NEWS OF THE WEEK

(Continued from Page 12)

Henry Seligman, at one time one of the best known financiers in the United States, died at Frankfort-on-the-Main, Germany. In the civil war it was Seligman's firm that took up some of the heaviest government bond issues.

By a vote of three to two the sub-committee in the senate, which has been investigating the merger of the Tennessee Coal and Iron company, decided to report to the full committee that the president was not authorized to permit that absorption. The committee also found that Mr. Roosevelt had no right to direct the attorney general not to interfere with the merger and it was also declared that the merger was in violation of the Sherman anti-trust law and should be proceeded against accordingly. The sub-committee was composed of Senators Clark of Wyoming, Dillingham and Kittridge, republicans, and Culberson and Overman, democrats. Kittridge voted with Culberson and Overman for the report.

The Hill and Harriman interests are at war before the interstate commerce commission. An Associated Press dispatch says: "The contest, which is regarded as one of the most important which has come before the commission in years, is to enforce an order of the commission directing the Northern Pacific railroad to participate with the Harriman lines in making a through rate from Missouri and Mississippi river points into Portland, Ore. One of the important points involved in the controversy is the right of the commission to compel competing railroads to join in making through rates."

An Associated Press dispatch from Washington, D. C., says: "Miss Emily Virginia Mason, of a famous Virginia family who won fame during the civil war as a nurse of confederate soldiers, and who administered to union soldiers at Libby prison, died in this city, aged ninety-four. Stephen Thompson Mason, first governor elected in Michigan, was her brother and her father was General John Thompson Mason, first territorial governor of that state. Miss Mason, who was born in Lexington, Ky., was commissioned by President Davis of the confederacy to organize hospital camps during the war."

Sixty villages were destroyed and from five to six thousand people killed in an earthquake in the province of Luristan, western Persia, recorded January 23.

By a unanimous vote the house of representatives adopted the bill giving statehood to Arizona and New Mexico. The measure will be fought in the senate.

W. W. Ramsey, former president of the German National Bank of Pittsburg, was found guilty on the charge of bribing a city councilman. Ramsey was accused of giving the councilman \$17,500 in order to secure the passage of an ordinance making his bank a depository for city funds.

The convention called by James W. Van Cleave, president of the national association of manufacturers, to agitate the appointment of a permanent tariff commission and the "divorce of the tariff from politics," met at Indianapolis.

WHAT THE WORLD'S BIGGEST USERS SAY ABOUT CREAM SEPARATORS

Lincoln, Nebraska, November 11, 1908.
When we first began in the creamery business we operated several hundred skimming stations and had in use a large number of the various makes of power separators. Owing to the all-around superiority of the De Laval Separators we found it necessary to replace all other makes with the De Laval and this proved one of the best investments that we ever made.

During the years 1901 and 1902 the hand separators came into very general use and our thousands of patrons naturally looked to us for advice as to the most efficient and most durable separator for them to buy. Realizing the necessity of preventing, if possible, the sale of the so-called "just as good" and "cheap" separators we secured the agency of the De Laval. With the wonderful record back of the De Laval machine, together with the positive proof we could show by actual demonstration, we were able in a few years to sell from twenty-five to thirty thousand of the De Laval Hand Cream Separators, and we are pleased to say that they have given universal satisfaction and are still in use, while most of the so-called "cheap" separators that a few of our patrons were foolish enough to buy have found their final resting place in the scrap pile.

At the present time we are not agents for any hand cream separator, but for the future good of our own business as well as the dairy industry, we are naturally anxious to see every dairymen who buys a hand separator buy the machine that will prove the best investment in the long run, and wide experience has taught us that when it comes to efficiency, durability and hard knocks the De Laval Hand Cream Separator easily stands in a class by itself.

Better Than Paint At One-Tenth The Cost

Our **REFINED TAR** is the best wood and metal preservative known. One gallon covers 300 square feet of surface. For dipping shingles, painting felt roofs, iron or metal surfaces. Our **REFINED TAR** has no equal. Especially adapted for painting barns, poultry houses, hog and cattle sheds, as it is a perfect germicide killing all mites and insect pests. Recommended by the State Experiment Station for laying dust and preventing mud in pig pens, thereby preventing coughs and other lung troubles. Black is the one color in which our **REFINED TAR** is made. The finish on metal is similar to Japan; on wood **REFINED TAR** soaks in like paint, preserving the wood. No samples are sent out, it is sold in small quantities. Try it. You will use nothing else. Write us today. **OMAHA GAS COMPANY 1837 South 26th St., Omaha, Neb.**
