

# THE BODY FOUND

## It Had Floated Down to Brownville Since Sunday.

### HASTINGS' MYSTERIOUS MURDER.

Chairman Frick to be Arrested For Murder—The Adjusters For the Different Insurance Companies are Settling Up.

Coroner Curren was notified this afternoon that the body of a boy about 14 years old had been found in the river at Brownville at noon today. It is undoubtedly the body of Henry McCarthy, the boy who was drowned Sunday at Rocky Point. Mr. McCarthy being unable to go himself on account of sickness sent another member of the family down to identify the body and bring it back.

#### Found Dead in a Shanty.

The citizens of Hastings are all greatly shocked over the mysterious murder of Delvan S. Cole, an old and wealthy settler of that city. An examination of the body showed a bullet hole from a 38 of 44-calibre gun, behind and below the right ear. When found he was lying in an old deserted one-story house, a couple of hundred yards from his home. Mr. Cole was well off financially, being in about as comfortable circumstances as anyone in that city. Monday he received and handed considerable money, depositing a good sized amount in the First National bank and also sending a large sum away. He is the owner of Cole's park, one of the largest and by far the best improved park in Hastings.

Monday night at 10 o'clock, it is stated, he returned to his home and discussed with his wife the probability of there being any ruffians in the park, and according to his usual custom went east to close the gates of the park for the night. He did not return, and although Mrs. Cole went to bed she arose early in the morning and began searching for her husband.

A little later Mr. Cole was found in the shanty by a neighbor, Mrs. Hackman. This building was used for a tenement some time ago, but has now been deserted for a long time and not a pane of glass remains.

#### Frick to be Arrested.

John Cox, one of the attorneys for the amalgamated association, said last evening that warrants would be sworn out today for the arrest of Chairman Frick, Secretary Lovejoy, General Superintendent Potter and four or five under bosses at the Homestead steel works, charging them with murder.

Attorney Cox also said that Borough Solicitor Milliken is preparing a number of informations charging several of the militiamen now in camp at Homestead with having insulted the wives and daughters of some of the best citizens of the borough. The warrants cannot be served upon the militiamen, however, until they are discharged from service by the governor. Attorney Cox is an ex-solicitor for the borough and says that since the advent of the soldiers they seem to think that the Homestead ladies, whether of high or low degree, are the subjects of their pleasure. No lady can now pass along the streets without being the subject of slighting remarks or open insult.

Attorney Brennan, of the amalgamated association, yesterday made application before Judge Ewing for the appointment of a voluntary trade tribunal to settle the Homestead trouble. The petition was signed by seventy-six of the former employes.

#### Married.

Arbuthnot-Coon. At the City hotel, Plattsmouth, Nebraska, August 3, at 11 a. m., Mr. Walter Arbuthnot and Miss Martha E. Coon, both of South Bend, were united in the holy bonds of matrimony, Judge Ramsey officiating.

A warranty deed was filed today with Register of Deeds of Parmele from Ellen Lelocvicma Jednota Sokol of Plattsmouth. The above is the name of the Bohemian society who are going to build a large hall in the near future. The consideration was \$400.

LOST—A brown water spaniel dog with collar and tag on, will answer to the name of Carlo. Any one returning him to Jacob Kepple will receive reward.

#### Police Court.

Monroe vs. Smother. Judgment by default.

Henderson vs. Spencer was taken under advisement.

Murdock. Mr. John Wechrl has left for the windy west.

Evans & Hare sold two binders last week.

W. W. Moore sojourned in Omaha last Wednesday.

We were blessed with an all-day's rain last Thursday.

The extremely hot weather has caused sickness around here.

L. C. Eickhoff, our county treasurer, made us a visit last Saturday.

George V. Pickwell is getting the lumber for his new barn from Wolf & Tool.

The "first addition" to Murdock had to be platted by the town site company.

E. Cline, agent for the Townsite company, is here, in the interest of his company.

There are more chickens raised in Murdock than in any other town twice her size.

The elevator of Evans & Hare is receiving a coat of paint. Mr. John Carter is doing the work.

The Misses De von Lackurn and Mrs. Nicholas of Omaha are here attending the funeral of Mrs. E. T. Tool.

H. Clemme has his new residence, which he built last year, painted. George Baker of Elmwood did the work.

Wolf & Tool have received a carload of brick. They can now furnish anything in the line of building material.

Our blacksmith is suffering with a sore hand. He had to get help from Weeping Water, as he is overcrowded with work.

Martin & Tool are receiving an immense lot of goods. They are determined to get what the people want in general merchandise.

The funeral of Mrs. E. T. Tool occurred last Friday. The sermon was preached by Rev. W. H. Althous of Elmwood in the Evangelical church, two miles west of town. The large concourse of people following the remains to the cemetery showed how highly the deceased was esteemed.

With a sad heart we chronicle the first death for Murdock. Mrs. E. T. Tool, wife of our lumberman, who came to this place about six weeks ago, died July 27. Her departure has cast a gloom over our little village, but especially over the home that is now without a mother. The sympathy of this community is with Mr. Tool and his family in this hour of their bereavement.

#### Weather-Crop Bulletin.

BOSWELL OBSERVATORY, DOANE COLLEGE, CRETE August 2, 1892.—The first part of the past week was a continuation of hot, dry weather unfavorable for all crops; the middle and the last of the week was cooler and rain fell in all sections, decidedly improving the crop outlook.

The temperature has averaged, for the past week as a whole, below the normal in all sections of the state; varying from one degree in the eastern part of the state to nearly three in the west.

The rainfall has exceeded the normal in all sections except the extreme northern part of the state where but about a quarter of an inch fell, being less than half the normal amount; in the remainder of the state generally more than one inch fell.

Corn has been injured by the hot dry weather and will be less than the average crop for the state as a whole. Winter wheat is being thrashed and a very large yield is reported and of unusually good quality; rye is also a good crop, oats are about half a crop and potatoes are below the average condition. Hay is generally reported a good crop and pastures in fair condition.

#### Colorado's Cool Retreats.

During the "tourist season"—from June until September—the Burlington route has on sale round trip tickets, at very reduced rates, to the principal resorts of Colorado. To Denver, Colorado Springs, Manitou, Pueblo and Estes park (the most attractive spot in the whole state) particularly low rates are in force.

July and August are the best months in which to visit Colorado's unrivalled resorts, to all of which the Burlington, with its connections, offers unequalled service.

The local agent will be glad to give you any desired information.

#### Attention, Ivy D. of H!

Regular meeting tomorrow evening at K. of P. hall at 8:30 p. m. It is important that all members be present as there are communications from the grand lodge and delegates to be elected to the grand lodge session to be held at Hastings August 23. Sec'y

The independent state convention is in session to-day at Kearney. If Van Wyck secures the nomination he will have to hustle, as the followers of Powers are working hard. Besides, there is a big fight in the Douglas county delegation, which was supposed to be solid for Van Wyck.

#### WEAVER AND GEAR.

KINGMAN, Kan., July 12.—To the Editor.—Will you kindly state when it was General James B. Weaver was within two votes of defeating the Hon. John H. Gear for the republican nomination for governor of Iowa, and give his career in seeking office, either elective or appointive, since that time?

C. H. OGDON.

General Weaver never came within two votes of defeating the Hon. John H. Gear for the nomination for governor of Iowa. In 1875 Weaver and Gear were both candidates for the republican state convention of Iowa, but they were not the only candidates. There were five candidates—John Russell, John H. Gear, Robert Smythe, W. B. Fairfield, and James B. Weaver. No one had a majority, and Ex-governor Kirkwood's name was sprung when the time came to make the nomination. Russell and Gear both withdrew, and said their names should not be presented against the popular old Governor, Weaver, Smythe and Fairfield remained in the field and the informal vote was: Kirkwood, 308; Weaver, 200; Smyth, 111; and Fairfield, 33. The formal vote began, and so many votes from the other candidates went to Kirkwood that General Weaver's friends moved to make the nomination of Kirkwood unanimous.

General Weaver left the party in the next year, and in 1878 incoined the greenbackers and democrats to fuse with him as their candidates for congress. He was elected. In 1885, before his term in congress expired, Weaver was the greenback-labor candidate for president. In 1882 he again became the greenback candidate for congress in his old district, the Sixth Iowa. He was defeated. In 1884 and in 1886 as a fusion candidate he was elected. In 1888 he was again the fusion candidate for congress, but was defeated. Since then he has not been a candidate for office until now.—Inter Ocean.

Some Foolish People allow a cough to run until it gets beyond the reach of medicine. They say, "Oh, it will wear away," but in most cases it wears them away. Could they be induced to try the successful Kemp's Balsam, which is sold on a positive guarantee to cure, they would see the excellent effect after taking the first dose. Price 50c and \$1.
