

# NUXATED IRON

If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of NUXATED IRON three times per day for two weeks. Then test your strength again and see how much you have gained. Many people have made this test and have been astonished at their increased strength, endurance and energy. Nuxated Iron is guaranteed to give satisfaction or money refunded. At all good druggists.

## Lady Astor's Farewell Statement

A New York dispatch, dated May 23, says: Declaring that prohibition in the United States and several Canadian provinces has been a "big contribution" to the spiritual "regeneration of the world," Lady Astor today issued a farewell statement summing up her opinions on the dry question. She is scheduled to sail for home today.

Special workers had told her, she said, that the Salvation Army, social societies and churches now had a greatly reduced task as a result of the dry laws.

"When I balanced the result, offset the uplifting of the poor and struggling and the salvation which prohibition has brought to many wives and children, against the alleged degradation of some the rich, well, I have no doubt that the result for the country has been good," she continued.

Lady Astor declared that the only anti-American propaganda she has seen in England was engendered by liquor interests which have gone into politics over the liquor question. She said prohibition has shown itself not only a problem of social welfare but of clean politics as well.

## DIRT FARMER TO HAVE PLACE ON RESERVE BOARD

A Washington, D. C., dispatch, dated May 23, says: Agricultural members of congress have won their fight for the enlargement of the membership of the federal reserve board to make possible the appointment of a "dirt farmer."

The house today passed the bill providing for six, instead of five, appointive members of the board. The bill was substantially the form in which it was passed by the senate several months ago.

Before passing the senate bill with a minor amendment, the house rejected amendments from the banking and currency committee, which struck out the provision for enlarging the board and merely directed the President in making appointments to have due regard to representation of agriculture, as well as to finance, industry, and commerce.

In passing the bill enlarging the membership of the board the house went counter to the recommendations of Secretary of the Treasury Mellon and W. P. G. Harding, governor of the board, both of whom appeared before the banking and currency committee in opposition to any increase in the number of members.

The house restored the senate provision prohibiting the erection of buildings by federal reserve banks at a cost of more than \$250,000 without the sanction of congress.

## EDUCATOR WARNS CHURCHES

A Chicago dispatch, dated May 23, says: The church can no longer keep away from the issues of right and justice in the industrial world. Professor John P. Gray of Carlton college, Northfield, Minnesota, said today in an address before the National Conference of the Methodist church, in speaking on "Christianity and Economic Order."

"If the church remains neutral it becomes the representative of the small, powerful classes and ceases to have any influence with the mass of mankind," he said. "If it leans to the support of capitalism our civilization is doomed. The church has been the strongest agency for right and justice and in no other agency is there any hope today."

"Unionism has been banished from steel and oil industries, and with it the rights of assembly and free speech. These rights are fundamental if labor is to defend itself. Today

the combined interests are making an effort to drive unionism from the railroads and coal mines, and, in fact, from all other industries."

## CHURCH WILL INSURE PREACHERS AND LAY WORKERS AT COST

The Church Pension Fund, which was organized in 1916 to provide pensions for Episcopalian clergymen, has organized a life insurance company to insure both its ministers and lay workers. The company, which will begin with a capital of \$150,000, will furnish insurance at cost, and will be ready to begin business July 1.

Monell Sayre, executive vice-president of the pension fund, said yesterday that while the fund provided pensions for the clergy and their families, it did not take care of a large number of lay workers. The insurance plan was devised, therefore, not only to permit clergymen to make additional provision for their families, but to give to the lay workers an opportunity to take out at cost any form of policy usually offered by commercial insurance companies.

It is estimated that about 6,000 clergymen and 4,000 lay workers, including deaconesses, social workers, social service secretaries, medical missionaries and other who devote practically all of their time to church work, may take out policies.

Mr. Sayre said the present tax levied upon the parishes to provide for the pension fund is 7 1/2 per cent of the clergyman's salary, amounting to about \$850,000 a year. When the fund was begun in 1916 it had a capital of \$9,000,000, but this has now reached \$14,000,000.

While the pension fund is compulsory and is provided by the parishes, the insurance plan is optional with the individual. Policies will be limited to \$10,000.—New York Times.

## Rupture Kills 8,000 Annually

Eight thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance or whatever name you choose to call it? At best the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and all truss sufferers in the land are invited to make a FREE test right in the privacy of their own homes. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore cannot chafe or pinch. Soft as velvet—easy to apply—comparatively inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name today to PLAPAO CO., 1338 Stuart Bldg., St. Louis, Mo., for FREE trial Plapao and instructive information.—(c) P. L.

7 JEWEL 10 YR. CASE
