Policy Denounced and Ridiculed in Turn-Vest Says the Devil Had a Grudge Against the Democratic Party and in a Spirit of Revenge Inflicted It with Morton-Irony, Sarcasm and Rid-

Sensational Words in the Senate.

WASHINGTON, Feb. 7 .- The most caustic utterances heard in the senate since Mr. Tillman's sensational speech was that of Mr. Vest arraigning Secretary of Agriculture Morton vesterday. The general satire and ridicule directed against the secretary, and the allusions made to the president, made the speech hardly less notable than that which startled the senate. Mr. Vest referred derisively to "the colossal intellect dealing with cabbages."

At one point the senator said: "The secretary of agriculture charges from his office, reminding us of what Cicero says of Cataline's flight from the senate: 'Ab it excessit evasit erupit.' (Laughter). When the secretary of agriculture hears of a silver lunatic he is like the warhorse in Job, his neck is clothed with thunder. You might go further and say, 'He saith among the prophets, ha, ha; and he smelleth the battle afar off, the thunder of the captains and the shouting."

Mr. Vest severely criticised the practice of furnishing costly flowers from Government greenhouses for the receptions at the Executive mansion, and added: "Sir. I would rather give twice the amount of this appropriation to enable some poor man in a distant county of the West who is fighting the hard battle of life; I would rather give him something that would make his cheerless home comfortable and bring light to his fireside. I would rather put one flower in the sick room of a noble working girl or matron than to have it said that I had voted a hundred and odd thousand dollars for the flowers and exotics to go to the receptions and banquets of the officials of this Government, where the chandelier flashes its light across the red wine and the air is fragrant with perfume like the spicy breeze of Araby the blessed." Mr. Vest referred to the "bugie

blasts" from the Secretary of Agriculture as to the congressional extravagance in distributing seeds.

The Democratic party has been most unfortunate," said the Senator, with emphasis, "not only as to its internal discords, but also in the grudge and has paid it in a secretary of agriculture.

'The Secretary had," continued Mr. Vest, "put the Democratic party in antagonism to the great agricultural interests of the party, although that party had always stood as the close friends of agriculture.

The gigantic intellect of this secretary of agriculture has daily gone outside of his legitimate duties and why did it not discover some of the really flagrant abuses?"

"This secretary," proceeded the Sen-ator, "has assumed to run the entire government. He has been practically the secretary of the treasury, flooding this country with reports and pamphlets denouncing the silver lunatics and upholding the single gold standard." sounded a warning in the Senate. He compared this with a New York publication threatening revolution unless to the gold standard.

"The trouble is," said Mr. Vest, "that the secretary of agriculture is a monomaniae on the gold standard. He sees only gold, gold, red gold, and he thinks any man who does not see as he sees is a lunatic.'

Mr. Vest closed shortly after 2 o'clock with a remarkably sarcastic and bitter peroration. He referred to the useless seeds, which it was asserted the secretary had properly refused to buy. "But," added the Senator, "there was one seed not mentioned. "It was," he proceeded, smiling

maliciously, "the aurefur feniculm canes mortonae, or, in plainer words, Morton's golden dogweed. This would flourish while the secretary, swinging his golden censor at the executive gether against the Quay motion the \$101.0776; 4 per cent, \$100. mansion, shouted his holy, holy, art thou, oh Grover, King of Kings and Lord of Lords.

Mr. Teller, Republican, Col., took occasion during the debate to refer to the success of the bond issue. Large as the offerings were, they would have been larger if the secretary of the treasury had received bids at a fixed price for the bonds. Clumsy and awkward as this bond submission had been, lacking the essential features of a popular loan, yet it completely answered those who had talked of the necessity of looking to foreign syndicates to sustain our credit.

The debate on distributing the appropriation bills ran through the enire afternoon and was not concluded when, at 4:30 o'clock, the senate went | ufacturers of white pine lumber is into executive session, and at 5:50 ad-

Stuart on the Fight Situation.

EL ASO, Tex., Feb. 7 .- "No power stop these fights," said Dan A. Stuart when informed of the passage of an anti-prize fighting bill by the House of Representatives. "They are coming off just as they were advertised. You can say for me that so sure as the principals are alive and in condition to get into the ring on the date set for the contests, so sure will vocal culture in New York, was de- \$62,315,400, for which the syndicate they fight, and fight to a finish. If anyone sees fit to doubt this, I will lay four to one for any part of \$50,060."

Massachusetts Indorses Morton's Action. WASHINGTON, Feb. 7. - Secretary Morton has received the following letter: "Boston, January 15, 1896,-To the Honorable Secretary of Agriculture, Washington, D. C.: At the anaual meeting of the Bay State Agri-sultural society held this date, the following was unanimously adopted: "Resolved, That the Bay State Agripultural society heartily approves of the action of Secretary Morton in stopping seed distribution, and hereby condemns the old system of seed distribution to members of Congress as an extravagant, unnecessary and wasteful use of the public money."

Catron's Prize Fight Bill Rushed Through

the Senate and Ready for the President. Washington, Feb. 7 .- The Catron bill to prohibit prize fighting in Federal territory, passed by the House yesterday on the urgent request of Delegate Catron of New Mexico, was sent to the Senate to-day. It was passed without division. To-morrow it will be sent to the President and it is deemed certain that it will be signed promptly, thus making it a law and operative immediately. With this law on the statue books the whole government authority, judicial and if neces-

that the prize fight is stopped. The full text of the anti-prize fight bill is as follows: "That any persons who in any of the territories or the District of Columbia, shall voluntarily engage in a pugilistic encounter between man and man, or a fight beanimal, for money or for things of | are of doubtful authenticity. value, or for any championship, or upon the result of which any money or anything of value is bet or wagered, or to see which any admission fee is charged, either directly or indirectly. shall be deemed guilty of a felony and upon conviction shall be punished by imprisonment in the penitentiary for not less than one year nor more than five years.

"By the term 'pugilistic encounter. as used in this bill, is meant any voluntary fight by blows by means of fists or otherwise, whether with or without gloves, but when two or more men for money or for a prize of any character, or for any other thing of value, or for any championship, or upon the result of which any money or any thing of value is bet or wagered, or to see which any admission fee is charged, either directly or indi-

COULD USE \$25.678,860

Secretary Lamont Says That Sum Would

Provide Needed Coast Defenses. WASHINGTON, Feb. 7 .- Secretary of War Lamont has sent to the Senate a statement of the amount of money which could be used advantageously in coast defenses. He says \$25,678,360 could be used by the department prior | issue of \$100,000,000 at 110.6878. to July 1, 1897, of which amount \$4,-722,000 should be made during the present fiscal year. He recommends that \$15,807,000 be designated for fortifications, \$1,000,000 for sites, \$2,000,000 for submarine defenses and \$6,316,850 for guns, mortars, projectiles, etc.

The special advantages of the increased appropriations as enumerated by the secretary are: The utilization of the army gun factory to its full capacity, the more rapid armament of fact that the devil has owed us a our fortifications, the addition of twelve mortars and carriages to those already estimated for, the purchase of an additional 500 deck piercing shells and the supply of heavy material for siege service.

THE BOND ISSUE

Morgan's Syndicate Will Get a Large Portion of the New Loan.

WASHINGTON, Feb. 7 .- The work of scheduling and classifying the bids opened yesterday was resumed to-day ments of ten per cent each and acand until the task is completed no information of an exact and definite character can be obtained as to the amounts bid for at each of the several rates, or as to how low a rate will be Mr. Vest said the Senator from accepted. The bid of J. P. Morgan South Carolina, (Tillman) had been and his associates undoubtedly will be called a communist because he had accepted for a large amount, variously estimated at from \$45,000,000 to \$55,-000,000. In any event all legitimate bids at a rate above that submitted by Senators and Representatives yielded | Mr. Morgan (110.6677) will be accepted and all below that rate will be rejected.

ecretary Carlisle Highly Pleased Over Results-Several Days Will Elapse Before Bids Can Be Classified and Scheduled-The Offerings of the Big Trust Companies.

Bids for the Bonds. WASHINGTON, Feb. 6.-The secretary of the treasury to-day opened the bids for the purchase of \$100,000,000 United sary military, will be invoked to see | States four per cent thirty year bonds, which had been received under his

call, dated January 6, last. The total number of bids received for the new loan is 4,640, aggregating \$558,269.850. This number and amount. do not include three bids of \$100,000,tween a man and a bull, or any other | 000, \$16,000,000 and \$3,000,000 which

> Secretary Carlisle was greatly pleased at the success of the loan and said that it showed what the people of this country would do when appealed to. He thought, too, that the effect abroad would be very marked in

> The Secretary said it would be three or four days before the bids could be verified, scheduled and classified and antil that time he could give no definite information as to how low bids would be accepted. He believed, however, from hearing the names and amounts read, that it would be necessary to accept some bids at a rate slightly lower than 111, but how much or in what amount he could not now

> As the last bids were being read, the Secretary was shown a telegram just then received by one of the New York bankers present, saying that the new bonds were being quoted on the stock exchange at 116.

The great success of the issue he thought would have a very beneficial effect upon the financial and commercial interests of the whole country and he looked forward to a year of marked business improvement.

J. Pierpont Morgan. Harvey Fisk & Son, and the Deutscher bank of Bertin, as a syndicate, bid for the full

The Guarantee Trust Company of New York bid \$1,400,000 at 110; Hank of Montreal \$1,500,000 at figures ranging from \$107% to 110; Lazard, Freres & Co., \$250,000 at figures ranging from 110.7 to 111.55; Rollins, Morse & Co. of Boston, \$1,000,000 at 106,127; Robert Treat Paine of Eoston, \$1,000,000 at 105.127; People's Savings bank of Providence, R. I., \$200,000 at 108; L. Cahill, jr., of Jersey City, \$1,000,000 at

THE NEW LOAN.

The bonds, which are redeemable in soin, will be issued in denominations of \$50, or multiples of that sum, as may be desired by the bidders. United States gold coin or gold certificates only will be received in payment for the bonds. Under the terms of the Secretary's circular calling for bids, the first payment of twenty per cent and accrued interest, must be made upon receipt of notice of the acceptance of the bid. The remainder of the amounts bid must be paid in installcrued interest at the end of each fifteen days thereafter. Accepted bidders, however, are allowed to pay the whole amount of their bids at the time of the first installment, or at any time previous to the maturity of the last installment, provided that all previous installments have been paid.

The bonds will be dated February 1, 1895, to run thirty years from that time, and will, therefore, mature February 1, 1925. According to the calculations of the actuary of the Treasury, a bidder in order to realize 2 1-2 per cent interest on his investment. should have offered \$130,8749 for each \$100 in bonds bid for. To realize higher rates of interest, bids should have been made as follows: 2 3-4 per cent, \$124.9234; 3 per cent, \$119.3229; 3 1-16 per cent, \$117.9749; 3 1-8 per cent, \$116.6471; 3 3-16 per cent, mit the silver substitute for the House \$115.3391; 3 1-4 per cent, \$114.0506; tariff bill so as not to include instruc- 3 5-16 per cent, \$112.7814; 3 3-8 per tions to the committee, and at his own | cent, \$111.5310; 3 7-16 per cent, \$110.1992; 3 1-2 per cent, \$109.0856; The Populist Senators have decided | 3 9-16 per cent, \$107.8900; 3 5-8 per in caucus to vote solidly against re- cent, \$106.7121; 3 11-16 per cent, committing the silver substitute for \$105.5516; 33 a per cent, \$104.4082; the tariff bill to the committee on 3 13-16 per cent. \$103.2816; 3 7-8 per finance. Dr. Edson of New York, Makes an Important Discovery.

NEW YORK. Feb. 8 .- Dr. Cyrus Edson, who was at one time commissioner of health of the city and county of New York, and who has been for years one of the well-known contributors to the leading magazines, publishes an article in the Medical Record under the following title: "A Rational Treatment for Phthisis Pulmonalis, Together With Some Notes on a New Remedial Solution." Under this headline comes the description of a discovery made by Dr. Edson, which, it is said, may solve the hitherto unsolved problem of the cure of tuberculosis.

he produced a fluid which he calls aseptolin. It is perfectly colorless, looks like crystal, and smells strongly of carbolic acid. It contains 2.75 per cent of carbolic acid, and to every ounce of it there is added one-hundredth of a grain of a new salt discovered by Dr. Edson during his work, a salt cailed pilocarpin-phenly-hydroxide. The aseptolin is injected under | dispatch the more impressed I am that the skin, and thus directly into the blood. The dose is 100 minims, or drops, injected with a hypodermatic syringe once in twenty-four hours.

Tuberculosis - consumption - is & germ disease, being caused by what are called the tubercle bacilli. Dr. Edson discovered aseptolin in September, 1895. To date 217 persons having consumption have been treated with it. Of these, four showed no improvement, and of the four one died. The rest, 213, showed improvement. Of these, 23 have been discharged cured; 67 will, in the opinion of the physicians having the cases, be discharged cured, making 90 in all. In 91 cases the patients have been under treatment for too short a time to enable the attending physicians to say saything except the patients are better. In 32 cases the improvement was only temporary, but this record means about 40 per cent of cures, and these cases have been those of patients with the disease in all stages.

About fifty physicians in the counry have procured aseptolin from Dr. Edson's laboratory, and are using it in their practice. It has cured every case of malaria and la grippe in which it has been tried, seventy-seven in all of malaria and fifty one of la grippe. After all, it is merely what Dr. Edson calls it: "A Rational Treatment." It is killing germs inside the body, just as they had been killed outside ever since the first colony was cultivated, and it is using for the purpose the agent nature herself creates of secretes to do this work. Upon authority of Professor Henry A. Mott, aseptolin is composed of: Water, 97.2411 per cent; phenol, 2.7401 per cent; pilocarpin-phenly-hydroxide, 0.0188 per cent.

CURE FOR CONSUMPTION. STANLEY WITH AMERICA.

The Explorer Says British Public Opinion Is Coming Round to Arbitration.

New York, Feb. 6.-Henry M. Stanley, the African explorer, now a member of the British Parliament, has written a letter to Major J. B. Pond of this city, on the Venezuelan question. In the letter Mr. Stanley says: "I am entirely on the side of America, but I must admit that I am not surprised that the English papers backed up Salisbury Taught by the virulent whatever the transgressions of Olney. Post. there is a great deal of justice in the American demand. I feel quite sure now that it will not be long before the opinion becomes general that we were in the wrong in refusing arbitration, while the more I think of Olney's Olney could scarcely have written otherwise than he did.

A CHARITY WRANGLE

The House Strikes Out Appropriations for Catholic Institutions.

WASHINGTON, Feb. S .- The House was the scene of another wrangle yesterday over appropriations for charitable institutions of the District of Columbia while the District bill was under consideration, and among other things the A. P. A. came in for a strong denunciation. General Henderson of lowa made a fiery speech, attacking amendments offered by Mr. Hainer of Nebraska, taking appropriations away from the sectarian institutions of the District and giving them to the Public Charity Board for distribution. Democrats and Republicans chimed in on both sides and considerable feeling was aroused.

The appropriation for six religious charitable institutions, one Episcopal and five Catholics, for the care of orphans and helpless aged, were stricken out, but the amendments to strike out I could not make up my mind to try the appropriations for other private institutions, including the Young Women's Christian Home, the Hope and Help Mission, etc., were defeated.

Objects to Mr. Cleveland as Arbitrator. RIO JANEIRO, Brazil, Feb. 6 .- It is reported here that Bolivia is unwilling to accept Brazil's proposal that President Cleveland arbitrate as to the lines of delimitation between the two countries named.

Manning's Papers Suppressed.

LONDON, Feb. 6. - The Chrenicle learns that the Jesuits have succeeded in suppressing the papers which the late Cardinal Manning intended to be published after his death, dealing style, which is fitted down to the waist

PARALYSIS.

From the Press, New York City. Morris Preslaner of No. 1 Pitt Street, New York, who is a real estate agent and collector of rents, caught a severe cold early last spring, which settled upon his kidneys. Soon he began to suffer severe pain in his backbone, sides and chest. His symptoms grew rapidly more alarming, until at last he was as helpless as a child, and could scarcely move as he lay on his bed.

Though a native of Berlin, Mr. Presremarks of your journals. I had of laner has lived in this country for forty course devoted much time to un- years, having served the country of his derstand it, whereas English ed- adoption by three years' hard service itors were exceedingly ill informed. in the civil war. He enlisted with the Then there are two or three inju- Nineteenth Illinois Infantry, taking dicious remarks in Olney's dispatch part in many battles and marching with After a long and tedious experiment | which puts British backs up, but after | General Sherman to the sea. He is now reflecting it is wonderful how many a member of Koltes Post, G. A. R., and have come round to my opinion that is one of the most popular men in the

Mr. Preslaner told a reporter the story of his dreadful illness and wonderful recovery. The reporter met him as he was returning from a long walk, and, saying that he had heard of his won-derful cure, asked him to tell the story. His words were as follows: "To begin with, I was taken sick just a year and a month ago, having taken a severe cold which settled on my kidneys. At first I thought the pain that I had suffered would soon pass away, but, instead of doing this, it grew more intense every day, so that in a week I could walk only with considerable difficulty.

"I called in a doctor, who said I had locomotor ataxia and began treating me for that disease. He did me no good, and all summer long I could scarcely attend to my business at all. Then I called another doctor and took his medicine for several weeks, but experienced no relief. Dr. Truman Nichols, of No. 287 East Broadway, whom I at last called in, helped me more than any of the other doctors, but along towards fall I grew worse despite his treatment.

"Early in November the little strength I had in my legs left me and I was unable to stand. The pain in my back and sides became almost unbearable, and my limbs grew cold. An electric battery I bought failed to help me, and for weeks I felt myself gradually growing weaker until all hope left. "Some time before this I had read of

a wonderful cure a man had received from Dr. Williams' Pink Pills for Pale People, but was so prejudiced against what I thought was a patent medicine of the usual worthless character that them. As my pains increased and death seemed coming near, I thought of what I had read and of the symptoms of the man who had been cured. They were precisely the same as mine, and at last, with my wife's earnest entreaty, I consented to try the Pink Pills.

"I am now convinced that these pills saved my life. Gradually my strength began to return, the desire to live grew stronger within me. After having taken WASHINGTON, Feb. 6.-The District three boxes I left my bed. This was legs had gone away. I was still very weak, but before I had taken the fourth box I was able to get down stairs for a short walk in the open air. Now I feel as if I had been born again and am as happy as a child.'

All diseases, such as locomotor ataxia, St. Vitus' dance, partial paralysis, sciatica, rheumatism, neuralgia, nervous headache, palpitation of the heart, effects of la grippe, pale and sallow complexions, and all forms of weakness, either in man or woman, disappear when Dr. Williams' Pink Pills for Pale People are taken. Pink Pills can be bought of any dealer, or will be sent post paid on receipt of price (50 cents a box, or six boxes for \$2.50-they are never sold by the hundred or in bulk) by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

We can only do our lest when we are sure we are right.

IOWA PATENT OFFICE REPORT.

DES MOINES, February 3 .- Patents were allowed to Iowa inventors last week as follows: To Miss C. J. Cramer, of Griswold, for a reversible board for ironing sleeves. One side is convex and adapted for the outside seam and the other side is concave and adapted LIVE STOCK AND PRODUCE MARKETS for the inside seam. To W. P. Jones, of Des Moines, assignor to M. M. Scoville, for an apparatus adapted for cleaning tubes and comprising an air pump, means for producing an air-tight connection with the discharge tube of a wash bowl, and means for closing the overflow vent while the pump is operated to force air into the discharge tube as required to remove obstructions by air pressure. To Wm. Crabb, of Des Moines, for an invention, the object of which is to produce a simple, strong and durable wire fence, in which the posts are composed wholly of sheet metal bent into proper form and adapted to be driven into the ground and firmly held therein and to have fence wires quickly and securely connected thereto. To H. Linton, of Des Moines, for a kitchen cabinet adapted to retain most of the articles required in family cooking in convenient accessible positions to facilitate the practice of the love of order expressed in the saying "a place for everything and everything in its place." Practical, tidy housekeepers will be the best judges of the merits of the invention, and we take pleasure n commending it to their aftention. Valuable information about obtaining, valuing and selling patents sent free

> of 25 cents. THOMAS G. AND J. RALPH ORWIG, Solicitors of Patents.

Oklahoma-

No little interest is centered in the result of congressional action on the matter of statchood for Oklahoma and the Indian country.

One thing is self-evident to all well posted persons, and that is, if the two territories were united into one state, its almost unlimited mining industries and extensive and rich agricultural area would make it rank well up among the richest states of the union.

Dresden china patterns are in new dotted Swiss muslins that have very light grounds wrought with tiny dots of the same color. Pretty Dresden rib-

bons trim these gowns. New French outing cloths, light of weight and pleasant to the touch, are selected for mountain and seaside dresses in preference to the more woolly

outing flannels so long popular. All capes, if they are fashionable, are very short and show the waist line below, unless they are made in a later with the Society of Jesuits and their at the back and front, with long stole ends reaching to the knee.
