Automobile Accident Insurance.

An automobile accident insurance association is about to be formed in New York city. Its object will be to insure its policy holders against accidents and to defend the innumerable lawsuits which have been brought against motorists all over the country, often on very slight provocation.

There have been times when the wild beasts have been more merciful than

human beings, and spared the woman cast to them in the arena. It is astonishing how little sympathy women have for women. In the home the mistress sees the maid with the signs of suffering she recognizes so well, but she does not lighten the sick girl's load by a touch of her finger. In the store the forewoman sees the pallor and exhaustion which mark womanly weakness, but allows nothing for them. It is work or quit.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well, by curing the womanly diseases which undermine the health and sap the strength. "Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"When I first commenced using Dr. Pierce's medicines," writes Mrs. George A. Strong, of Gansevoort, Saratoga Co., N. Y. "I was suffering from female weakness, a disagreeable drain, bearing-down pains, weak and tired feeling all the time. I dragged around in that way for two years, then I began taking your medicine. After taking the first bottle I began to feel better. I took four bottles of Dr. Pierce's Favorite Prescription, two of 'Golden Medical Discovery,' one vial of the 'Pleasant Pellets,' also used one bottle of Dr. Sage's Catarrh Remedy. Now I feel like a new person. I can't thank you enough for your kind advice and the good your medicine has done me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

Boer and Briton.

Atlanta Constitution: The king could not move Buller, so he removed him.

St. Paul Globe: England wants more troops. But the old ones are not yet paid.

Nashville American: General Buller should send his mouth to the guard-house.

Houston Post: Buller will now have ample time to reflect on the diplomatic things he might have said.

Philadelphia Public Ledger: The British in South Africa are diligently hunting the Boers, and the Boers are successfully finding the British.

Minneapolis Journal: British agents are buying several more shiploads of Missouri and Texas mules for South Africa. No wonder so many Tommy Atkins are carrying around Victoria medals and assorted contusions.

Chicago Inter-Ocean: It is hoped by King Edward and his court that the Boer war will be over in time for the coronation, but the Boers are a stiff-necked race, and they do not seem to care whether the coronation comes off or not.

Washington Times: It is pretty certain that Buller is not worthy of all the blame he has received. There is not much doubt that a large share of it ought to be unloaded from his shoulders and distributed among imbeciles at home and inefficient who were with him in Natal.

Pittsburg Dispatch: Sir Michael Hicks-Beach, the chancellor of the exchequer, upon whom devolves the finding of the money, is reported to have formed a strong party within the cabinet itself which is in favor of offering terms to the enemy. But what terms can be proposed which the Boers can accept and which England, without grave loss of prestige, can submit?

Philadelphia North American: Several Boers have been court-martialed and shot in South Africa for wearing khaki, which is notice to the world that in order to secure belligerent rights the enemies of Great Britain must not only conduct their campaigns along lines laid down for them by British commanders, but must wear clothing approved by the British. The next step in order will be to forbid the Boers to use captured Lee-Metfords and to shoot all who are captured with British cartridges in their belts. Chamberlain's suggestion of greater severity in dealing with the Boers is obviously unnecessary.

Perils of Civilization.

If we are to be driven to the hard labor of opening oysters for the sake of avoiding preservative and to milking cows to keep clear of formaldehyde, it is evident that the highest civilization has not lightened our burdens, but rather added to them. By the way, embalmed beef has gone out of fashion, hasn't it?—Detroit Free Press.

A Tiny Planet.

The astronomer in charge of the Harvard Observatory, at Arequipa, Peru, announces that he has succeeded in obtaining four photographs of the recently discovered planet Eros. This tiny orb—a veritable toy world, it might be called—is only about nine miles in diameter. One reason for the interest attaching to it is that it is the nearest to the earth, and nearest likewise to the sun, of all the minor planets. In 1894 it was only 15,000,000 miles away from us, a mere trifle of distance from an astronomical point of view, and this month it will approach within 8,000,000 miles.
