

son, Alexander Graham Bell and Representative John Dalzell.

The board of regents, of which the presiding officer ex-officio, is president Roosevelt, is constituted as follows: Chancellor, Melville W. Fuller, chief justice of the supreme court; Vice President Charles W. Fairbanks, Senators Shelby, M. Culom, Henry Cabot Lodge and Augustus O. Bacon, Representatives John Dalzell, James R. Mann and William M. Howard, Citizens James B. Angell, Ann Arbor, Mich; Andrew D. White, Ithaca, N. Y.; John B. Henderson, Washington, D. C.; Alexander Graham Bell, Washington; Charles F. Choate, Boston; Judge George Gray, Wilmington, Del.

While President Roosevelt will pay his personal expenses and those of his son, "these are trifling compared with the whole cost of the expedition, which may reach \$25,000. Congress appropriated \$100,000 last year to defray expenses of adding to the collection of specimens of the institution.

Director Walcott was asked today if he had contemplated an African expedition before the president made up his mind to go hunting.

"I heard of the president's plan last summer. I was asked to cooperate with him, as we had long wanted a collection from Africa in

Charcoal Purifies Any Breath

And in Its Purest Form Has Long Been Known as the Greatest Gas Absorber

Pure willow charcoal will oxidize almost any odor and render it sweet and pure. A panful in a foul cellar will absorb deadly fumes, for charcoal absorbs one hundred times its volume in gas.

The ancients knew the value of charcoal and administered it in cases of illness, especially pertaining to the stomach. In England today charcoal poultices are used for ulcers, boils, etc., while some physicians in Europe claim to cure many skin diseases by covering the afflicted skin with charcoal powder.

Stuart's Charcoal Lozenges go into the mouth and transfer foul odors at once into oxygen, absorb noxious gases and acids and when swallowed mix with the digestive juices and stop gas making, fermentation and decay.

By their gentle qualities they control beneficially bowel action and stop diarrhoea and constipation.

Bad breath simply can not exist when charcoal is used. There are no ifs or ands about this statement. Don't take our word for it, but look into the matter yourself. Ask your druggist or physician, or better still, look up charcoal in your encyclopedia. The beauty of Stuart's Charcoal Lozenges is that the highest pharmaceutical expert knowledge obtainable has been used to prepare a lozenge that will give to man the best form of charcoal for use.

Pure willow and honey is the result. Two or three after meals and at bedtime sweeten the breath, stop decay of the teeth, aid the digestive apparatus and promote perfect bowel action. They enrich the supply of oxygen to the system and thereby revivify the blood and nerves.

Stuart's Charcoal Lozenges are sold everywhere in vast quantities, thus they must have merit. Every druggist carries them, price, twenty-five cents per box, or send us your name and address and we will send you a trial package by mail, free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

the museum," he replied. "If the president wants his personal expenses paid," said a member of congress tonight, "I am willing to vote for providing a one-way ticket to the darkest place in Africa. I do not believe the house would give the money for a round-trip ticket."

A War of Words, between President Roosevelt and J. Pierpont Morgan concerning railroad, tariff and

Great Fences

AMERICAN FENCE

Made of wire that is all life and strength—wire that stretches true and tight and yields just enough under impact to give back every jolt and jam it receives.

Made of materials selected and tested in all the stages from our own mines, through our own blast furnaces and rolling and wire mills, to the finished product. Our employment of specially adapted metals is of great importance in fence wire; a wire that must be hard yet not brittle; stiff and springy yet flexible enough for splicing—best and most durable fence material on earth.

To obtain these and in addition apply a quality of galvanizing that will effectually protect against weather conditions, is a triumph of the wiremaker's art.

These are combined in the American and Ellwood fences—the product of the greatest mines, steel producing plants and wire mills in the world. And with these good facilities and the old and skilled employes back of them, we maintain the highest standard of excellence possible for human skill and ingenuity to produce.

Dealers everywhere, carrying styles adapted to every purpose. See them.
