

A HISTORY OF THE PRECIOUS METALS

From the Earliest Times to the Present;
By Alex Del Mar.

Second Ed., Complete in One Vol.; pp. 500, 8vo. CLOTH AND GOLD, \$3.00

This is not a recension of the first edition (London, 1880), but an entirely new work, constructed on an improved plan by the same author. The following are from the press notices of the first edition:

Abounds with vivid description and practical knowledge.—*London Athenaeum*.
Replete with information; evinces much care and study.—*London Academy*.
Shows the most conspicuous advance beyond his predecessors.—*London Saturday Review*.

A work of great weight and elegance of style.—*London Economist*.
No such able and exhaustive work since that of William Jacob.—*London Statist*.
Years ago Mr. Del Mar gave to the public "A History of the Precious Metals" which has since become a standard work on the subject. In that work was traced the adventures of the Phoenicians, Romans, Spaniards, Californians and Australians—those Argonauts who variously from the dawn of history to the present time, have led the search for the precious metals. Beside discovery, the author showed that these metals had been largely obtained through conquest and slavery. The Persian, Greek, Roman, Egyptian, Spanish, and British conquests of mining countries, and the Roman and Spanish systems of mine slavery, were next delineated, and finally the conditions of free mining were examined. Upon a general review of the entire subject, the author found ample reason to agree with the celebrated dictum of Montesquieu, that upon the whole, gold and silver, when obtained by free mining and paid labour, had cost to the world a far greater price than they represented in the exchanges. Montesquieu arrived at this conclusion by instinct; Mr. Del Mar reached it through historical research.—*Sacramento Record-Union*.

Mr. D. has thoroughly surmounted every obstacle, and furnished a volume replete with information. Every line will be read.—*London Mining Journal*.
A complete text-book on the subject.—*London Money*.

Based on independent research.—*London Daily News*.
Of the highest scientific value, yet readable as a novel.—*New York Economist*.
The peculiar advantages which Mr. Del Mar has enjoyed have alone enabled a work of such magnitude and historical value to be completed in a single lifetime. He has traveled into every country whose monetary system he has delineated; he has examined the official records, consulted the local histories and numismatic monuments, surveyed the gold and silver mines and traced the mining rivers, in each of them separately; and by the light of these researches he has been enabled to construe many obscure passages in the texts of Caesar, Pliny, Plutarch, and other ancient writers. Mr. Del Mar's works are valuable contributions to the small amount of literature that has been published on such important subjects, and they are the more useful because they are devoted to the setting forth of facts, and not to the upholding of any particular theories.—*London Financial News*.

Next to its versatility and vast scope, the absolute impartiality of the work is perhaps its most striking feature. It advocates no theories, it indulges in no deductive arguments, it is strictly historical, and it is history of the highest order, fit to rank with the works of Gibbon, Robertson, Alison, Macaulay, Niebuhr and Mommsen.—*Bulletinist*.

"Rarely has a book fresh from the press attracted so much attention," says the *New York Press*. In all sections of the country has appeared column after column—and even whole pages—concerning

**DR. JOHN H. GIRDNER'S
GREAT BOOK**

NEWYORKITIS

DENVER—The *Republican* says:

"New York is writhing under the keen thrusts which have been given it by Dr. John H. Girdner. That is, New Yorkers are imagining that every other fellow is referred to when the doctor caustically describes the average New-yorkitic."

NEW YORK—The *World* says:

"Important contribution to medical and social science."

CHICAGO—The *Evening Post* says:

"The author discusses his theme with perfect good nature and a trim restraint throughout, and his pages are well worth study, even outside of New York."

MR. WEBSTER DAVIS' BOOK

THIS work is the outcome of a visit to the Transvaal, made by Mr. Webster Davis while he was Assistant Secretary of the Interior, under Mr. McKinley's first administration, and as the result of which he broke his relations with the Republican party and affiliated himself with the opposition. The author vehemently arraigns the British government for the Transvaal war. Whether the reader agrees with the author or not, he will be interested in his presentation of the Boer side of the case. Milton said that truth could not suffer so long as she was left free to combat error.

John Bull's Crime,

—OR—

Assaults on Republics

"Strike, but hear," is a familiar saying. No one knows his own side of the case until he also knows the other side.

For all these reasons, no matter what opinion the reader may have formed of the South African war, he will be the gainer from a reading of this book.

The illustrations are worth alone more than the price of the work. They were all taken on the spot, either by Mr. Davis or by some of his friends, and they certainly form a unique collection of South African pictures. They are in all styles, from "grave to gay, from lively to severe," and they have been faithfully and exquisitely reproduced in half-tone. Cloth, large octavo (6x9), 400 pages altogether, printed on coated paper, beautifully illustrated by over eighty full-page half-tones, attractively bound. Two dollars; carriage prepaid.
